Phil Wain

*Motocourse* Dennis Noyes, 1999 This official history of the FIM Grand Prix motor cycle racing World Championship, since its formation in 1949, records the action from a sport that has seen massive changes during the last 50 years with Japanese manufacturers eclipsing their European rivals, purpose-built race circuits replacing true road courses and a reduction in the number of Grand Prix classes. In other respects it has enjoyed remarkable continuity, as motor cycle racing has remained the domain of the major manufacturers anxious to promote the awareness of their road machines. Contemporary Grand Prix designs are clearly descended from the bikes raced in the 1950s. This book traces the major trends and developments during the last 50 years and it profiles the legendary riders, teams and innovators that have dominated the sport during this period. Concluding the history is a comprehensive and detailed results section which provides an invaluable source of reference for any motor cycle enthusiast.

earliest beginnings on public road courses to today's purpose-built championship courses, Moto GP has always been about one thing: pushing man and machine to new heights of performance. Telling the story of how leading manufacturers such as Yamaha, Honda and Suzuki, have strived to build the perfect machine, and detailing the incredible rivalries of such sporting legends as Kenny Roberts and Barry Sheene, Freddie Spencer and Eddie Lawson, Valentino Rossi and Jorge Lorenzo – to name just a few – Phil Wain uncovers the stories behind historic races, the innovations that made the best bikes on the grid and describes the infamous moments in which riders were made champions. *Grand Prix Motorcycle Racers* Norm DeWitt, 2010-09-16 Until the 1970s, North America was

considered a backwater with respect to world championship-level motorcycle road racing. European racers viewed American riders as being less talented and rode around in circles on tracks made of dirt. That all changed when Kenny Roberts exploded onto the Grand Prix racing scene and became the first American to win the world championship in motorcycle road racing's premier class. Roberts' success launched an era of American dominance that lasted for nearly 20 years and still echoes through the annals of the sport. This is the story of the legendary American riders who beat the Europeans at their own game, including Freddie Spencer, Eddie Lawson, Wayne Rainey, Kevin Schwantz, Kenny Roberts Jr., and the most recent American world champion, Nicky Hayden. With additional chapters about the American World Superbike champions and those Americans who competed for the World Championship, this is the story road racing fans have been waiting decades to read.

**Ring of Fire** Rick Broadbent, 2010 MOTORCYCLE RACING. *Ring of Fire* covers the recent history of MotoGP, from American Nicky Hayden spectacularly overturning established champion Valentino

Rossi in 2006, through the emergence of wild young Australian Casey Stoner as the new champion in 2007, to the fierce rivalry between them and Spaniards Dani Pedrosa and Jorge Lorenzo in what would prove to be one of the most closely-contested years of racing in 2008. It gives a behind the scenes look at World Superbike Champion James Toseland's attempts to break into this elite, and looks back at the tradition of reprobates, romance and debauchery in the paddock dating back to the 60s and stars like Mike Hailwood and Giacomo Agostino. Rick Broadbent introduces us not just to the stars but also to the officials, mechanics, doctors, team owners and fans who make up this white-knuckle ride of a sport.

Moto GP Murray McLeod, 2016-01-18 From a relatively modest launch in 1949, with just six races on that year's programme, the World Motorcycle Championships have progressed to a spectacular global event, witnessed by an audience of millions, as spectators or TV viewers. The roots of this Moto GP phenomenon hark back to the 1920's when the focus of British and to a lesser extent European motorcycle manufacturers was largely directed to a handful of GP circuits, with the Isle of Man

generally regarded as the prime focus of their endeavours. A detailed review of that first fabulous decade with action photos and pencil portraits of the champions. A description of each race in the championship is featured, with an analysis of that year's results to make this book an item for the vintage enthusiast.

### **Engine Design Concepts for World Championship Grand Prix Motorcycles Alberto**

Boretti, 2012-08-06 The World Championship Grand Prix (WCGP) is the premier championship event of motorcycle road racing. The WCGP was established in 1949 by the sport's governing body, the Fédération Internationale de Motocyclisme (FIM), and is the oldest world championship event in the motorsports arena. This book, developed especially for racing enthusiasts by motorsports engineering expert Dr. Alberto Boretti, provides a broad view of WCGP motorcycle racing and vehicles, but is primarily focused on the design of four-stroke engines for the MotoGP class. The book opens with general background on MotoGP governing bodies and a history of the event's classes since the competition began in 1949. It then presents some of the key engines that have been developed and

