*Monster, Human, Other* Laurel Gale,2017-09-19 For readers of Neil Gaiman’s Coraline and Jonathan Auxier’s The Night Gardener comes a perfectly peculiar tale that shows the scariest monsters are often the ones we create for ourselves. MONSTER. Isaac Read doesn’t feel like a monster. He’s just like every other kid on his block—as long as he tapes down his tail, that is! HUMAN. Wren wishes her adopted family would stop teasing her about her lousy sense of smell and poor sense of direction. It’s not her fault she doesn’t have their sensitive snouts and keen eyesight. OTHER. The overcrowded voracans hate getting walked all over—literally. They live underground. Broken promises and new alliances spell trouble for Wren and Isaac as the voracans try to claw their way to the top—and bring some unlikely suspects with them!

**Half-Human Monsters and Other Fiends** Ruth Owen,2013-01-01 Examines the many rumored monsters said to inhabit the world, including the Mothman, Bigfoot, the Chupacabra, and the Mongolian Death Worm.

**Humans vs Monsters** David A. King Jr,2019-01-31 The year is 1912. The world is reeling from the worldwide Great Depression, which has left every nation on earth reeling financially. During this time, two camps of nations have risen to prominence. The nations of America, France, England, and Russia, despite the economic collapses, have managed to start to pull themselves out of the Great Depression. On the other side is the UMN, the United Monster Nations, comprised of Transylvania (home of the vampires), Luciansburg (home of the werewolves, or Lycans), Covenia (home of the Witches or Wiccans), and Decemus (home of the zombies, or the walking dead). Both groups of nations are weary of one another. The UMN is ruled over with an iron hand by Grand Chancellor Alucard, who has brought to an end the centuries-long war between the monster races and has had the monster clans united in their hatred of mankind. At the outset of our story, the UMN has been on a military buildup for more than ten years now and is planning a massed military assault against the human nations listed above for control of the Earth. Though they preach for peace with America, this is just a clever ruse by Lord Alucard to buy his nations more time to prepare for war. One can only imagine the horrors of a conventional war. Gone are the days of lining up soldiers and having them simply walk into oncoming fire. This is a new century with new ways of warfare. A conventional war could mean the deaths of countless millions of lives, both monster and human.

Alien Spacecraft, Monsters and Improving Human Potential William M. Trantham,2013-01-24 Are UFOs Alien Spacecraft from other planets or time machines from our future? How does their propulsion system function? Did our ancestors come to earth in spacecraft from another world? Are Stonehenge, the pyramids and the Nazca Lines temples to pay homage to a master race from the stars? Do we have to exceed the speed of light to travel to other planets or are there gateways here on earth to other worlds and parallel dimensions? Are dinosaurs really extinct? See the photographic evidence. Travel on a journey with the author as he takes you on a true adventure through mans voyage into new frontiers from outer space, to documented encounters with alien spacecraft, monsters from the deep sea, and into the astral plane, realm of the disembodied dead. Explore inner space and tap the potential of the human mind. Discover the power of hypnosis, handwriting analysis, altered states of consciousness, body language, astral projection, and automatic writing. Learn to apply these tools in your own life to become a happier, healthier and more effective human being.

**Portraits of Human Monsters in the Renaissance** Touba Ghadessi,2018-03-13 At the center of this interdisciplinary study are court monsters--dwarves, hirsutes, and misshapen individuals--who, by their very presence, altered Renaissance ethics vis-a-vis anatomical difference, social virtues, and scientific knowledge. The study traces how these monsters evolved from objects of curiosity, to scientific cases, to legally independent beings. The works examined here point to the intricate cultural, religious, ethical, and scientific perceptions of monstrous individuals who were fixtures in contemporary courts.

The Humans Under the Bed Kevin Strange,Sean Ferrari,Carrion House,2013-11-11 500 years after monsters wiped out the human race, a quiet calm has settled over the population of nightmare creatures that go bump in the night. They work their monster jobs, raise their monster families, tend to their monster homes, and generally enjoy the peace and prosperity of life without their sworn enemies, the human scourge, that so blighted the land for so many centuries. In fact, the only inhabitants of this new monster world that even still speak of human kind are the children who share hushed secret fairy tales about evil humans coming up from underneath their beds, pulling the little monsters to their deaths. But of course these are just stories. Of course all the awful humans are dead. Or are they? Bizarro mainstay Kevin Strange brings this kids story for adults straight from the pages of the STRANGE FUCKING STORIES anthology as a stand-alone novelette that can best be described as Monsters, Inc. meets Full Metal Jacket if directed by David Cronenberg.

**This Broken Wondrous World** Jon Skovron,2015-09-02 My fellow monsters,"" said Moreau. ""No longer will we hide in the shadows, cringing, cowardly, hiding our true potential. You see, the humans do not view us as people. We must force them to expand their view of personhood to include us. By any means necessary."" A year ago, Boy, the son of Frankenstein's monster, had never even met a human. Now he's living with his human 'family', the descendants of Dr Frankenstein, in Switzerland. That is, until the maniacal genius Dr Moreau, long ago banished to a remote island for his crimes against humanity, asks for his aid. Moreau wants Boy to join his army of animal/human hybrid creatures and help him overthrow human society. Boy must choose: side with the twisted doctor and save his fellow monsters, or try to defend the humans who run the planet? Boy will do anything to save this broken, wondrous world from the war that threatens to split it in two. But how much will he have to give up? And is the world worth saving?

As American as Mom, Baseball, and Apple Pie Linda J. Holland-Toll,2001 This book does nothing less than redefine the very genre of horror fiction, calling into question the usual conventions, motifs, and elements. Unlike many critics of this genre, Linda Holland-Toll sees dis/affirmative horror fiction acting neither to soothe fears nor reduce them to the vicarious “thrills ‘n’ chills” mode, but as intensifying the fears inherent in everyday life.

*The Last Kids on Earth and the Nightmare King* Max Brallier,2017-09-26 A Netflix Original series! The third book in the New York Times, USA Today, and Wall Street Journal bestselling series, with over 7 million copies in print! Terrifyingly fun! Delivers big thrills and even bigger laughs.--Jeff Kinney, author of the #1 New York Times bestseller Diary of a Wimpy Kid Jack's friends make a startling discovery: they may not be the last kids on earth, after all. This is great news for everyone... except Jack. Once they've found other humans, his friends won't stick around for long! Jack's only hope for keeping things the way they are is to prove that everything here is perfect, life is crazy fun, and nothing else could be any better. After all, they live in a mind-clobberingly cool tree fort, speed through town playing real-life Mario Kart, have a crew of monster buddies, and battle zombies on the regular. That's as good as it gets! One problem: it's hard convincing his friends that everything is great when they're being hunted by a monstrous Nightmare King and an ancient evil who won't rest until Earth has been devoured. Crud! Maybe life after the monster apocalypse is more complicated than Jack thought... Told in a mixture of text and black-and-white illustration, this is the perfect series for any kid who's ever dreamed of starring in their own comic book or video game.
