Slavery and Liberation in Hotels, Restaurants and Bars Conrad Lashley,2020-10-06 This is the first book to explore workforce slavery and liberation together within commercial hotel, restaurant and bar activities, the hospitality industry being particularly vulnerable to potential illegal action and reputational damage via involuntary involvement in human trafficking and sexual exploitation. Slavery is the most oppressive form of labour exploitation and is illegal in Western Europe and most of the industrialised world. On the other hand, 'neo-slavery' oppresses the powerless through low pay and employment practices that predominantly serve the interests of the employer. This book explores the most exploitative forms of slavery, 'neo-slavery' and human trafficking in the hotel industry, and offers insights into empowerment through liberative trade unions and worker co-operatives. The study's multifaceted cross-cultural approach includes in-depth chapters on Brazil and the Netherlands as well as a multitude of examples from the UK, exposing the topic as an international problem. Written by international specialists, this significant book will appeal widely to upper-level students and researchers in hospitality, and specifically, to all those interested in human resource management in the hospitality and hotel industry, as well as human rights issues and

business ethics.

When The Stars Fall From The Sky Ignacio De Luna, 2011-10-06 Ignacio started writing as a way to express what he was experiencing. He grew up in sunny Southern California. At a young age he lived with his parents and siblings in Baldwin Park, Ca. As a teenager they all moved to West Covina where he went to Workman High School and had friends that were close enough to inspire him. Starting at a young age there were many words written with a chance to be cherished by close friends and family. By placing himself in the moment and absorbing the feelings around him, he has captured those things that many people think and wish to express but can't find a way. There is true emotion within each word and phrase. There are pictures that develop in the mind to represent what each word is describing. A vision of words that can be read and felt with the not only the mind but the heart.

Internet Finance And Digital Economy: Advances In Digital Economy And Data Analysis Technology - Proceedings Of The 2nd International Conference Faruk Balli, 2023-08-24 In recent years, information technologies such as mobile payment, search engines, cloud computing and internet finance have developed rapidly. This has greatly impacted the structure of the financial market, and is set to bring about deep changes to the global financial industry. At the same time, the advent of the digital economy has brought about more challenges to the services and products of internet finance and financial supervision. This book contains the proceedings of the 2nd International Conference on Internet Finance and Digital Economy (ICIFDE 2022), which focus on how existing computer and information technology can be used to solve the problems of financial services in the era of digital economy. The chapters in this volume seek to provide technical

solutions to the current digital financial transaction system, data processing in the digital economy and various forms of digital transactions or financing systems. Additionally, traditional research is combined with current cutting-edge technology in proposing new developments for the finance industry.

The Human Behind the Coach Claire Pedrick, Lucia Baldelli, 2023-11-13 Ever come away from a coaching session feeling it didn't quite hit the mark, despite your skills and knowledge? It's not just the words we use, it's the music, the lyrics and the dance of the conversation that make a difference to the quality of the outcome, and getting these right demands not just skill but humanity. Explore the human qualities that great coaches need to develop - humility, vulnerability, courage, and more - based on research from thousands of real coaching sessions, with stories, reflections, practical examples and tips on how to develop yourself and your work. This is a book for anyone who wants to deepen their work without adding more tools and techniques, and who is willing to do some deeper work in service of having more transformational conversations.

Socially Responsive Organizations & the Challenge of Poverty Milenko Gudić, Al Rosenbloom, Carole Parkes, 2017-09-08 This book provides a combination of case studies and current action research describing how businesses and civil society organizations are working to alleviate poverty in local and global communities. It intends to provide conceptual and research rationales for why management education and management institutions must address the issue of poverty. The book responds to one of the major findings from the research of the PRME Working Group on Poverty that the topic of poverty still lacks a strong business case for management educators and program/institutional administrators. The distinctive features of this book are that it: (1) includes examples of small and medium-sized (SME) businesses; (2) deals with the issue of poverty as a human rights violation; (3) explores the issue of absolute versus relative poverty; (4) deals with leadership challenges in organizations committed to poverty alleviation; and (5) discusses the issues in terms of management education's responsibility for setting new management, research institutional and intellectual agendas. The first of two books to be produced by the PRME Working Group on Poverty, *Socially Responsive Organizations* and *The Challenge of Poverty* aims to provide both researchers and practitioners with the most wide-ranging coverage yet published on how business can be a positive force in alleviating poverty and how management education needs to adapt to this increasingly crucial prerogative.

