Atlas of EEG, Seizure Semiology, and Management Karl Edward Misulis, Bassel Abou-Khalil, Hasan Sonmezturk, Kevin C. Ess, 2022 Electroencephalography (EEG) is an invaluable tool for evaluating patients with suspected seizures or encephalopathy, yet EEG is only one source of data, so information from this technology must be integrated with knowledge of basic science and clinical neurology. This work has a principal focus on EEG, but interleaves that discussion with information on seizures, epilepsy, encephalopathy, and other neurologic conditions for which EEG can be a useful diagnostic tool--

Music Video and the Politics of Representation Diane Railton, 2011-07-07 How can we engage critically with music video and its role in popular culture? What do contemporary music videos have to tell us about patterns of cultural identity today? Based around an eclectic series of vivid case studies, this fresh and timely examination is an entertaining and enlightening analysis of the forms, pleasures, and politics that music videos offer. In rethinking some classic approaches from film studies and popular music studies and connecting them with new debates about the current 'state' of feminism and feminist theory, Railton and Watson show why and how we should be studying music videos in the twenty-first century. Through its thorough overview of the music video as a visual medium, this is an ideal textbook for Media Studies students and all those with an interest in popular music and cultural studies.

Applied Screenwriting Carey Martin, 2024-02-27 Putting a vision on the page for creative and commercial video is harder than it seems, but author Carey Martin explains how to bring these tools to bear in the "work for hire" environment. Whilst other texts focus on writing the next award winner, this can be out of reach both logistically and financially for many. Instead, readers will learn how to write what they want the eyes of the audience to see and the ears of the audience to hear, in such a way that the Producer and Director can read the creative blueprint and bring that vision to life. The text will walk readers through a focused and practical consideration of the camera, the edit, and the sound design, in addition to a straightforward application of basic story principles. By understanding writing for video as more than creating a recorded play, readers will become more effective screenwriters and, should they wish, Producers and Directors as well. This book is ideal for students of screenwriting and those writing scripts for message-driven video for corporate, nonprofit, and commercial production.

Form and Meaning in Avant-Garde Collage and Montage Magda Dragu, 2020-02-06 This book uses intermedial theories to study collage and montage, tracing the transformation of visual collage into photomontage in the early avant-garde period. Magda Dragu distinguishes between the concepts of collage and montage, as defined across several media (fine arts, literature, music, film, photography), based on the type of artistic meaning they generate, rather than the mechanical procedures involved. The book applies theories of intermediality to collage and montage, which is crucial for understanding collage as a form of cultural production. Throughout, the author considers the political implications, as collages and montages were often used for propagandistic purposes. This book combines research methods used in several areas of inquiry: art history, literary criticism, analytical philosophy, musicology, and aesthetics.

Montage and the Metropolis Martino Stierli, 2018-01-01 Montage has been hailed as one of the key structural principles of modernity, yet its importance to the history of modern thought about cities and their architecture has never been adequately explored. In this groundbreaking new work, Martino Stierli charts the history of montage in late 19th-century urban and architectural contexts, its application by the early 20th-century avant-gardes, and its eventual appropriation in the postmodern period. With chapters focusing on photomontage, the film theories of Sergei Eisenstein, Mies van der Rohe's spatial experiments, and Rem Koolhaas's use of literary montage in his seminal manifesto *Delirious New York* (1978), Stierli demonstrates the centrality of montage in modern explorations of space, and in conceiving and representing the contemporary city. Beautifully illustrated, this interdisciplinary book looks at architecture, photography, film, literature, and visual culture, featuring works by artists and architects including Mies, Koolhaas, Paul Citroen, George Grosz, Hannah Höch, El Lissitzky, and Le Corbusier.

Film and Video Editing Theory Michael Frierson, 2018-03-28 Film and Video Editing Theory offers an accessible, introductory guide to the practices used to create

meaning through editing. In this book, Michael Frierson synthesizes the theories of the most prominent film editors and scholars, from Herbert Zettl, Sergei Eisenstein, and Noël Burch to the work of landmark Hollywood editors like Walter Murch and Edward Dmytryk. In so doing, he maps out a set of craft principles for readers, whether one is debating if a flashback reveals too much, if a certain cut clarifies or obscures the space of a scene, or if a shot needs to be trimmed. The book is grounded in the unity of theory and practice, looking beyond technical proficiency in a specific software to explain to readers how and why certain cuts work or don't work.

Beyond Spatial Montage Michael Betancourt, 2016-02-19 Beyond Spatial Montage: Windowing, or the Cinematic Displacement of Time, Motion, and Space offers an extended discussion of the morphology and structure of compositing, graphic juxtapositions, and montage employed in motion pictures. Drawing from the history of avant-garde and commercial cinema, as well as studio-based research, here media artist and theorist Michael Betancourt critiques cinematic realism and spatial montage in motion pictures. This new taxonomic framework for conceptualizing linkages between media art and narrative cinema opens new areas of experimentation for today's film editors, motion designers, and other media artists.

Bliss Montage Ling Ma, 2022-09-13 A National Indie Bestseller Winner of the National Book Critics Circle Award, the Story Prize, and a Windham-Campbell Literature Prize A Best Book of the Year at The New York Times, The New Yorker, Vogue, Houston Chronicle, Roxane Gay's The Audacity, Mashable, Polygon, Kirkus Reviews, and Library Journal A New York Times Book Review Editor's Choice "Uncanny and haunting . . . Genius." -Michele Filgate, The Washington Post "Dazzling." -Maureen Corrigan, NPR's Fresh Air What happens when fantasy tears the screen of the everyday to wake us up? Could that waking be our end? In Bliss Montage, Ling Ma brings us eight wildly different tales of people making their way through the madness and reality of our collective delusions: love and loneliness, connection and possession, friendship, motherhood, the idea of home. A woman lives in a house with all her ex-boyfriends. A toxic friendship grows up around a drug that makes you invisible. An ancient ritual might heal you of anything-if you bury yourself alive. These and other scenarios investigate the ways that the outlandish and the ordinary are shockingly, deceptively, heartbreakingly alike.

Transcultural Montage Christian Suhr, Rane Willerslev, 2013-10-01 The disruptive power of montage has often been regarded as a threat to scholarly representations of the social world. This volume asserts the opposite: that the destabilization of commonsense perception is the very precondition for transcending social and cultural categories. The contributors—anthropologists, filmmakers, photographers, and curators—explore the use of montage as a heuristic tool for comparative analysis in anthropological writing, film, and exhibition making. Exploring phenomena such as human perception, memory, visibility, ritual, time, and globalization, they apply montage to restructure our basic understanding of social reality. Furthermore, as George E. Marcus suggests in the afterword, the power of montage that this volume exposes lies in its ability to open the very "combustion chamber" of social theory by juxtaposing one's claims to knowledge with the path undertaken to arrive at those claims.

The Rise of the Image, the Fall of the Word Mitchell Stephens, 1998-10-08 Stephens sees in video's complexities, simultaneities, and juxtapositions, new ways of understanding and perhaps even surmounting the tumult and confusions of contemporary life.
