**Social Networks in China** Xianhui Che, Barry Ip, 2017-09-29 Social Networks in China provides an in-depth guide to Chinese social networks, covering behaviors, usage, key issues, and future developments. Chinese scholarship and cultural idiosyncrasies in technology remain a relatively under-researched area. While such issues may be sporadically reported in popular media, it is often difficult to obtain a true understanding of authentic Chinese behaviors and practices. One such study area delves into whether Chinese users utilize technology to socialize in the same ways as people from western societies. As no book currently exists to address issues concerning Chinese social networks, this book takes on that shortage and opportunity. Offers an exploration of Chinese social networks and Chinese online social behavior Addresses issues concerning Chinese social networks and their development Presented by authors with extensive experience working in China

Environment, Social Justice, and the Media in the Age of the Anthropocene Elizabeth G. Dobbins, Luigi Manca, Maria Lucia Piga, 2020-02-17 Environment, Social Justice, and the Media in the Age of Anthropocene addresses three imminent challenges to human society in the age of the Anthropocene. The first challenge involves the survival of the species; the second the breakdown of social justice; and the third the inability of the media to provide global audiences with an adequate orientation about these issues. The notion of the Anthropocene as a geological age shaped by human intervention implies a new understanding of the human context that influences the physical and biological sciences. Human existence continues to be affected by the physical and biological reality from which it evolved but, in turn, it affects that reality as well. This work addresses this

paradox by bringing together the contributions of researchers from very different disciplines in conversation about the complex relationships between the physical/biological world and the human world to offer different perspectives and solutions in establishing social and environmental justice in the age of the Anthropocene.

**Encyclopedia of Easter Celebrations Worldwide** William D. Crump, 2021-02-22 At Eastertime, the most important holiday in the Christian world, religious processions in many Latin American countries pass over ornate street carpets fashioned from colored sawdust, flowers and fruit. Children in Finland and Sweden dress as Easter witches. In the Caribbean, those who swim on Good Friday risk bad luck. In the Philippines, some penitents volunteer to be crucified. In some European countries, Easter Monday is the day for dousing women with water. With 240 entries, this book explores these and scores of other unusual and sometimes bizarre international Holy Week customs, both sacred and secular, from pilgrimages to Jerusalem to classic seasonal films and television specials.

Migration, Media, and Global-Local Spaces Esther Chin, 2016-04-08 This book explores how we define our social spaces in a world of globalization, cultural diversity, and media convergence. It invites us

to consider how each of us relates to multiple people and places worldwide through migration and media. Critiquing our focus on nation, state, and particular countries of origin and settlement, this book offers a new conceptual approach to study contemporary migration and media. Drawing on in-depth interviews with Singaporean university students in Melbourne, Australia, this book details how we organize our social relations into diverse configurations of global and local spaces. This book aims to help university students, researchers, and members of the public to think more critically about how we develop our mental maps of the world, experience the migration of others and ourselves, and shape our media environments.

**Ignition** Matthew L. Moseley, 2021-06-01 Ignition is a book of dispatches from the frontlines of communication strategy. Matthew L. Moseley draws on his eclectic life experiences to investigate the link between success and effective communication. Whether he's choreographing a fine dining experience at the top restaurant in America, using rock stars to register voters, helping a national chain save its reputation after a gaffe goes viral, or serving as media liaison at the epic ash-blast send-off for author Hunter S. Thompson, Moseley identifies the principles that guide communication strategies toward their goals. In extensive interviews with a wide variety of experts, including authors, fighter pilots, business leaders, politicians, and astrophysicists, Moseley tests these principles, teases out new, provocative ideas, and anticipates how forming stronger connections will help us address today's greatest challenges. Though it tackles serious subjects, offers an illuminating perspective on the evolution of human discourse, and shares important insights on interpersonal relations, Ignition is also a good, fun read. A broad range of colorful anecdotes gives this book of philosophical wisdom and practical advice

the zest of a juicy memoir.

*Mediated Millennials* Jeremy Schulz, Laura Robinson, Aneka Khilnani, John Baldwin, Heloisa Pait, Apryl A. Migrating Large-Scale Services to the Cloud Eric Passmore, 2016-06-03 This book reveals the technical challenges and successful implementation details of migrating MSN, Microsoft's consumer content portal--a business with 450 million worldwide users--into the Cloud. Following a technique long used in aviation, medicine, and other fields, MSN's Chief Technical Officer, Eric Passmore, describes the set of release, deployment, monitoring, and mitigation checklists used to build cloud services supporting hundreds of millions of users on Azure, Microsoft's Public Cloud. An

undertaking of this scale--involving services supported by a large team of engineers--involves unique challenges and risks. This book demonstrates through personal experience how to cut through the theory and provides checklists as a surprisingly simple antidote to the competing methodologies. This book works at two levels. At a fundamental level, businesses need to be successful in the cloud if they want to seize new opportunities and transform their business to compete successfully. This book provides a framework for success by identifying the hidden work as part of moving to the cloud. At a more practical, level there is an incredible hunger for simple to follow, how-to information on Cloud migration. This book is a reference guide to reduce risk and achieve success without requiring the busy reader to wade through theory. It contains simple to follow, how-to information on cloud migration. It is a reference guide to achieving success, and any team can modify these tasks to fit the needs of their own organization. Who This Book is For: Technology professionals who deploy services in the cloud or are thinking of moving to the cloud. Professionals in the DevOps and Cloud services fields need these skills to succeed in their current jobs or advance their careers.

