The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

GoPro MAX: How To Use GoPro Max Jordan Hetrick,2020-07-01 Learn everything you need to know to master your GoPro MAX 360 camera in this guide book from the #1 AMAZON BEST SELLING AUTHOR on how to use GoPro cameras. Written specifically for GoPro Max, this is the perfect guide book for anyone who wants to learn how to use the GoPro Max camera to capture unique 360 and traditional videos and photos. Packed with color images, this book provides clear, step-by-step lessons to get you out there using your GoPro MAX camera to document your life and your adventures. This book covers everything you need to know about using your GoPro MAX camera. The book teaches you: *how to operate your GoPro Max camera; *how to choose settings for full 360 spherical video; *how you can tap into the most powerful, often overlooked settings for traditional video; *tips for the best GoPro mounts to use with GoPro Max; *vital 360 photography/cinematography knowledge; *simple photo, video and time lapse editing techniques for 360 and traditional output and *the many ways to share your edited videos and photos. Through the SEVEN STEPS laid out in this book, you will understand your camera and learn how to use mostly FREE software to finally do something with your results. This book is perfect for beginners, but also provides in depth knowledge that will be useful for intermediate camera users. Written specifically for the GoPro MAX camera.

Dad, How Do I? Rob Kenney,2021-05-18 “Like the YouTube channel, this is a touching yet informative guide for those seeking fatherly advice, or even a few good dad jokes.” — Library Journal

Game Master: Mansion Mystery Rebecca Zamolo,Matt Slays,2022-03-01 New York Times bestselling authors and creators of the mega-popular YouTube series Game Master Network Matt and Rebecca Zamolo return with a brand-new adventure about everyone's favorite mystery-solving team. Rebecca Zamolo has managed to foil the Game Master's plans before, but this time the Game Master has snake-napped Nacho, her good friend Miguel's pet. No way is Becca going to let the Game Master get away with this dastardly plan. But when the clues lead Becca and her new friends in the direction of the one house in their entire neighborhood that none of them ever want to go near, they know they have no choice but to screw up their courage and dare to investigate, if they want to rescue Nacho. But the problem is that getting into the superspooky house is way easier than getting out. The Game Master is up to their old tricks, and Becca, Matt, Kylie, Frankie, and Miguel are going to have to face their fears and use all their smarts and strengths to solve the puzzles and games and save the day. Mansion Mystery is another action-packed adventure from New York Times bestselling authors and super-sleuthing team Rebecca and Matt Zamolo, stars of the hugely popular Game Master Network.

50 Ways to Use YouTube in the Classroom Patrick Green,2019-10-20 Your students are already accessing YouTube, so why not meet them where they are as consumers of information? By using the tools they choose, you can maximize their understanding in ways that matter. 50 Ways to Use YouTube in the Classroom is an accessible guide that will improve your teaching, your students' learning, and your classroom culture.

Digital Culture & Society (DCS) Ramón Reichert,Annika Richterich,Pablo Abend,Mathias Fuchs,Karin Wenz,2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

Parasite Bong Joon Ho,2020-05-19 Discover the illustrations that inspired the historic, OSCAR®-winning film's every shot in this graphic novel drawn by Director Bong Joon Ho himself. So metaphorical: With hundreds of mesmerizing illustrations, *Parasite: A Graphic Novel in Storyboards* is a behind-the-scenes glimpse at the making of one of the best films in years and a brand-new way to experience a global phenomenon. As part of his unique creative process, Director Bong Joon Ho storyboarded each shot of *PARASITE* prior to the filming of every scene. Accompanied by the film's dialogue, the storyboards he drew capture the story in its entirety and inspired the composition of the film's every frame and scene. Director Bong has also written a foreword and provided early concept drawings and photos from the set, which take the reader even deeper into the vision that gave rise to this stunning cinematic achievement. Director Bong's illustrations share the illuminating power of his writing and directing. The result is a gorgeous, riveting read and a fresh look at the vertiginous delights and surprises of Bong Joon Ho's deeply affecting, genre-defying story.

