S Ashworth

The Piano Albert Ernest Wier,1940

The Musical Blue Book of America, ... ,1922

Physics for CXC John Avison,1999-06 Physics for CXC is a complete course book covering all the physics required for the CXC syllabus. All topics are carefully explained from a basic starting point which assumes very little prior knowledge or mathematical skill.

The Music and Dance of the World's Religions E. Rust,1996-08-23 Despite the world-wide association of music and dance with religion, this is the first full-length study of the subject from a global perspective. The work consists of 3,816 references divided among 37 chapters. It covers tribal, regional, and global religions and such subjects as shamanism, liturgical dance, healing, and the relationship of music, mathematics, and mysticism. The referenced materials display such diverse approaches as analysis of music and dance, description of context, direct experience, observation, and speculation. The references address topics from such disciplines as sociology, anthropology, history, linguistics, musicology, ethnomusicology, theology, medicine, semiotics, and computer technology. Chapter 1 consists of general references to religious music and dance. The remaining 36 chapters are organized according to major geographical areas. Most chapters begin with general reference works and bibliographies, then continue with topics specific to the region or religion. This book will be of use to anyone with an interest in music, dance, religion, or culture.

Music and Musicians Robert Schumann,1880

Queering the Pitch Philip Brett,Elizabeth Wood,Gary C Thomas,2013-02-01 When the first edition of *Queering the Pitch* was published in early 1994, it was immediately hailed as a landmark and defining work in the new field of Gay Musicology. In light of the explosion of Gay Musicology since 1994, a new edition of *Queering the Pitch* is timely and needed. In this new work, the editors are including a landmark essay by Philip Brett on Gay Musicology, its history and scope. The essay itself has become a cause celebre, and this will be its first full appearance in print. Along with this new historical essay, the editors are contributing a new introduction that outlines the changes that have occurred over the last decade as Gay Musicology has grown.

Seeking the Significance of Music Education Bennett Reimer,2009-06-16 Noted music educator Bennett Reimer has selected 24 of his previously published articles from a variety of professional journals spanning the past 50 years. During that time, he's tackled: -generating core values for the field of music education; -the core in larger societal and educational contexts; -what to teach and how to teach it effectively; -how we need to educate our teachers; -the role of research in our profession; and -how to improve our future status. Reimer precedes each essay with background reflections and his position, both professional and personal, on effectively addressing the issue

at hand. The opening 'Letter to the Reader' presents a valuable overview based on his deeply grounded viewpoint. The entire music education profession will benefit from Reimer's perspective on past, present, and future concerns central to the functioning of music education in *Seeking the Significance of Music Education: Essays and Reflections*.

The Adolescent F. Philip Rice, 1992 *The Adolescent* continues to be the most comprehensive book in its subject area, setting the standard for adolescent psychology books since its first publication more than twenty years ago. This book emphasizes the eclectic approach to adolescence, presenting not just one theory on the subject but many, and discussing the contributions, strengths, and weaknesses of each. The authors also take into consideration current and important topics such as ethnic identity formation and gender issues. For anyone in the fields of psychology or education with an interest in adolescents.

The Search for Musical Understanding Robert William Buggert, Charles Fowler, 1973

Canadian Almanac & Directory, 1974

The Renaissance Iain Fenlon, 1990-02-15 From the series examining the development of music in specific places during particular times, this book looks at European countries at the time of the Renaissance, concentrating on Italy. It is to be published in conjunction with a television series.

The Cambridge History of China: Volume 9, The Ch'ing Dynasty to 1800, Part 2 Willard J. Peterson, 2016-04-07 Volume 9, Part 2 of *The Cambridge History of China* is the second of two volumes which together explore the political, social and economic developments of the Ch'ing Empire during the seventeenth and eighteenth centuries prior to the arrival of Western military power. Across fifteen chapters, a team of leading historians explore how the eighteenth century's greatest contiguous empire in terms of geographical size, population, wealth, cultural production, political order and military domination peaked and then began to unravel. The book sheds new light on the changing systems deployed under the Ch'ing dynasty to govern its large, multi-ethnic Empire and surveys the dynasty's complex relations with neighbouring states and Europe. In this compelling and authoritative account of a significant era of early modern Chinese history, the volume illustrates the ever-changing nature of the Ch'ing Empire, and provides context for the unforeseeable challenges that the nineteenth century would bring.
