Moon Phase Astrology Raven Kaldera, 2011-03-28 A guide to understanding the phases of astrological Moon signs and their effects on emotions and personality • Describes the positive and negative character-defining traits of each of the 96 Moon phase/Moon sign combinations • Explains how to use your natal Moon's sign and phase to predict how current and approaching Moons can affect you • Explores the universal challenges arising during each Moon phase throughout the year and ways to honor each phase as it passes The Moon's ever-changing phases offer a way to deepen our

understanding of our natal Moon sign as well as the Moon's day-to-day influence on our emotional tides. Through its 8 phases and its wandering dance through each of the 12 signs of the Zodiac--from the Infant's Moon (the New Moon in Aries) to the Storyteller's Moon (the Full Moon in Gemini) to the Prophet's Moon (the waning Balsamic Moon in Aquarius)--the Moon shares its story in 96 different ways. Telling the stories of the heart of all 96 Moon phase and Moon sign combinations, Raven Kaldera explains the creative gifts and emotional challenges bestowed upon those born under each Moon archetype as well as how to nurture the positive traits and improve--or at least discourage--the negative ones. Exploring the influences each Moon archetype has on us as it passes, the author reveals which Moons are the most difficult, what innate qualities each Moon brings out in us, and what we can do to honor each Moon. Including evocative quotes illuminating the nature of each Moon, Kaldera shows how to use your natal Moon's astrological sign and phase to find your "hidden Moons"--the shadows cast by passing Moons--and predict how current and approaching Moons will affect you.
