## Acknowledgments Index

**Screenwriting** Andrew Horton, Julian Hoxter, 2014-08-23 Screenwriters often joke that "no one ever paid a dollar at a movie theater to watch a screenplay." Yet the screenplay is where a movie begins, determining whether a production gets the "green light" from its financial backers and wins approval from its audience. This innovative volume gives readers a comprehensive portrait of the art and business of screenwriting, while showing how the role of the screenwriter has evolved over the years. Reaching back to the early days of Hollywood, when moonlighting novelists, playwrights, and journalists were first hired to write scenarios and photoplays, *Screenwriting* illuminates the profound ways that screenwriters have contributed to the films we love. This book explores the social, political, and economic implications of the changing craft of American screenwriting from the silent screen through the classical Hollywood years, the rise of independent cinema, and on to the contemporary global multi-media marketplace. From *The Birth of a Nation* (1915), *Gone With the Wind* (1939), and *Gentleman's Agreement* (1947) to *Chinatown* (1974), *American Beauty* (1999), and *Lost in Translation* (2003), each project began as writers with pen and ink, typewriters, or computers captured the hopes and dreams, the nightmares and concerns of the periods in which they were writing. As the contributors take us behind the silver screen to chronicle the history of screenwriting, they spotlight a range of key screenplays that changed the game in Hollywood and beyond. With original essays from both distinguished film scholars and accomplished screenwriters, *Screenwriting* is sure to fascinate anyone with an interest in Hollywood, from movie buffs to industry professionals.

His students have written more than ten projects for Steven Spielberg alone, plus hundreds of other Hollywood blockbusters and prestigious indie productions, including two Oscar winners for best original screenplay—*Milk* (2008) and *Sideways* (2006). In this updated edition, Walter integrates his highly coveted lessons and principles from *Screenwriting* with material from his companion text, *The Whole Picture*, and includes new advice on how to turn a raw idea into a great movie or TV script—and sell it.
