Mother and Child Claiborne Swanson Frank,2018-04-01 In the latest body of work by author and photographer Claiborne Swanson Frank, the artist set out to explore what modern motherhood means in the 21st century. Turning her lens on 70 iconic families of mothers and children from such celebrated names as Delfina Figueras, Carolina Herrera, Lauren Santo Domingo, Anne Vyalitsyna, Aerin Lauder, and Patti Hansen, Swanson Frank's stunning portraits capture the emotional bonds and beauty that frame the primal relationship of a mother and her child. Complementing her work is a series of questions-and-answers, in which Swanson Frank delicately tasks each mother to look within themselves and express what being a mother truly means to them. Their answers, while exceedingly thoughtful and introspective, are also amusing, fascinating, and moving. Each one of these deeply intimate and stunning portraits will captivate and inspire readers as they embark on this profound journey that reminds us all of the power of motherhood and the great gift of love.

*American Baby* Gabrielle Glaser,2021-01-26 A New York Times Notable Book The shocking truth about postwar adoption in America, told through the bittersweet story of one teenager, the son she was forced to relinquish, and their search to find each other. "[T]his book about the past might foreshadow a coming shift in the future... 'I don't think any legislators in those states who are anti-abortion are actually thinking, 'Oh, great, these single women are gonna raise more children.'" No, their hope is that those children will be placed for adoption. But is that the reality? I doubt it.'"[says Glaser]" -Mother Jones During the Baby Boom in 1960s America, women were encouraged to stay home and raise large families, but sex and childbirth were taboo subjects. Premarital sex was common, but birth control was hard to get and abortion was illegal. In 1961, sixteen-year-old Margaret Erle fell in love and became pregnant. Her enraged family sent her to a maternity home, where social workers threatened her with jail until she signed away her parental rights. Her son vanished, his whereabouts and new identity known only to an adoption agency that would never share the slightest detail about his fate. The adoption business was founded on secrecy and lies. American Baby lays out how a lucrative and exploitative industry removed children from their birth mothers and placed them with hopeful families, fabricating stories about infants' origins and destinations, then closing the door firmly between the parties forever. Adoption agencies and other organizations that purported to help pregnant women struck unethical deals with doctors and researchers for pseudoscientific assessments, and shamed millions of women into surrendering their children. The identities of many who were adopted or who surrendered a child in the postwar decades are still locked in sealed files. Gabrielle Glaser dramatically illustrates in Margaret and David's tale--one they share with millions of Americans—a story of loss, love, and the search for identity.

*Real Food for Mother and Baby* Nina Planck,2016-05-10 Ten years ago, Nina Planck changed the way we think about what we eat with the groundbreaking Real Food. And when Nina became pregnant, she took the same hard look at the nutritional advice for pregnancy and newborns, finding a tangle of often contradictory guidelines that seemed at odds with her own common sense. In Real Food for Mother and Baby, Nina explains why some commonly held ideas about pregnancy and infant nutrition are wrongheaded--and why real food is good for growing minds and bodies. While her general concept isn't surprising, some of the details might be. For expecting mothers and babies up to two years old, the body's overwhelming requirements are fat and protein, not vegetables and low-fat dairy--which is why, for example, cereals aren't right for babies, but meat and egg yolks are excellent. Nina shares tips and advice like a trusted friend, and in this updated edition, her afterword presents the latest findings and some newly won wisdom from watching her three children grow on real food.

**Oh Baby! A Mom's Self-Care Survival Guide for the First Year** Maria Lianos-Carbone,2018-03-01 You read all the birthing books, took the Lamaze classes, and made it through labor (mostly) unscathed, but now the baby is home—and it's a whole new ballgame! There are plenty of books and resources about how to properly care for your new baby, but what about caring for yourself? Maria Lianos-Carbone, founder of AMotherWorld.com, outlines the “proper care and feeding” of mothers during their baby's first year with humor and honesty. From the physical and emotional changes a new mom will undergo to rekindling intimacy with her partner, Oh Baby! Mom's Survival Guide for the First Year keeps the focus on moms—because you can't draw water (or breastmilk, for that matter) from an empty well. Maria's straight-talking, no-nonsense approach will give new moms everything they need to survive as they embark on the journey of motherhood. This book is not affiliated with or endorsed by Hestia International, Inc., the trademark owner and publisher of Oh Baby! Magazine in Canada.

*The Natural Mother of the Child* Kryz Malcolm Belc,2021-06-15 Kryz Malcolm Belc's visual memoir-in-essays explores how the experience of gestational parenthood—conceiving, birthing, and breastfeeding his son Samson—eventually clarified his gender identity. Kryz Malcolm Belc has thought a lot about the interplay between parenthood and gender. As a nonbinary, transmasculine parent, giving birth to his son Samson clarified his gender identity. And yet, when his partner, Anna, adopted Samson, the legal documents listed Belc as “the natural mother of the child.” By considering how the experiences contained under the umbrella of “motherhood” don't fully align with Belc's own experience, The Natural Mother of the Child journeys both toward and through common perceptions of what it means to have a body and how that body can influence the perception of a family. With this visual memoir in essays, Belc has created a new kind of life record, one that engages directly with the documentation often thought to constitute a record of one's life—childhood photos, birth certificates—and addresses his deep ambivalence about the “before” and “after” so prevalent in trans stories, which feels apart from his own experience. The Natural Mother of the Child is the story of a person moving past societal expectations to take control of his own narrative, with prose that delights in the intimate dailiness of family life and explores how much we can ever really know when we enter into parenting.

Oh Baby Kathy Fray,2016-02-29 Much-recommended by new mothers, this is the only book you'll need for the best baby advice. Now completely revised and updated. Refreshingly honest, openly frank and candidly blunt, this book has been written by a mother (who is also an experienced midwife) for other mothers. It oozes warm fuzzies, exudes realism in every paragraph and is refreshing in its guiltless honesty. Modern first-time mothers are often alone - devoid of once-traditional motherhood knowledge and practical support. Often previously self-confident women find themselves isolated, fumbling over everyday mothering tasks, enduring sleep deprivation, feeling desperately despondent - and aching and leaking everywhere. This book provides supportive, caring advice - one mum to another - while at the same time serving as an encyclopaedic medical reference regarding the mother and baby. Checked thoroughly by medical professionals, this book is a unique blend, like having access to a kind and gentle GP as well as to all the gems of wisdom of years of mothers' coffee groups. This title clearly and compassionately explains the ups as well as the downs which are perfectly normal aspects of giving birth and mothering in today's society.
