The forum was the first-ever conference to focus on the investment environments in the CAREC countries. More than 300 high-level government officials and business leaders from 26 countries attended the event to share their insights on how to make effective investments within the region. They also shared their experiences and expectations on how to manage investments in Mongolia. The main topics discussed during the conference were: (i) generating a recipe for success in the CAREC region that will focus on identifying and making good investments, (ii) exploring the investment environment and policies in CAREC member countries, and (iii) investing in a regionally connected Mongolia.

Electronics Packaging Forum James E. Morris,2012-12-06 Each May, the Continuing Education Division of the T.J.Watson School of Engineering, Applied Science and Technology at the State University of New York at Binghamton sponsors an Annual Symposium in Electronics Packaging in cooperation with local professional societies (IEEE, ASME, SME, IEPS) and UnlPEG (the University-Industry Partnership for Economic Growth.) Each volume of this Electronics Packaging Forum series is based on the the preceding Symposium, with Volume Two based on the 1990 presentations. The Preface to Volume One included a brief definition of the broad scope of the electronics packaging field with some comments on why it has recently assumed such a more prominent priority for research and development. Those remarks will not be repeated here; at this point it is assumed that the reader is a professional in the packaging field, or possibly a student of one of the many academic disciplines which contribute to it. It is worthwhile repeating the series objectives, however, so the reader will be clear as to what might be expected by way of content and level of each chapter.
