*Marisol and Warhol Take New York*, 2021-10-05 A tale of two Pop artists in 1960s New York This book charts the emergence of Marisol Escobar (1930-2016) and Andy Warhol (1928-87) in New York during the dawn of Pop art in the early 1960s. Through essays, interviews and prose, the book explores the artists' parallel rise to success, the formation of their artistic personas, their savvy navigation of gallery relationships and the blossoming of their early artistic practices from 1960 to 1968. The exhibition features key loans of Marisol's work from major global collections, along with iconic works and rarely seen films and archival materials from the Andy Warhol Museum's collection. By situating Marisol's work in dialogue with Warhol's, this new collection of writing seeks to reclaim the importance of her art; reframe the strength, originality and daring nature of her work; and reconsider her as one of the leading figures of the Pop era.

**Give Me the Now** Rudolf Zwirner, Nicola Kuhn, 2021-01-26 Rudolf Zwirner, "the man who invented the art market," as coined in *Der Spiegel*, reflects on more than sixty years in the art business in his authoritative autobiography. "Americans now see Germany as a natural breeding ground for mighty gallerists and collectors, but Rudolf Zwirner's fascinating new memoir walks us

through the decades it took to rebuild an art world shattered by World War II. In this dealer's charming telling, however, the work involved sounds more like play than labor." —Blake Gopnik, author of *Warhol* An art dealer of the ages, Rudolf Zwirner, father of the esteemed gallerist David Zwirner, reached many milestones in his career. From cofounding Art Cologne, the first fair for contemporary art, in 1967, to showing works by Georg Baselitz, Gerhard Richter, and Andy Warhol, Zwirner transformed the contemporary art scene in Cologne. Born in 1933, he presented more than three hundred exhibitions from the early 1960s to 1992. In his autobiography, Zwirner reveals stories of artists, his gallery, and his most important collector, Peter Ludwig, whose collection forms the cornerstone of the Ludwig Museum in Cologne. First published in 2019 in German, and translated and adapted here for the first time in English, the book explores the most significant moments of Zwirner's career and the fast-changing postwar art world. Also included in this edition is a new foreword by Lucas Zwirner, Rudolf's grandson, who reflects on his grandfather's role in bringing us to the global art landscape we find ourselves in now.

Living and Sustaining a Creative Life Sharon Loudon, 2013 In this day and age, when art has become more of a commodity and art school graduates are convinced that they can only make a living from their work by attaining gallery representation, it is more important than ever to show the reality of how a professional, contemporary artist sustains a creative practice over time. The forty essays collected in *Living and Sustaining a Creative Life* are written in the artists' own voices and take the form of narratives, statements, and interviews. Each story is different and unique, but the common thread is an ongoing commitment to creativity, inside and outside the studio. Both day-to-day and big picture details are revealed, showing how it is possible to sustain a creative practice that contributes to the ongoing dialogue in contemporary art. These stories will inform and inspire any student, young artist, and art enthusiast and will help redefine what success means to a professional artist.

Paths to the Absolute John Golding, 2023-10-17 A groundbreaking account of the meaning of abstract painting From Mondrian's bold geometric forms to Kandinsky's use of symbols to Pollock's dripped paintings, the richly diverse movement of abstract painting challenges anyone trying to make sense of either individual works or the phenomenon as a whole. Applying his insights as an art historian and a painter, John Golding offers a unique approach to understanding the evolution of abstractionism by looking at the personal artistic development of seven of its greatest practitioners. He re-creates the journey undertaken by each painter in his move from representational art to the abstract—a journey that in most cases began with cubism but led variously to symbolism, futurism, surrealism, theosophy, anthropology, Jungian analysis, and beyond. For each artist, spiritual quest and artistic experimentation became inseparable. And despite their different techniques and philosophies, these artists shared one goal: to break a path to a new, ultimate pictorial truth. The book first explores the works and concerns of three pioneering European abstract painters—Mondrian, Malevich, Kandinsky—and then those of their American successors—Pollock, Newman, Rothko, and Still. Golding shows how each painter sought to see the world and communicate his vision in the purest or most expressive form possible. For example, Mondrian found his way into abstraction through a spiritual response to the landscape of his native Holland, Malevich through his apprehension of the human body, Kandinsky through a blend of religious mysticism and symbolism. Line and color became the focus for many of their creative endeavors. In the 1940s and 50s, the Americans raised the level of pictorial innovation, beginning most notably with Pollock and his Jung-inspired concept of action. Golding makes a powerful case that at its best

and most profound, abstract painting is heavily imbued with meaning and content. Through a blend of biography, art analysis, and cultural history, *Paths to the Absolute* offers remarkable insights into how a sense of purpose is achieved in painting, and how abstractionism engaged with the intellectual currents of its time.
