The Quality Instinct Maxwell L. Anderson,2012-02-01 Part personal memoir, part thinking person's guide to the museum, The Quality Instinct is filled with wit and humor, anecdotes, and insights from the author's 30 years in the highly competitive, often contentious art world. Maxwell Anderson takes us on a grand tour of ancient and contemporary art, sharing five simple metrics of quality that help us to increase our visual literacy as we learn to see, not simply look-and yes, to judge.

Guiding the Eye Lode Vermeersch,Ernst Wagner,Rainer Wenrich,2019 This book addresses the link between visual literacy - people's ability to interpret and skillfully use images - and art museums. Art museums invite you to look at objects in different ways. They stimulate your visual curiosity, give you visual satisfaction, and allow the visual to merge with other sensory experiences. All of this makes art museums potentially the ideal learning environments for acquiring visual literacy skills. But how should an art museum stimulate visual literacy in practice? How can it actually become such an ideal learning place? How can it spark visitors' visual literacy and increase their knowledge about it? In this book a wide range of authors from different parts of the world offer their answers. As researchers, curators and educators they provide crucial theoretical insights and reflect on real-life examples.

Mindful Eye, Playful Eye Frank Feltens,Michael Garbutt,Nico Roenpagel,2024-02-27 Experience art and design as you've never experienced them before with 101 imaginative, mindfulness-based practices that will engage your senses, open your mind, and transform your next museum visit Switch off your phone, take a deep breath, and prepare for adventure. Mindful Eye, Playful Eye invites readers on a thoughtful journey through museums, with 101 practices designed to nurture the development of attention, creativity, and compassion. This book encourages a playful and reflective approach to the museum experience of viewing art, sculptures, fossils, jewelry, aircraft, and more, including suggestions to: Imagine an object features prominently in a film or novel. What role does it play in a love story, thriller, and sci-fi? Pose to mirror a piece and consider the sensations that arise. Encounter as many objects as you can while holding your breath. Switch between scientific and empathic modes of viewing an object. Activities include instructions for both individual and partnered exploration. Whether frequenting a favorite museum or exploring an unfamiliar one, this book will enrich solo trips and add a unique element of connection to romantic or friend dates. Practices are divided into 5 categories: Body: explores how your body responds to museum objects. Vision: challenges established visual habits and encourages experimentation. Mind: focuses on thoughts and feelings that animate your inner world. Imagination: encourages you to imagine new ways of being. Action: transforms you into an art maker and performance artist. The practices can be performed in any museum in the world. Mindful Eye, Playful Eye empowers museumgoers to encounter museum collections, themselves, and each other with heightened awareness, centeredness, and a sense of unabashed joy.

Eye for History Dean Knudsen,1999-07 Publication measures 9 x 11 in. Describes the paintings done by William Henry Jackson. Tells the story of scenes of the old West depicted in them. Includes a bibliography and index.

The Eye In The Museum J. J. Connington,2019-11-01 The Eye in the Museum, first published in 1930, is the first book in author J. J. Connington's series featuring Superintendent Ross of Scotland Yard. This 'golden-age' mystery centers on a young woman, Joyce Hazlemere, and her wealthy Aunt Evelyn. The aunt, who can become violent when drunk, stands to inherit the Hazlemere estate instead of Joyce. Miss Hazlemere speculates on the possibility of her aunt's death when the next day Evelyn is found murdered, and Superintendent Ross is called in to solve the mystery and catch the killer. J. J. Connington is a pen-name of Alfred Walter Stewart (1880-1947).

Private Eye: The Imagist Impulse in Chicago Art ,2021-06-08 Brash, brilliant and funny, the Chicago Imagists--from the Hairy Who and Nonplussed Some to False Image and Marriage Chicago Style--receive a full appraisal in this electrifying volume This amply illustrated catalog surveys the work of the group of artists known as the Chicago Imagists, who exhibited together in the late 1960s, and whose influence continues to spread 50 years later. Drawing from a collection of rarely seen works, the book presents work from the 17 artists who comprise the original Imagist exhibition groups--the Hairy Who, Nonplussed Some, False Image and Marriage Chicago Style--as well as a number of independent Chicago artists. These artists and their historic work, which is brash, brilliant and often humorous, have seen increased attention over the last decade. Scholars, collectors and younger artists have been magnetized by the paintings of Jim Nutt, Christina Ramberg, Roger Brown, Gladys Nilsson and Karl Wirsum, but there are few large-scale, high-quality books documenting their work. In addition to a reprint of an important and little-known piece by Dennis Adrian, the book features original essays that provide a big-picture view of the vibrant Chicago art ecosystem and explore the relationship between Imagism and abstraction and between historical Imagist art and its offspring. Also included are an interview with the collectors, biographical snapshots of seven key artists and a timeline plotting major works in the collection against important historical events in the art world. With this comprehensive range of material, Private Eye: The Imagist Impulse in Chicago Art adds substantively to the topic's scholarship.

Revolution of the Eye Maurice Berger,Museum of Art (Fort Lauderdale, Fla.),Addison Gallery of American Art,2014-01-01 An engaging exploration of the relationship between avant-garde art and American network television from the 1940s through the 1970s The aesthetics and concepts of modern art have influenced American television ever since its inception in the 1930s. In return, early television introduced the public to the latest trends in art and design. This engaging catalogue comprehensively examines the way avant-garde art shaped the look and content of network television in its formative years, from the 1940s through the mid-1970s. It also addresses the larger cultural and social context of television. Artists, fascinated with the new medium and its technological possibilities, contributed to network programs and design campaigns, appeared on television to promote modern art, and explored, critiqued, or absorbed the new medium in their work. More than 150 illustrations reveal both sides of the dialogue between high art and television through a selection of graphic designs, ephemera, and stills from important television programs--from The Twilight Zone to Batman to Rowan & Martin's Laugh-In, and more--as well as works by artists including Salvador Dalí, Lee Friedlander, Agnes Martin, Man Ray, Andy Warhol, and many others. Revolution of the Eye uncovers the cultural history of a medium whose powerful influence on our lives remains pervasive.

Looking Reality in the Eye Museums Association of Saskatchewan,2005 Museums are often stereotyped as dusty storage facilities for ancient artefacts considered important by only a handful of scholars. Recently there has been effort on the part of some museumologists to reconsider the role and responsibilities of museums, art galleries and science centres as integral social institutions in their communities. The book attempts to point the way towards a sustainable future for museums by examining institutions that have found creative ways to attain a socially responsive model for cultural resource management. Accessible and engaging, the articles presented here are an excellent starting point for any discussion on what museums have been and what they should strive to be.
