Computerized Multistage Testing Duanli Yan,Alina A. von Davier,Charles Lewis,2016-04-19 Unlike other forms of adaptive testing, multistage testing (MST) is highly suitable for testing educational achievement because it can be adapted to educational surveys and student testing. This volume provides the first unified source of information on the design, psychometrics, implementation, and operational use of MST. It shows how to apply theoretical statistical tools to testing in novel and useful ways. It also explains how to explicitly tie the assumptions made by each model to observable (or at least inferable) data conditions.

The Mammoth Book of New CSI Nigel Cawthorne,2012-04-05 Detailed accounts of over 30 contemporary cases, or older cases reopened as a result of advances in forensic science. Crime scene investigations draw on a wide range of cutting-edge technology including genetic fingerprinting, blood splatter analysis, laser ablation, toxicology and ballistics analysis. Cases covered here include: the abduction of Madeleine McCann; the vindication of Colin Stagg, convicted of having murdered Rachel Nickell; Hadden Clark who killed and ate a six-year-old child in Maryland; Robert Pickton, the Vancouver farmer who fed his female victims to his pigs; the murder of Meredith Kercher in Perugia (was Amanda Knox guilty?); Lindsay Hawker's gruesome death in Japan; Josef Fritzl and the cellar in which he imprisoned and raped his daughter.

The History of Libya Bukola A. Oyeniyi,2019-03-22 Covers Libyan history from the prehistoric period through the Phoenician, Roman, and Islamic/Ottoman periods to Italian colonization, independence, and the 2011 uprising and civil war. Libya experienced its own Arab Spring in February of 2011, ultimately leading to a civil war in which different groups have since been vying for power. How did the events of Libya's past lead to this point? This addition to the Greenwood Histories of the Modern Nations series takes a chronological approach to examining Libyan history. Considering the history of Libya from its earliest times to the present, it features government records, memoirs, and diaries and provides a general overview of the history of Libya as well as a discussion on geography. While not discounting the contributions of traders and invaders to Libya's history, this book, unlike others, identifies and traces the histories of indigenous Libyans, showcasing their achievements while situating them within the broader context of contact with Libya had by groups of people from Europe to the Arabian Peninsula. By demonstrating that Libyans had their own unique history prior to colonization, the book works to essentially decolonize Libyan history. Rounding out the chapters are a timeline, glossary, appendix of notable people, and annotated bibliography.

Air Crash Investigations Allistair Fitzgerald,2010-10-16 On the 21st of December 1988, PANAM Flight 103, a Boeing 747-121, on its way from London Heathrow to New York, was blown up over the town of Lockerbie, Scotland. All 259 persons on board of the aircraft and 11 residents of the town of Lockerbie were killed. In 2001 the Libyan Megrahi was sentenced to life imprisonment in Scotland. In 2009 Megrahi applied to be released from jail on compassionate grounds. His appeal was granted and on the 20th of August 2009 he was released from prison. But was Megrahi really guilty?

Adequately Explained by Stupidity? Morag G. Kerr,2013-12-21 Tunnel vision or organised cover-up? How the Lockerbie investigation got the wrong man Twenty-five years after Maid of the Seas crashed on the town of Lockerbie, this groundbreaking book introduces an entirely new perspective on the controversial investigation and subsequent conviction. Concentrating almost entirely on the transfer baggage evidence, it exposes shocking deficiencies in both the police inquiry and the forensic investigation, which led the hunt in entirely the wrong direction. Cleverly constructed to lead the reader through the complexities of the case, the book provides insights which will be new to even the most seasoned Lockerbie pundit, while remaining accessible to those with little or no previous familiarity with the subject. The reader will see all the main aspects of the official account of the Lockerbie disaster comprehensively destroyed. This is the first book about Lockerbie to deal rigorously with the detail of the transfer baggage evidence. Dr. Kerr has been given access to reports, statements and photographs not previously available to the general public, and has analysed the information with forensic rigour. This analysis proves conclusively that the bomb that brought down the plane was introduced at Heathrow airport and not at Malta as claimed. Key Selling Points: • Published on the 25th anniversary of the Lockerbie disaster, which happened on 21st December 1988. • Morag has been Secretary Depute of "Justice for Megrahi" since 2010, and is the author of the widely-acclaimed pamphlet Lockerbie: Fact and Fiction. • On 23rd December 1988, Morag was driving on the A74. This was the stimulus for her research into the subject.