YouTube Alan Lastufka,Michael Dean,2008-11-25 Explains how to view, upload, and share videos with friends and the Internet community using the YouTube website.

Writing a Great Movie Jeff Kitchen,2006 Let's cut to the chase:Writing a Great Movie is a practical nuts-and-bolts manual to dramatic writing for film. This hands-on course in screenwriting shows how to create, develop, and construct an original screenplay from scratch using seven essential tools for the screenwriter—(1) Dilemma, Crisis, Decision and Action, and Resolution; (2) Theme; (3) the 36 Dramatic Situations; (4) the Enneagram; (5) Research and Brainstorming; (6) the Central Proposition; and (7) Sequence, Proposition, and Plot—which break the writing process down into approachable steps and produce great results. Author Jeff Kitchen—a working screenwriter, renowned dramaturge, and teacher at the University of Southern California's graduate film school—shares the insider secrets he has developed over years of writing and teaching.Writing a Great Movie is the complete guide to creating compelling screenplays that will sell. • State-of-the-art screenwriting theory and technique from a master • Author named one of today's top screenwriting teachers in *Creative Screenwriting* magazine • Great for writers at every level, beginner to established

Operation Paperclip Annie Jacobsen,2014-02-11 The explosive story of America's secret post-WWII science programs, from the author of the New York Times bestseller *Area 51* In the chaos following World War II, the U.S. government faced many difficult decisions, including what to do with the Third Reich's scientific minds. These were the brains behind the Nazis' once-indomitable war machine. So began Operation Paperclip, a decades-long, covert project to bring Hitler's scientists and their families to the United States. Many of these men were accused of war crimes, and others had stood trial at Nuremberg; one was convicted of mass murder and slavery. They were also directly

responsible for major advances in rocketry, medical treatments, and the U.S. space program. Was Operation Paperclip a moral outrage, or did it help America win the Cold War? Drawing on exclusive interviews with dozens of Paperclip family members, colleagues, and interrogators, and with access to German archival documents (including previously unseen papers made available by direct descendants of the Third Reich's ranking members), files obtained through the Freedom of Information Act, and dossiers discovered in government archives and at Harvard University, Annie Jacobsen follows more than a dozen German scientists through their postwar lives and into a startling, complex, nefarious, and jealously guarded government secret of the twentieth century. In this definitive, controversial look at one of America's most strategic, and disturbing, government programs, Jacobsen shows just how dark government can get in the name of national security.

Grit Angela Duckworth, 2016-05-03 In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-geniuses everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit*'s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

Building Your Online Business on Today's Internet! ASTNT Technologies Private Limited, StartUp199, Technical Next, Middle East Headlines, Celetokers, FameUp, India Meet App, Today's internet is interactive and easy to use. There are hundreds of thousands of interactive sites that are available to post free comments, thoughts, blogs and articles. Writers and wannabe writers can post as many articles as they want in many different websites that welcome free information. Many sites even pay for these articles. Videos are also a very popular part of the new internet. People can now download their own homemade video on sites like You Tube for free and gain instant fame. Some sites will pay for how many visitors you receive on your page.

Deep Learning for Coders with fastai and PyTorch Jeremy Howard, Sylvain Gugger, 2020-06-29 Deep learning is often viewed as the exclusive domain of math PhDs and big tech companies. But as this hands-on guide demonstrates, programmers comfortable with Python can achieve impressive results in deep learning with little math background, small amounts of data, and minimal code. How? With fastai, the first library to provide a consistent interface to the most frequently used deep learning applications. Authors Jeremy Howard and Sylvain Gugger, the creators of fastai, show you how to train a model on a wide range of tasks using fastai and PyTorch. You'll also dive progressively further into deep learning theory to gain a complete understanding of the algorithms behind the scenes. Train models in computer vision, natural language processing, tabular data, and collaborative filtering Learn the latest deep learning techniques that matter most in practice Improve accuracy, speed, and reliability by understanding how deep learning models work Discover how to turn your models into web applications Implement deep learning algorithms from scratch Consider the ethical implications of your work Gain insight from the foreword by PyTorch cofounder, Soumith Chintala