Examining Crime and Justice around the World Janet P.

Stamatel,2020-11-04 A thorough and timely investigation of both well-established and emerging crime and punishment issues, this book provides readers with compelling examples of how different countries around the world confront these problems. This book offers a detailed look at 10 hot topics in crime and punishment that are shared by many countries. Some of these topics are well-established within the field of criminology, such as patterns of criminal behavior, juvenile delinquency, drug trafficking, policing, and punishment; others are emerging topics that have not been well studied across a variety of

countries, such as violence against women, hate crimes, and gun control. Within each topic, the book explores how eight countries experience the issue, highlighting similarities across different places as well as unique treatments of the problem. The chapter on punishment addresses the widespread use of incarceration as criminal punishment but also considers different philosophies with respect to the purpose of incarceration and whether or not this strategy is effective in the face of large-scale criminal events, such as mass atrocities. The country narratives provide historical context for understanding the particular crime or punishment issue, current trends, and relevant statistical data for describing the extent of the issue and changes over time, in addition to contemporary examples of the issue.

*Investing in China* Jonsson Yinya Li, Adamas (Law Firm), 2005  
*Investing in China: The Emerging Venture Capital Industry* is a unique and invaluable guide to venture capital in China. This important new book provides a detailed profile of the current state of the venture capital backed SME sector and an authoritative look at trends and future prospects. It provides an explanation of the mechanics of the investment process, from due diligence and investment monitoring, to exit, and a unique look at M & A opportunities and rules for foreign investors. The guide includes many detailed case studies and profiles of the IT, E-commerce, biotechnology and other sectors with potential for VC investment.

*The Journey to the End of the World: How are we going to get there?* Lawrence Payne, 2021-03-19 There are going to be a series of events that will lead us to the end of the world. There will be a Rapture, and with this event, all believers in Jesus Christ will disappear from the earth. Then there will be a tribulation period, and this will last for seven years. During this time, the world will

experience the wrath of God, and it will be furious. The tribulation will be followed by the battle of Armageddon, and then the Millennium (one thousand years) period. This book, *The Journey to the End of the World: How We Are Going to Get There*, depicts in great detail all the events that will take place from now and all the way to heaven. -Lawrence Payne

**Culture Clash** Adrian L. Hawkes, 2008-08 Some things do not change, God and kingdom values. There are things in our cultures that do not correspond to that. There are some parts of our culture that we have to let go of, some we can hold onto, things handed down to us, need to be re-evaluated. Thank you Adrian for helping me to learn to cherish things from my culture that God wants to redeem. Jenny Sinnadurai. Sri Lanka. Church leader And Church Planter In this insightful book Adrian raises the important neglected issue of culture in a thought-provoking way. Culture constantly changes, so must we. A challenging book and, if we allow a broadening of our horizons as we work through it, potentially life-changing! A fantastic and must-use tool for any group wanting to gain an understanding of Culture together. Ann Clifford Film Producer/Script Writer United Kingdom Each community faces different challenges. If we try and change without the spirit of God that could be death. Culture may stop us from experiencing all that God has for us. We load ourselves with transmitted patterns in thinking and action which makes us artificial products. If you are alive, change is inevitable. Adrian, you have done it again: You have helped me learn different ways of looking at and doing-stuff! Sammy Nawali Church leader and Entrepreneur Nakuru Kenya East Africa

### **The Global Victimization of Children** Clayton A. Hartjen,S.

Priyadarsini,2012-01-02 This book describes the concept of child victimization in all its facets. Millions of young people throughout the world face violence, sexual, physical, and emotional abuse and exploitation on a daily basis. The worldwide victimization of young people can be prevented, or, at least, its incidence can be greatly reduced, if purposeful action is taken to do so. This volume researches and documents some of the ways in which young people throughout the world are victimized, and suggests strategies for preventing various forms of child victimization. Eight distinct forms of victimization are identified and analyzed in detail. Included are discussions on child prostitution and pornography, economic exploitation through child labor and trafficking, physical and other abuse inflicted on young people in schools and other institutions, the use of children as armed combatants, and the denial of the basic needs and rights of children to such things as home and to education. In each chapter the authors discuss the nature of the victimization, its global dimensions and prevalence, and the measures governments and/or others are taking, or failing to take, to combat the harm based on the concept that youth victimization is a form of government crime.
