Communicating Sustainability for the Green Economy Lynn R Kahle,Eda Gurel-Atay, 2015-01-28 With chapters written by experts in their field, this volume advances the understanding of theory and successful practice of marketing and promoting environmental sustainability. Some experts predict that the next big trend in business will involve the green economy. Yet, communicating sustainability to consumers provides a set of challenges for marketers that do not necessarily follow all the rules of other types of marketing communication. In many ways the concept of sustainability challenges the core ideals of promoting consumption. Accordingly, this book identifies for researchers and practitioners the barriers that keep customers from engaging in environmentally sustainable consumption and find ways to overcome those barriers. The book includes topics such corporate advertising strategy related to sustainability, corporate social responsibility advertising, greenwashing, advertising related to values, persuasion and persuasion knowledge in sustainability marketing, social media and sustainability, and advertising and public policy.

The Trinitarian Faith Thomas F. Torrance, 2016-03-24 Cutting across the divide between East and West and between Catholic and Evangelical, Thomas F. Torrance illuminates our understanding of the doctrine of the Holy Trinity. Torrance combines here the Gospel and a theology shaped by Karl Barth and the Church Fathers, and offers his readers a unique synthesis of the Nicene Creed. This volume remains a tremendously helpful resource on the doctrine of the Trinity and the Nicene Creed. The new introduction for this Cornerstones edition is written by Myk Habets, the leading Thomas F. Torrance scholar today.

Green Gone Wrong Heather Rogers,2013-01-16 Faced with climate change, many counsel going green, encouraging us to buy organic food or a clean car, for example. But can we rely on consumerism to provide a solution to the very problems it has helped cause? Heather Rogers travels from Paraguay to Indonesia, via the Hudson Valley, Detroit, and Germany's Black Forest, to investigate green capitalism, and argues for solutions that are not mere palliatives or distractions, but ways of engaging with how we live and the kind of world we want to live in. A new afterword considers various ways in which national development might be freed from its dependence on economic growth, allowing for a decent standard of living without exhausting the planet's resources.

A Cultural History of Bathing in Late Antiquity and Early Byzantium Michal Zytka,2019-03-28 This book discusses social, religious and medical attitudes towards bathing in Late Antiquity. It examines the place of bathing in late Roman and early Byzantine society as seen in the literary, historical, and documentary sources from the late antique period. The author argues that bathing became one of the most important elements in defining what it meant to be a Roman; indeed, the social and cultural value of bathing in the context of late Roman society more than justified the efforts and expense put into preserving bathing establishments and the associated culture. The book contributes a unique perspective to understanding the changes and transformations undergone by the bathing culture of the day, and illustrates the important role played by this culture in contributing to the transitional character of the late antique period. In his examination of the attitudes of medical professionals and laymen alike, and the focus on its recuperative utility, Zytka provides an innovative and detailed approach to bathing.
