Sufism and Politics in Morocco Abdelilah Bouasria, 2015-02-11 Presenting a political history and sociology of Moroccan Sufism from colonialism to the modern day, this book studies the Sufi model of Master and Disciple in relation to social and political life, comparing the different eras of acquiescent versus dissident Sufism. This comparative fieldwork study offers new perspectives on the connection between the monarchy and mystic realms with a specific coverage of the Boutchichi order and Abdessalam Yassine's Al Adl Wal Ihsane, examining the myth of apolitical Sufism throughout the Middle East and North Africa. Drawing on Michel Foucault and James Scott, this book fuses thinking

about the political dimension of Sufism, a hidden transcript, involving power struggles, patronage and justice and its esoteric spiritual ethics of care. Addressing the lacuna in English language literature on the Boutchichi Sufi order in Morocco, this book will be of interest to students and scholars of Islamic Studies, Comparative Politics and the MENA region.

Moroccan Cinema Uncut Will Higbee Will Higbee, 2020-08-18 Moroccan film production has increased rapidly since the late 2000s, and Morocco is a thriving service production hub for international film and television. Taking a transnational approach to Moroccan cinema, this book examines diversity in its production models, its barriers to international distribution and success, its key markets and audiences, as well as the consequences of digital disruption upon it.

Religious Regimes and State Formation Eric R. Wolf, 1991-08-13 This book intends to systematically overcome the received practice of treating religion and politics as wholly separate and independent domains. It studies power and meaning in their antagonistic

interdependencies—rather than approaching religion purely as a realm of meaning without reference to issues of power, or dealing with politics as the province of power without raising questions of meaning. Religion and politics are thus seen in relation to one another, and attention is focused on the disputes about how political and religious regimes should be formed. *Religious Regimes and State Formation* will convince the reader that god and politics have much in common and offers surprising new perspectives on old problems.

The Director and Other Stories from Morocco Leila Abouzeid, 2006-01-02 New stories by Leila Abouzeid, the noted Moroccan writer, constitute an event for both East and West, for, as in her critically acclaimed novel, *Year of the Elephant*, the author cuts across cultural and national boundaries to offer fiction that has meaning for both Western and Middle Eastern readers. The stories in this volume deal with issues both traditional and modern—relations between parents and children, between husbands and wives, and between citizens of newly independent Morocco and its new nationalist representative government. Independence from French colonial rule has brought many changes to Morocco—some more beneficial than others. Women have entered the work force in great numbers, a development which has brought them new freedoms, but which has also caused problems within the traditional family. Abouzeid shows us how these changes have affected ordinary men and women, how small everyday events loom large in individual lives. To her crisp style, reminiscent of some Western realist novelists, she adds elements of Arabic fiction—the oral story-telling technique, for example. Abouzeid writes first in Arabic, which she has stated is a political choice. This makes her a literary pioneer in

North Africa, where, until recently, most authors wrote in French. Elizabeth Warnock Fernea has written an introduction for this book, setting the stories in historical context.

The Video Art of Sylvia Safdie Eric Lewis,2013-03-01 The Video Art of Sylvia Safdie brings into focus the complete video oeuvre of a pioneering Canadian artist. Tracing the development of Safdie's work and its implications for the future of media art, this volume provides a stunning perspective on her videos and sets a new standard for the presentation of video art in book form. Safdie's principal video works are presented in the form of more than 200 images, selected and arranged to suggest the content, rhythm, and movement of the videos themselves. Alongside the rich illustrations, the book explores Safdie's video art through a thoughtful introduction to the artist and two insightful critical essays. Eric Lewis relates her videos to her works in other media, considers how she poses key questions in the philosophy of art, and addresses issues concerning Jewish art and identity. He discusses the complex relationship between Safdie's video images and the improvised music she often employs as soundtracks. An essay by music scholar and

conductor Eleanor Stubleby explores the relationship between the body and mind in Safdie's videos, shedding light on the emotive and sensorial qualities of the breathing body. A vibrant appeal to both the eye and the mind, The Video Art of Sylvia Safdie showcases an artist at the vanguard of video and intermedia art and demonstrates how her work is representative of the next stage in artistic explorations of time, change, corporeality, and our place in nature.

Advancing Human Development Frances Stewart, Gustav Ranis, Emma Samman, 2018-02-17 Human Development has been advocated as the prime development goal since 1990, when the publication of the first UNDP Human Development Report proposed that development should improve the lives people lead in multiple dimensions instead of primarily pursuing economic growth. This approach forms the foundation of *Advancing Human Development: Theory and Practice*. It traces the evolution of approaches to development, showing how the Human Development approach emerged as a consequence of defects in earlier strategies. *Advancing Human Development* argues that Human Development is superior to measures of societal happiness. It investigates the determinants of success and failure in Human Development across countries over the past forty years, taking a multidimensional approach to point to the importance of social institutions and social capabilities as essential aspects of change. It analyses political conditions underlying the performance of Human Development, and surveys global progress in multiple dimensions such as life expectancy, infant mortality, and education and outcomes, whilst reflecting on dimensions which have worsened over time, such as rising inequality and declining environmental conditions. These deteriorating conditions inform *Advancing Human Development's* account of the challenges to the Human Development approach, covering the insufficient attention paid to macroeconomic conditions and the economic structure needed for sustained success.
