English as a World Language Isabelle Fol, 2005-09-16 Seminar paper from the year 2001 in the subject English Language and Literature Studies - Linguistics, grade: good, University of Basel (Seminar for English Literature and Linguistics), course: Seminar, 15 entries in the bibliography, language: English, abstract: English as a world language- a challenging topic that is fully treated in literature, because it is a topic of general interest. But during my researches, I realized that it was difficult to find literature about linguistic reasons for the establishment of English as a world language. Since this aspect is often interwoven within other reasons, for example geo-political reasons, linguistic reasons are seldom explicitly stated. Frequently, mixtures of reasons that have finally helped English to reach its high eminence as a world language are presented. In the end, I found some important aspects by picking them out of different texts and books and confined myself to present three important linguistic reasons for the establishment of English as a world language. Therefore, this paper does not claim to be complete, otherwise it would extend the prescribed length of the paper.

Integrating Information and Communication Technologies in English for Specific Purposes Rosa Muñoz-Luna, Lidia Taillefer, 2017-11-07 This book fills the need for a text that integrates Information and Communication Technologies (ICTs) into English for Specific Purposes (ESP). It offers insights on current methodological principles in ESP in both academic and professional contexts, drawing on authentic teaching and learning situations, and analyses best practice guidelines. Part I begins with ESP pedagogical principles and technological practice in order to focus on its two main branches: English for Academic Purposes, which includes linguistic skills and students' needs, and English for Occupational Purposes, specifically looking at Business, Medical and Translators courses. This book is a great resource for ESP researchers, educators and students, because it provides case studies of how ICTs can be used in English for multiple purposes. Authors present their experiences of integrating tools into their instructions, with each chapter contributing unique pedagogical implications.

Metaphor Identification in Multiple Languages Susan Nacey, Aletta G. Dorst, Tina Krennmayr, W. Gudrun Reijnierse, 2019-11-28 This volume explores linguistic metaphor identification in a wide variety of languages and language families. The book is an essential read for anyone interested in researching language and metaphor, from students to experienced scholars. Its primary goals are to discuss the challenges involved in applying the Metaphor Identification Procedure Vrije Universiteit (MIPVU) to a range of languages across the globe, and to offer theoretically grounded advice and guidelines enabling researchers to identify metaphors in multiple languages in a valid and replicable way. The volume is intended as a practical guidebook that identifies and discusses procedural challenges of metaphor identification across languages, thus better enabling researchers to reliably identify metaphor in a multitude of languages. Although able to be read independently, this volume – written by metaphor researchers from around the world – is the ideal companion volume for the 2010 Benjamins book *A Method for Linguistic Metaphor Identification: From MIP to MIPVU*.

Structuring Sense: Volume III: Taking Form Hagit Borer, 2013-10 Hagit Borer develops a new model of word formation, arguing that on the one hand the basic building blocks of language are rigid semantic and syntactic functions, while on the other hand they are roots, which in

themselves are but packets of phonological information, and are devoid of both meaning and grammatical properties of any kind.

Singapore's Multiculturalism Chan Heng Chee, Sharon Siddique, 2019-03-15 Since independence in 1965, Singapore has developed its own unique approach to managing the diversity of Race, Religion, Culture, Language, Nationality, and Age among its citizens. This approach is a consequence of many factors, including its very distinct ethnic makeup compared with its neighbours, its ambitions as a globally oriented city-state, and its small physical size. Each of these factors and many others have presented Singapore society with a range of challenges and opportunities, and will in all likelihood continue to do so for the foreseeable future. In the writing of this book, the author team set themselves the task of projecting the impact of current domestic and international social trends into the future, to anticipate what Singapore society might look like by around 2040. In doing so, they analyse the particular path that Singapore has taken since independence, in comparison with other multicultural societies and with regard to the balance between the necessity of forging a new national identity after British rule and departure from Malaysia, and the need to ensure that Singapore's ethnic minority populations remain socially enfranchised. They further consider how current trends may develop over the next couple of decades, what new challenges this may present to Singapore society, and what might be the likely responses to such challenges. In this book, Singapore is a case study of a global city facing the challenges of developed-world modernity in frequently acute ways.
