21st-Century Narratives of Maternal Ambivalence Rachel Williamson,2023-10-17 Motherhood has long been depicted in reductive or limited terms. At once valorized and configured as the ultimate end-goal for socially condoned femininity, maternity is also highly mediated and scrutinized. This has resulted in a representational tradition that persists in imagining maternal subjects in rigid binary terms, pitting good mothers against bad. Largely in response to this repressive schema, recent years have marked the emergence of a diverse range of visual and literary texts about motherhood. While such texts vary in style, genre and form, this book argues that they are unified in their efforts to publicize embodied maternal experience and foreground maternal ambivalence, a concept that is best understood as a mother's capacity to simultaneously love and hate her child. Although maternal ambivalence has become an increasingly popular topic of study with maternal scholars, its articulation within contemporary representations and narratives has yet to be adequately theorized and addressed, and this book aims to fill this gap.

James Bond in the 21st Century Glenn Yeffeth, Leah Wilson,2009-06-22 The staying power of the world's most dashing secret agent and the evolution of the James Bond franchise are explored in this smart yet nostalgic collection of essays. Leading writers, including Raymond Benson, J.A. Konrath, Raelynn Hillhouse, and John Cox, discuss the ten sexiest Bond girls, the best villains, and the controversy surrounding the latest actor to play James Bond. Topics covered range from the playful—how to build a secret lair and avoid the perennial mistakes made by would-be world dominators—to the thought-provoking, such as Bond's place in the modern world, his Oedipal tendencies and perceived misogyny, and the unerring allure of the charming spy.

Fault Line Billy Hallowell,2017 Understand how to respond to the battle being waged against our foundation through the mainstream media, the entertainment industry, and the educational system. More Americans than ever are counting themselves among the nones--the cohort of Americans who are not necessarily atheistic, but who do not claim allegiance to a particular religious system. The key question is: why? Consider that the nation's three main educational systems--the mainstream media, entertainment, and the university system--lean to the political left and typically paint an inaccurate picture of what Christianity truly is. With this in mind, Billy Hallowell skillfully explores how society's main educational avenues fail to deliver fair-minded content and how their biases are reinforcing negative values and fueling the rise of the nones. Hallowell also offers practical steps for all Christians to take and provides advice on how to respond to these growing problems.