Pathologic Findings in Stranded Marine Mammals: A Global Perspective Gregory Dana Bossart, Alvin Cyril Camus, Debra Lee Miller, Stephen Raverty, 2022-02-09 This project is posthumously dedicated to Dr. Gregory Dana Bossart. Whether you knew him as colleague, mentor, friend, family member or simply 'knew of him', you could not help but be awestruck by his dedication, intelligence, thoughtfulness, work ethic and passion for scientific inquiry, especially for conservation of the marine environment. Many of his publications were seminal in marine mammal health, including infectious, environmental and zoonotic diseases. As we collected manuscripts for this special Frontiers edition, it was heartwarming to hear the comments from contributors. So many research scientists, field biologists and veterinarians could easily have given up and said, 'I just can't do this now', especially with the added challenges posed by the current COVID-19 pandemic. Instead, contributors from around the world were determined to contribute to this collection because of their inspiration and shared commitment with Greg's vision. The love and admiration within the marine community for Greg is phenomenal. With that said, we would be remiss if we did not say a few words about Greg as a mentor and friend. Greg had a knack for helping students realize their abilities and pursue their own independent contributions to the marine mammal community. He shared in their successes and worked tirelessly to facilitate their aspirations. Greg would involve students, early-career scientists and colleagues in projects, introduce them to

collaborators and promote them and their work. Greg was a genuinely caring person. When he asked you 'how are you doing', he honestly wanted to know. He was always there, ready to listen and provide guidance. If you were to ask Greg what was most important to him in life, he would say God, family and marine life (and one could argue that he had a special fondness for manatees). He believed in the beauty of nature and that God had a hand in all of it. He was in pursuit of ensuring that we all share this earth responsibly and sustainably. We miss Greg dearly, but honor and celebrate him as we carry on in our pursuits.

Crisis of the Criminal Law in the Democratic Constitutional State Eduardo Demetrio Crespo, Alfonso García Figueroa, Gema Marcilla Córdoba, 2023-03-13 The book shares the results of project research granted by the Castilla-La Mancha government, which has been composed by philosophers of law and criminal law researchers, whose main conclusions are represented by the manifestations and trends of the current crisis of the constitutional State. The works identify these trends and manifestations in order to develop alternatives and remedies to solve the current negation process that classical liberties are involved, from the point of view of philosophy, policy, and dogmatic.

Controle de Riscos RILDO PEREIRA BARBOSA, De maneira simples e didática, o livro aborda controle de riscos e suas tecnologias, como histórico da segurança e da medicina do trabalho, além da saúde ocupacional; conceitos de risco e perigo; olhar prevencionista e a teoria da magnitude dos riscos. Comenta processos industriais, bem como rotulagem, transporte, armazenagem e manuseio de materiais, sinalização de segurança e uso de cores para identificar riscos. Traz fundamentos que norteiam a segurança do trabalho nas