used for the competition through the years. Technologies that are used in today's MotoGP engines are discussed. A sidebar discussion on calculating brake, indicated, and friction performance parameters provides mathematical information for readers who like such technical details. Future developments of MotoGP engines, including the use of biofuels and recovery of thermal and braking energy, are presented. The introduction concludes with a chart that details the winners of the various classes of WCGP motorcycle racing since the competition began in 1949. The bulk of the book consists of four previously published SAE technical papers that were expressly chosen by Dr. Boretti to provide greater insight to the relationships between engine parameters and performance, namely the influence on friction and mean effective pressure of traditional spark ignited four stroke engines tuned for a narrow high power output. The first paper provides the reader with a quick way to estimate the friction loss and engine output. The second paper discusses output and fuel consumption of multi-valve motorcycle engines. The third paper, published in 2002, compares WCGP engines developed to comply with the then-new FIM regulations that allowed four-stroke engines in the competition. The fourth paper

examines specific power densities and therefore the level of sophistication and costs of MotoGP 800 cm<sup>3</sup> engines. This paper shows the performance of these as well as the 1000cc SuperBike engines. The fifth paper presents four engine concepts including one for a MotoGP/Superbike with 2 and 3 cylinders. The sixth paper compares 3 and 4 in-line, V4, V5, and V6 layouts through 1-D engine simulations. The seventh paper considers the actual operation of 800cc MotoGP engines on the race track, where the percentage of the duration in fully open throttle is less than 20% of the race, but the partial throttle is used for as much as 80% of the race. The final paper in the compendium reports on the Honda oval piston engine concept.

**Never Say Never** Nick Harris, 2019-05-23 'The unmistakable voice of Moto GP' - Valentino Rossi As 'The Voice' of motorcycle racing for forty years, commentator Nick Harris became the biggest star not on two wheels in the paddock, and this is his mostly eye-witness, white-knuckle account of MotoGP's scorching seventy-year history. The story starts on the Isle of Man in 1949, when Geoff Duke, with his slicked-back hair and one-piece black leathers, became the nation's hero, defying the odds and

winning the most dangerous race in the world on a British-built Norton. Just over a decade later at Mallory Park, another British champion and one of the greatest riders of all time Mike Hailwood screamed past a young Nick Harris on his 250cc Honda, and a life-long passion was born. Harris has been at the centre of the sport for decades, getting to know the riders as individuals, seeing feuds unfold, champions made, careers and sometimes lives ended. We'll see the biggest podium stars up close, from Barry Sheene and Kenny Roberts to Valentino Rossi, and we'll meet the mechanics behind them, the manufacturers who poured millions into the teams, and the organisers who, in the early days, ruthlessly compromised rider safety for profits. The drama has often been as tense off the track as on it. This is the book the motorcycling world has been waiting for.

**Motocourse 2020-2021** Michael Scott, 2021-02-16 MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite the World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round saw him side-lined for much of

the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped up in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales, Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winning machine saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of a compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where Italian riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Arenas, Ai Ogura and John McPhee hotly disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea looking to retain his championship title for the sixth successive year, ahead of the chasing pack

including Alvaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport Championship, The British Superbike Championship and the AMA USA Superbike series. Incredible value for money, with 304 large-format pages, bursting with over 450 stunning colour photographs from the world's finest photographers, MOTOCOURSE covers it all. No wonder MOTOCOURSE is regarded worldwide as 'The Bible of Motorcycle Racing'.

**Performance Riding Techniques** Andy Ibbott, 2009 The second edition of this official Moto GP guide, aimed at racing and track day enthusiasts at all levels, has been expanded to include extra information and many new photos and quotes from today's Moto GP stars.

**Wreckless** Katie Golding, 2021-05-25 On the streets, we're kerosene and a lit match: Explosive. Incendiary. Ready to let the world burn. But in the bedroom, we can be so much more. I'll never forget the day she walked into my life. Brash and confident, Lorelai Hargrove was bound to be America's damned Sweetheart—and the way she looked at me made me feel like dirt beneath her heel. It

shouldn't have bothered me. I've spent years fighting to prove myself to this world, even as I struggled to save my family from ruin, and there's nothing and no one who can truly match me. But something about the way she looked at me then made me eager to see her try... And now? Well now, this is the game we play. She pretends she hates me, and I wind her up into a fury as I pretend she's not all I can think about at night. The whole world knows just how well we hate each other...and yet the minute she needs me to stop being her favorite enemy, I'll be there to show her just how good we could really be... If only this endless battle wasn't destined to cost us everything. A spicy New Adult rivals to lovers romance.
