Samuel Morse, That's Who! Tracy Nelson Maurer,2019-06-25 Writer Tracy Nelson Maurer and illustrator El Primo Ramón present a lively picture book biography of Samuel Morse that highlights how he revolutionized modern technology. Back in the 1800s, information traveled slowly. Who would dream of instant messages? Samuel Morse, that's who! Who traveled to France, where the famous telegraph towers relayed 10,000 possible codes for messages depending on the signal arm positions—only if the weather was clear? Who imagined a system that would use electric pulses to instantly carry coded messages between two machines, rain or shine? Long before the first telephone, who changed communication forever? Samuel Morse, that's who! This dynamic and substantive biography celebrates an early technology pioneer.

There Is No App for Happiness Max Strom,2016-01-19 The revolutionary book on discovering your happiest self—now in paperback. Technology has expanded at such a rate that nearly every aspect of our world has been affected—yet there has been no corresponding expansion of personal happiness. Instead, we find that the wealthiest societies of the world have become depressed, anxious, sleep deprived, and overmedicated. Max Strom, author of A Life Worth Breathing and global teacher of personal transformation, reveals that we each have internal, human technology capable of empowering our lives and leading us to deeper levels of happiness. In his new book, There Is No App for Happiness, Strom illustrates three imperatives to take back control of our lives. Imperative One: Self-study. Overcoming our negative presets. Imperative Two: Live as if your time and your lifespan were the same thing. Imperative Three: Learn a daily regimen that heals and empowers you, and practice it one hour a day. Learn that joy and fulfillment require us to be active participants and that we should not strive for a virtual life—but a life truly lived. There Is No App for Happiness will propel you into a new and more meaningful experience of living.

Morse Code Wrens of Station X Anne Glyn-Jones,2017-01-31 Anne Glyn-Jones opens up the secret world of the interceptors of German Morse Code signals during World War II. Leaving her girls' boarding school with romantic ideas about joining the navy as a Wren, Anne had no idea that she would be working for the mysterious 'Station X', which we now know to be Bletchley Park. Round the clock shifts, bed bugs, rats and poor diet took its toll, as well as the ongoing lack of recognition from the Navy hierarchy. Morse Code Wrens of Station X is a very personal memoir of a young woman's experiences of war time service, as well as providing fascinating insights into the daily realities of the battle for military intelligence superiority.
