Scorched Souls: Web of Hearts and Souls #20 Jamie Magee,2016-06-13 What is meant to hurt us can become our greatest weapon. Which is exactly what Aden intended to create. When he found a lavender beauty standing before him asking if he remembered her Aden wasted no time proving that he did. Their first kiss ignited the greatest challenge of his life. A taste so familiar and sweet that it pushed Aden to search beyond the discernible truth that the pair of them were everlasting. Seconds later, darkness struck and the soul mate returned to him was pulled back by the evil that had entrapped her for so long. In the fight to save her life, mysteries and battles that Aden had fought in his young life churned to the surface, ultimately pushing him to find a heart wrenching solution that threatens to dissolve alliances vital to win the war against darkness. The Grammar of Possession Maura Velázquez-Castillo,1996-12-19 The Grammar of Possession: Inalienability, incorporation and possessor ascension in Guaraní, is an exhaustive study of linguistic structures in Paraguayan Guaraní which are directly or indirectly associated with the semantic domain of inalienability. Constructions analyzed in the book include adnominal and predicative possessive constructions, noun incorporation, and possessor ascension. Examples are drawn from a rich data base that incorporate native speaker intuitions and resources in the construction of illustrative linguistic forms as well as the analysis of the communicative use of the forms under study. The book provides a complete picture of inalienability as a coherent integrated system of grammatical and semantic oppositions in a language that has received little attention in the theoretical linguistic literature. The analysis moves from general principles to specific details of the language while applying principles of Cognitive Grammar and Functional Linguistics. There is an explicit aim to uncover the particularities of form-meaning connections, as well as the communicative and discourse functions of the structures examined. Other approaches are also considered when appropriate, resulting in a theoretically informed study that contains a rich variety of considerations.
