What Black Americans Must Do Now Ronald C. Smith, 2014-12-05 The cornerstones of this book are knowledge of the past and how the past informs the present—why historical information is a necessary ingredient of self-actualization for black people in America. This is a call for action to counteract the discrimination of black people in America.

What Black and White America Must Do Now Armstrong Williams, 2020-08-18 A call to our highest virtues and ideals What Black and White People Must Do Now explores the complexity of race and culture in the United States. In his third book, renowned conservative entrepreneur, author, and philanthropist Armstrong Williams discusses his prescription for healing and atonement amidst today's current social upheaval. Race and racism are America's original sin, and four hundred years later, they still plague the nation, pitting groups against each other. Despite how much time has elapsed, many Americans remain befuddled by how to move forward; however, the time for solutions has come. In this book, Armstrong Williams recounts his personal story and journey growing up working on his family farm in rural South Carolina, leading to an unexpected meeting with the late Senator Strom Thurmond of South Carolina, which turned into an unlikely relationship that led him to the halls of power in Washington, D.C. Williams calls for all Americans to stand up to represent America's highest virtues and ideals, and he challenges us to look beyond the pale of race for something much deeper.

Wendell Berry: Essays 1993-2017 (LOA #317) Wendell Berry, 2019-05-21 The second volume of the Library of America's definitive two-volume selection of the nonfiction writings of our greatest living advocate for sustainable culture. Writing with elegance and clarity, Wendell Berry is a compassionate and compelling voice for our time of political and cultural distrust and division, whether expounding the joys and wisdom of nonindustrial agriculture, relishing the pleasure of eating food produced locally by people you know, or giving voice to a righteous contempt for hollow innovation. He is our most important writer on the cultural crisis posed by industrialization and mass consumerism, and the vital role of rural, sustainable farming in preserving the planet as well as our national character. Now, in celebration of Berry's extraordinary six-decade-long career, Library of America presents a two-volume selection of his nonfiction writings prepared in close consultation with the author. In this second volume, forty-four essays from ten works turn to issues of political and social debate—big government, science and religion, and the meaning of citizenship following the tragedy of 9/11. Also included is his Jefferson Lecture to the National Endowment for the Humanities, *It All Turns on Affection* (2012). Berry's essays remain timely, even urgent today, and will resonate with anyone interested in our relationship to the natural world and especially with a younger, politically engaged generation invested in the future welfare of the planet. INCLUDES: *Life is a Miracle* AND SELECTIONS FROM *Sex, Economy, Freedom & Community* Another Turn of the Crank *Citizenship Papers* *The Way of Ignorance* *What Matters?* *Imagination in Place* *It All Turns on Affection* *Our Only World* *The Art of Loading Brush* LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.