instalações e nos serviços em eletricidade, considerando a Norma Regulamentadora 10 (NR-10): equipamentos e dispositivos elétricos, instalações elétricas provisórias, riscos de eletricidade, equipamentos de proteção coletiva e individual. Por fim, aborda classes de incêndio e métodos para sua extinção, controle de incêndios e explosões, sistemas de alarme e as diversas medidas de segurança. Pode ser usado nos cursos técnicos em Aeroportuário, Edificações, Geologia, Hidrologia, Mineração, Qualidade, Reciclagem, Segurança no Trabalho, Sistemas a Gás entre outros. The Dynamics of English in Namibia Anne Schröder,2021-09-15 The English language as spoken in Namibia has virtually been overlooked in most textbooks, handbooks, and surveys of varieties of English around the world, or else has only been mentioned in passing. However, this variety of English has recently attracted the attention of several researchers and the present volume brings together most scholars actively involved in the research on English in Namibia from various linguistic fields to present their current research. It covers a wide range of linguistic issues, such as empirical analyses on various levels of linguistic description and use, as well as the application of diverse methodologies, from questionnaire surveys, sociolinguistic interviews and focus group discussions, to corpus linguistics, linguistic landscaping, and digital ethnography. This book represents the first comprehensive collection of articles and in-depth discussions of this emerging variety of World Englishes.

Metabolic Ecology Richard M. Sibly, James H. Brown, Astrid Kodric-Brown, 2012-04-30

Metabolic Ecology Most of ecology is about metabolism, the ways that organisms use energy and materials. The energy requirements of individuals (their metabolic rates) vary predictably with their body size and temperature. Ecological interactions are exchanges of energy and materials between organisms and their environments. Therefore, metabolic rate affects ecological processes at all levels: individuals, populations, communities and ecosystems. Each chapter focuses on a different process, level of organization, or kind of organism. It lays a conceptual foundation and presents empirical examples. Together, the chapters provide an integrated framework that holds the promise for a unified theory of ecology. The book is intended to be accessible to upper-level undergraduates and graduate students, but also of interest to senior scientists. Its easy-to-read chapters and clear illustrations can be used in lecture and seminar courses. This is an authoritative treatment that will inspire future generations to study metabolic ecology.

O Programa Bolsa Família e a Questão Social em um Território de Fronteira Denise

Rissato, 2022-06-29 O livro de Denise Rissato vem a público justamente no momento em que o Instituto Brasileiro de Geografia e Estatística (IBGE) indica que 50 milhões de brasileiros vivem na linha de pobreza, sendo que 13,5 milhões vivem em pobreza absoluta. O caráter imperativo da política pública nele analisada — o Programa Bolsa Família — situa-se, primeiro, em permitir transcender a linha da fome absoluta de milhares de crianças e, como tal, livrá-las da morte precoce. Mas também incide sobre a diminuição do trabalho infantil, a escolaridade obrigatória para os beneficiários e, na medida em que se torne uma política de Estado com controle democrático, pode ter impactos na economia e estimular a luta pelo acesso de outros direitos básicos. A forma necessária e imperativa dessa política social e de outras, porém, acaba por revelar que a questão

social é a desigualdade estrutural em nossa sociedade e que, portanto, a necessidade é de lutar por reformas estruturais para superá-la. Uma tarefa árdua, pois, como mostram Florestan Fernandes (2005; 2009) e Francisco de Oliveira (2003) em suas análises sobre nossa formação histórica, a classe dominante brasileira tem na manutenção da pobreza estrutural e na negação sistemática da universalização da educação básica os pilares de sua dominação. Para tanto, vale-se da manipulação populista das massas e, sempre que há alguma mudança mais significativa no plano dos direitos sociais, apela para ditaduras ou golpes de Estado. O último, em 2016, acabou entregando o poder a um campo de forças de extrema direita que está liquidando com o país. Essa estratégia tem como fim o uso do aparato do Estado para a defesa e a manutenção dos privilégios de uma minoria de ricos. A prova inequívoca disso está em que, em plena pandemia, o Brasil produziu mais 35 novos bilionários e a fortuna de 42 bilionários brasileiros cresceu em 34 bilhões de dólares, cerca de 180 bilhões de reais. O leitor terá neste livro base para entender por que o Bolsa Família, nos curto e médio prazos, é uma necessidade, que, porém, não pode ser eterna. Portanto, um livro que nos interpela para lutar contra as estruturas que produzem a desigualdade em nosso país.
