Kindergarten Math Games and Puzzles Amy Kraft,Sylvan Learning (Firm),2010 A solid foundation of basic math skills is essential for early success in math. Children who can connect their understanding of math to the world around them will be ready for the challenges of mathematics as they advance to more complex topics. The games and puzzles in this workbook are designed to help children enjoy practicing their math skills. Best of all, they'll have lots of fun doing it! Here's a peek at what's inside: Hide and Seek Counting objects in a picture, such as animals on a farm or shapes on a truck, helps bolster skills such as counting and identifying shapes. Domino Dots Putting dominoes in different formations reinforces skills such as number recognition, less than and more than, and completing patterns. Picking Pairs Drawing lines to connect objects that belong together, like a paintbrush and watercolor set, pail and shovel, or animals with their homes, sharpens sorting skills. Treasure Hunt Following directions to the real pirate treasure, and avoiding the fake ones, gives children practice with maps. Plus! Game Pieces The workbook includes spinners, dominoes, tangram pieces, and pattern blocks for children to cut out and use with the games and puzzles. Give your child's confidence in math a boost with Kindergarten Math Games & Puzzles.

Letters, Numbers, Shapes and Colors Petra Noval,2020-10-20 Have fun and learn about letters, shapes, numbers and colors in this Montessori inspired early learning book. From Inner cover: This book is set up to be used in the order of the chapters, but feel free to have fun with it however you prefer.First your little one learns how to visually match each letter of the alphabet to the sound you pronounce. Numbers come next accompanied by words spelled out as well as a quantitative cue.This way, the learner can associate numbers with letters and how many buttons correspond to the appropriate number. The third part is geometric shapes, a more complex concept. In this section there are realistic pictures of shapes along with the words spelled out to match. In the fourth chapter the child will get exposed to the concept of colors. Here, all the images that were seen in the previous chapters are organized by the color that they match to. This is where the fun comes in, your sweetie can practice a Find and Seek game where one image is identified asa specific color, then he or she can go back through the previous chapters to find it.We hope you will enjoy this fun learning experience, especially the Find and Seek game
