**1970 Plymouth Superbird** Geoff Stunkard, 2018-04-16 Petty signs with Ford! Those four words tore through the racing world like a hot knife through butter while loyalists threw their hands up in disbelief. King Richard's defection was in part because Plymouth hadn't built a Dodge Daytona counterpart for the NASCAR circuit, in addition to the fact that Petty Enterprises wanted to be the sole racing parts distributor for Plymouth at the time. Plymouth weathered the backlash publically while privately scurrying to create a car to lure Richard back to Plymouth. That car? The 1970 Plymouth Superbird. Production models languished on salesroom floors due in part to NASCAR having increased the homologation requirement from 500 units to 2,000. These cars were highly specialized, seen as being in excess in proportion to the hottest street cars of the period. Fast-forward to today, Superbirds are highly collectible and are the star attractions at car shows and auctions, pulling top dollar and generating real excitement. What a difference a few decades makes! Each volume in the In Detail Series provides an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers.

**Mopar Muscle** Robert Genat, Now in paperback, this book covers Chrysler's incredible series of muscle cars. In 1955 Chrysler introduced the first of its famed 300 letter series cars. The company designed a stylish, sporty car, stuffed in one of its potent Hemi engines, and gave birth to the American muscle car. The C-300's combination of style and performance put the Mopar brand ahead of its competitors in the postwar performance race. When the Detroit performance wars began in earnest during the 1960s, Chrysler was well positioned to build the most outrageous, bodacious cars of an outrageous, bodacious era, cars like the famed Charger, Hemi Cuda, Road Runner, Superbird, and Challenger T/A. These cars dominated the dragstrips as well as the NASCAR ovals, and with color combinations guaranteed to burn out the corneas of your eyes if you stared at them directly, they ruled the streets of America; they ruled not just the streets, but the drive ins and parking lots. Nothing was cooler than Mopar muscle. Over the years these legendary Mopar muscle cars were the fastest, baddest assed, most outrageous machines to rip up American pavement. This lavishly produced book is definitely a feast for all fans of this line of cars: the photography (by David Newhardt) is absolutely stunning. Not only are the pictures big, and of the highest quality, but the thought that has gone into their composition is plain for all to see. It could be argued that given the striking nature of these cars, and the wonderful backdrops, it would be hard to go wrong, but Newhardt went the extra mile here, and it shows. The story is also very comprehensive, listing all of the cars from the line, and taking time to tell the story in a well-researched, yet caring way. It is obvious that Robert Genat knows the subject well and loves it even more. . . . This book is a must-have for all lovers of American muscle, and thanks to the sheer depth of its coverage and drop-dead-gorgeous photography, the asking price of £34.99 is something of a bargain. - Classic Car Weekly (UK)
