**Moon Phase Astrology** Raven Kaldera, 2011-03-28 A guide to understanding the phases of astrological Moon signs and their effects on emotions and personality • Describes the positive and negative character-defining traits of each of the 96 Moon phase/Moon sign combinations • Explains how to use your natal Moon's sign and phase to predict how current and approaching Moons can affect you • Explores the universal challenges arising during each Moon phase throughout the year and ways to honor each phase as it passes The Moon's ever-changing phases offer a way to deepen our understanding of our natal Moon sign as well as the Moon's day-to-day influence on our emotional tides. Through its 8 phases and its wandering dance through each of the 12 signs of the Zodiac—from the Infant's Moon (the New Moon in Aries) to the Storyteller's Moon (the Full Moon in Gemini) to the Prophet's Moon (the waning Balsamic Moon in Aquarius)—the Moon shares its story in 96 different ways. Telling the stories of the heart of all 96 Moon phase and Moon sign combinations, Raven Kaldera explains the creative gifts and emotional challenges bestowed upon those born under each Moon archetype as well as how to nurture the positive traits and improve—or at least discourage—the negative ones. Exploring the influences each Moon archetype has on us as it passes, the author reveals which Moons are the most difficult, what innate qualities each Moon brings out in us, and what we can do to honor each Moon. Including evocative quotes illuminating the nature of each Moon, Kaldera shows how to use your natal Moon's astrological sign and phase to find your “hidden Moons”—the shadows cast by passing Moons—and predict how current and approaching Moons will affect you.

**Moonstrology** Sara Wiseman,2021-01-24 I love the moon. I love its power, its mystery, the way it offers Universal connection to each of us, no matter where we are in the world or in the time passage of our lives. I love the changeable nature of the moon-the way it sways the water in our bodies and in the greater body of Gaia's oceans. There is love, there is enchantment, and when we are very still and very aware, the moon communicates wisdom. There are many extraordinary books about the cycles of the moon, which cover phases in minute detail. These are wonderful and offer great help to people who are interested in the deep study of pagan or shamanistic paths. This book is much simpler. It is designed to be a twice-monthly (and in some months, more frequent) touchstone to help you connect to the energy of the moon in its two most powerful spiritual phases-the new moon, and the full moon. As you become aware of the new and full moons in your life, and begin to work with this moon energy, you will find you becoming spiritual clear-you set intention at new moon using the influence of the sign the moon is entering, and you release at full moon, using the influence of the sign the moon is leaving. Over the course of a year, you will visit 12 (or more) signs in both the cycle of beginning and releasing, and you will have journeyed through a complete astrological cycle-physically, emotionally and spiritually.Because the moon does not inhabit the same

position on the same days every year, I have provided several moon phase calendars for the upcoming years. If you are reading this book after the last calendar listed, no problem. Simply go online and look for moon lunar phases or moon astrological phases to determine the exact date and time of the new and full moons in upcoming years. The information is free and readily available, and will be easy to find. Finally, I've decided to present Moonstrology in the order the moon cycles normally move through a calendar year, beginning in January. For example, we often begin with a new moon in Capricorn, full moon in Cancer. This is not how it works every January, but it is the order that you will most likely experience. In cases of lunar eclipses, expanded or moon phases or solar eclipses, these also happen differently every year. I would suggest you consult the calendars, or again, research your own in later years. Finally, this book is channeled. I approach spiritual connection with the moon in the same way I do all things, which is via direct connection with the Universe: I close my eyes, breathe deeply until I am relaxed, and slip into a meditative trance state where the words flow through me onto the page. Because of the way this information is received, it is probably or even certainly different than what you will find in other books. It is my offering to you, in hopes that it will spark a new understanding and a new way of working with this marvelous Divine mystery that is the moon.