Photovoltaic Module Reliability John H. Wohlgemuth,2020-01-08 Provides practical guidance on the latest quality assurance and accelerated stress test methods for improved long-term performance prediction of PV modules This book has been written from a historical perspective to guide readers through how the PV industry learned what the failure and degradation modes of PV modules were, how accelerated tests were developed to cause the same failures and degradations in the laboratory, and then how these tests were used as tools to guide the design and fabrication of reliable and long-life modules. Photovoltaic Module Reliability starts with a brief history of photovoltaics, discussing some of the different types of materials and devices used for commercial solar cells. It then goes on to offer chapters on: Module Failure Modes; Development of Accelerated Stress

Tests; Qualification Testing; and Failure Analysis Tools. Next, it examines the use of quality management systems to manufacture PV modules. Subsequent chapters cover the PVQAT Effort; the Conformity Assessment and IECRE; and Predicting PV Module Service Life. The book finishes with a look at what the future holds for PV. A comprehensive treatment of current photovoltaic (PV) technology reliability and necessary improvement to become a significant part of the electric utility supply system Well documented with experimental and practical cases throughout, enhancing relevance to both scientific community and industry Timely contribution to the harmonization of methodological aspects of PV reliability evaluation with test procedures implemented to certify PV module quality Written by a leading international authority in PV module reliability Photovoltaic Module Reliability is an excellent book for anyone interested in PV module reliability, including those working directly on PV module and system reliability and preparing to purchase modules for deployment.

Not Exactly the CIA Roger Phelps,2020-10-30 This book is a vigorous effort to answer the question, How did we get here?—a question that troubles virtually every American over the age of fourteen. How did America lose power in the world? How did American democracy become undermined? The press industry, who once would have been charged with answering this question, is not—according to Phelps—currently capable of doing so. Closely read, this book allows an answer to emerge to this compelling American question.

Megrahi: You Are My Jury John Ashton,2012-02-01 “Casts grave doubt on the validity of Abdelbaset Al-Megrahi’s conviction as the Libyan terrorist responsible for blowing up Pan Am Flight 103.” —Arab News “You know me as the Lockerbie bomber. I know that I’m innocent. Here, for the first time, is my true story: how I came to be blamed for Britain’s worst mass murder, my nightmare decade in prison and the truth about my controversial release. Please read it and decide for yourself. You are now my jury.” —Abdelbaset al-Megrahi This long-awaited book argues that, far from being an unrepentant terrorist, Abdelbaset al-Megrahi was the innocent victim of dirty politics, a flawed investigation and judicial folly. Based on exclusive interviews with Megrahi himself, and conclusive new evidence, it destroys the prosecution case and puts the Scottish criminal justice system in the dock. Megrahi: You Are My Jury makes a compelling argument that the murderers of the 270 Lockerbie victims were acting on behalf of an entirely different government, rather than Colonel Gadafy and Libya. “Abdelbaset al-Megrahi, the convicted ‘Lockerbie bomber,’ who died earlier this year of cancer, never stopped seeking to clear his name, and this book, written by one of the lead researchers on Megrahi’s appeal with the Megrahis’ collaboration, documents perceived weaknesses of the Scottish state’s case . . . Ashton’s analysis of the evidence, though clearly partisan, is exhaustive and fascinating, highlighting how Megrahi’s trial exemplified a rush to judgment viewed by many jurists as a miscarriage of justice.” —Publishers Weekly
