Velodrome Racing and the Rise of the Motorcycle R.K. Keating,2021-03-18 A hybrid machine--powered at times by steam, electricity or internal combustion--the motorcycle in its infancy was an innovation to help bicycle racers go faster. As motor age technology advanced, the quest for greater speed at the velodrome peaked, with riders reaching speeds up to 100 kph on bikes and trikes without brakes, suspensions or gear boxes. This book chronicles the individuals and events at the turn of the 20th century that led to the development of motor-powered two-wheelers.

Peter Williams Designed To Race Peter Williams,2012-10-14 On his day, Peter Williams was the best motorcycle road racer in the world and is one of that small band of sportsmen, 'the best never to win a World Championship'. Peter's unique career in the 1960s and 1970s as racer, designer and development engineer culminated in many great victories on bikes from 125cc to 750cc. For two months in 1967 he lead the 500cc class of the World Championship on his single cylinder 500cc Mkl Arter Matchless Special against the much more powerful Honda and MV Augusta multis of Mike Hailwood and Giacomo Agostini. Just when he was, perhaps, due for a 'works' ride, the Japanese withdrew from Grand Prix road racing and Peter joined the re-emergent manufacturers of Norton. Peter had two consuming passions; riding his motorcycles at 10/10ths of the limit, and for Britain to regain motorcycle supremacy. Indeed, the latter was his mission, his crusade, and so he rode almost exclusively British motorcycles but, interestingly, won his only Grand Prix on a foreign one. Peter's engineering designs gave him advantage on the race track and set the trends for what motorcycles are today. He was one of the first to design and race with disc brakes, the first in the world to design and use cast magnesium wheels and tubeless tyres. Peter won the 1970 500cc class British Championship and was the first in motorcycle racing to benefit from tobacco sponsorship. The 1973 John Player Norton 'Monocoque' incorporated all his previous experiments and the first twin spar frame. The pinnacle of his career came on this machine when he won the Formula 750 TT in the Isle of Man with record race and lap speeds. Peter's racing career came to an end in 1974 with a terrible crash at Oulton Park but his engineering continued with work at Cosworth Engineering and Lotus Engineering. Motorcycle innovation continues, too, with his true monocoque design, his Shell Chassis, which, in its electric drive form, finished 5th in its very first outing in the 2010 TT Zero.

A Guide to Motorcycle Racing Hedley J. Cox,2015-05-14 United States motorcycle enthusiasts can learn a lot by looking to their peers in Europe, which has as rich a history as they do. Hedley J. Cox was living in England when he became involved in racing in the early 1950s. An engineer of the first order, he raced and designed machines and traveled with a team to International Grand Prix meetings in Europe. In this behind-the-scenes look at the world of motorcycle racing, youll learn the answers to questions such as: How does management politics affect racing? Why did British motorcycle manufacturers lose the spirit of adventure that is so necessary in racing? What happened when that sense of adventure was lost? He also examines the state of racing in the Canada, where he raced for a big manufacturer after moving to the United States. At every turn and curve, he encouraged others to embrace new ideas to beat competitors. Join the author on a fascinating journey that spans thousands of miles with three different manufacturers with A Guide to Motorcycle Racing.

Grand Prix Motorcycle Racers Norm DeWitt,2010-09-16 Until the 1970s, North America was considered a backwater with respect to world championship-level motorcycle road racing. European racers viewed American riders as being less talented and rode around in circles on tracks made of dirt. That all changed when Kenny Roberts exploded onto the Grand Prix racing scene and became the first American to win the world championship in motorcycle road racing's premier class. Roberts' success launched an era of American dominance that lasted for nearly 20 years and still echoes through the annals of the sport. This is the story of the legendary American riders who beat the Europeans at their own game, including Freddie Spencer, Eddie Lawson, Wayne Rainey, Kevin Schwantz, Kenny Roberts Jr., and the most recent American world champion, Nicky Hayden. With additional chapters about the American World Superbike champions and those Americans who competed for the World Championship, this is the story road racing fans have been waiting decades to read.

Mick Walker's European Racing Motorcycles Mick Walker,2000 While the history of European ompetition motorcycles has been largely dominated by Italian, British, and German marques, other builders around the continent have also played significant roles from the turn of the century to present. Arranged by nation, this book examines more than two dozen important marques, including Bultaco, CZ, Elf, Husqvarna, KTM, Ossa, Peugeot, and many others. A wealth of rare photography, including a special color section, includes candid shots of the top personalities and the bikes both at rest and at speed.

Dirt Bike Racers James Holter,2010-01-01 An exciting new series of high interest books that will appeal to even the most reluctant readers contains action-packed photographs and stories of the hottest racing vehicles and races for kids.

Motorcycle GP Racing in the 1960s Chris Pereira,2014-04-15 This book examines the classic period of Grand Prix racing from 1960 to 1969, and the men and machines involved. A fascinating exploration of the last decade of ‘traditional’ Grand Prix racing, before significant events changed the nature of the sport forever.

Never Say Never Nick Harris,2019-05-23 'The unmistakable voice of Moto GP' - Valentino Rossi As 'The Voice' of motorcycle racing for forty years, commentator Nick Harris became the biggest star not on two wheels in the paddock, and this is his mostly eye-witness, white-knuckle account of MotoGP's scorching seventy-year history. The story starts on the Isle of Man in 1949, when Geoff Duke, with his slicked-back hair and one-piece black leathers, became the nation's hero, defying the odds and winning the most dangerous race in the world on a British-built Norton. Just over a decade later at Mallory Park, another British champion and one of the greatest riders of all time Mike Hailwood screamed past a young Nick Harris on his 250cc Honda, and a life-long passion was born. Harris has been at the centre of the sport for decades, getting to know the riders as individuals, seeings feuds unfold, champions made, careers and sometimes lives ended. We'll see the biggest podium stars up close, from Barry Sheene and Kenny Roberts to Valentino Rossi, and we'll meet the mechanics behind them, the manufacturers who poured millions into the teams, and the organisers who, in the early days, ruthlessly compromised rider safety for profits. The drama has often been as tense off the track as on it. This is the book the motorcycling world has been waiting for.
