Assertions are backed by countless psychological studies.” —The Boston Globe “Powerful and provocative . . . Prisoner of Trebekistan Bob Harris, 2006-09-05 Welcome to the world of Jeopardy!
where obscure information is crucial to survival, vast sums of cash are at stake, and
milliseconds can change not just a game but the course of your entire life. Prisoner of
Trebekistan is Bob Harris's hilarious, insightful account of one man's unlikely epic journey
through Jeopardy!, gleefully exploring triumph and failure, the nature of memory, and how
knowledge itself can transform you in unpredictable ways—all against the backdrop of the
most popular quiz show in history. Bob chronicles his transformation from a struggling
stand-up comic who repeatedly fails the Jeopardy! audition test into an elite player
competing against the show's most powerful brains. To get there, he embarks on a series of
intense study sessions, using his sense of humor to transform conventional memory skills
into a refreshingly playful approach to learning that's as amusing as it is powerful. What
follows is not only a captivating series of high-stakes wins and losses on Jeopardy!, but also

a growing appreciation of a borderless world that Bob calls Trebekistan, where a love of learning reigns and the smarter you get the more you realize how much you don't yet know. Filled with secrets that only a veteran contestant could share—from counterintuitive game strategies to Jedi-like tactics with the Jeopardy! signaling device—Prisoner of Trebekistan also gives you the chance to play along with the actual clues that led to victory or defeat in high-level tournaments, plus candid, moving reflections on how the games affected Bob's offstage life—and vice versa. Blink Malcolm Gladwell, 2007-04-03 From the #1 bestselling author of *The Bomber Mafia*, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now, in *Blink*, he revolutionizes the way we understand the world within. *Blink* is a book about how we think without thinking, about choices that seem to be made in an instant--in the blink of an eye--that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work--in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink* we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the

tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of blink: the election of Warren Harding; New Coke; and the shooting of Amadou Diallo by police. Blink reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of thin-slicing--filtering the very few factors that matter from an overwhelming number of variables.