Nothing Fancy Alison Roman,2019-10-22 NEW YORK TIMES BESTSELLER • The social media star, New York Times columnist, and author of *Dining In* helps you nail dinner with unfussy food and the permission to be imperfect. “Enemy of the mild, champion of the bold, Ms. Roman offers recipes in *Nothing Fancy* that are crunchy, cheesy, tangy, citrusy, fishy, smoky and spicy.”—Julia Moskin, The New York Times IACP AWARD FINALIST • NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY The New York Times Book Review • The New Yorker • NPR • The Washington Post • San Francisco Chronicle • BuzzFeed • The Guardian • Food Network An unexpected weeknight meal with a neighbor or a weekend dinner party with fifteen of your closest friends—either way and everywhere in between, having people over is supposed to be fun, not stressful. This abundant collection of all-new recipes—heavy on the easy-to-execute vegetables and versatile grains, paying lots of close attention to crunchy, salty snacks, and with love for all the meats—is for gatherings big and small, any day of the week. Alison Roman will give you the food your people want (think DIY martini bar, platters of tomatoes, pots of coconut-braised chicken and chickpeas, pans of lemony turmeric tea cake) plus the tips, sass, and confidence to pull it all off. With *Nothing Fancy*, any night of the week is worth celebrating. Praise for *Nothing Fancy* “[*Nothing Fancy*] is full of the sort of recipes that sound so good, one contemplates switching off any and all phones, calling in sick, and cooking through the bulk of them.”—Food52 “[*Nothing Fancy*] exemplifies that classic Roman approach to cooking: well-known ingredients rearranged in interesting and compelling ways for young home cooks who want food that looks (and photographs) as good as it tastes.”—Grub Street

Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

The First 20 Hours Josh Kaufman,2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of

the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Death of a whistleblower and Cochrane's moral collapse Peter C. Gøtzsche, 2019-02-01 Professor Peter C. Gøtzsche co-founded the Cochrane Collaboration in 1993 and has become one of the most respected academics of his time. His career has exposed malfeasance in the pharmaceutical industry, human clinical trials and drug regulatory agencies, empowering Cochrane to evolve into one of the world's most trusted scientific institutions. However, in September 2018, he was unceremoniously expelled after what can only be described as a show trial that left the rest of the world wondering what happened. Gøtzsche fought to uphold Cochrane's original values of transparency, rigorous science, free scientific debates, and collaboration. But instead of maintaining scientific integrity, Cochrane's leadership had become consumed with managing the charity like a business, promoting its brand and products and demanding the censorship of dissenting views. For the first time, Gøtzsche pulls back the covers on this unscrupulous process, giving us all access to secret recordings, which reveal how his own organisation betrayed him and mislead millions of people after Cochrane cowered to the threats and intimidation from his critics. This is the fascinating story about institutional corruption in one of the world's most venerated charities, which ultimately led to the worst show trial in academia you can imagine.

Whispering the Secrets of Language: An Emotional Journey through **Movie Tuber Pro Watch Free Videos From Youtube**

In a digitally-driven earth where monitors reign great and immediate communication drowns out the subtleties of language, the profound secrets and emotional nuances hidden within words often go unheard. However, situated within the pages of **Movie Tuber Pro Watch Free Videos From Youtube** a fascinating literary value sporting with raw feelings, lies an extraordinary quest waiting to be undertaken. Composed by a talented wordsmith, this charming opus attracts readers on an introspective trip, gently unraveling the veiled truths and profound impact resonating within the very fabric of each word. Within the psychological depths of the emotional evaluation, we shall embark upon a genuine exploration of the book's primary subjects, dissect its interesting publishing design, and yield to the powerful resonance it evokes deep within the recesses of readers' hearts.
