*The Con Edison Power Failure of July 13 and 14, 1977* United States. Federal Energy Regulatory Commission, 1978 On July 13, 1977 the entire electric load of the Con Edison system was lost, plunging New York City and Westchester County into darkness. The collapse resulted from a combination of natural events, equipment malfunctions, questionable system-design features, and operating errors. An attempt is made in this report to answer the following: what were the specific causes of the failure; if equipment malfunctions and operator errors contributed, could they have been prevented; to what extent was Con Edison prepared to handle such an emergency; and did Con Edison plan prudently reserve generation, for reserve transmission capability, for automatic equipment to protect its system, and for proper operator response to a critical situation. Following the introductory and summary section, additional sections include: the Consolidated Edison system; prevention of bulk power-supply interruptions; the sequence of failure and restoration; analysis of the July 1977 power failure; restoration sequence and equipment damage assessment; and other investigations of the blackout--OSTI record abstract.

**Con Ed** Matthew Klein, 2007-03-13 A brisk, clever, and charming page-turner about crime, the art of the con, and the culture of Silicon Valley (Booklist, starred review). Kip Largo was once the world's greatest con man. Then he got busted. And spent eight years in jail. And lost his family. And lost everything except his crummy apartment and sense of humor. Now he spends his days working at a third-rate dry cleaner and maintaining a fourth-rate website. But hey, it's an honest living. Then one day he meets Lauren Napier, beautiful wife of billionaire Ed Napier. Lauren's got a problem. She wants to leave Ed, but doesn't get squat in a divorce. She wants Kip to steal the money. She wants to pay him handsomely for his services. Kip's many things, but dumb isn't one of them. He knows that when a beautiful woman wants something from you, the only thing you're gonna get in return is trouble. So he makes the smart choice and walks away. But then things get complicated. Kip comes home one day to find his son on his couch. Kip hasn't seen his son in years. Guess what' His son owes money to the Russian Mob. Kip can't say he saw that coming. And his son is short, well, the whole amount. Kip's monthly gross from the website generally tops out at twelve bucks. And suddenly Lauren's proposal isn't looking half bad. This is Kip's chance to start over, to save his son, to afford a brand new life. But Kips knows that in any heist things never go as planned, and if you

don't improvise you'll be caught faster than a one-legged bank robber. But suddenly Kip doesn't know who's conning who, and if he doesn't figure it out, his life could be the ultimate failed con.

*Behavioral Finance: The Second Generation* Meir

Statman, 2019-12-02 Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's

normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

**Finance for Normal People** Meir Statman, 2017-04-03 Finance for Normal People teaches behavioral finance to people like you and me - normal people, neither rational nor irrational. We are consumers, savers, investors, and managers - corporate managers, money managers, financial advisers, and all other financial professionals. The book guides us to know our wants-including hope for riches, protection from poverty, caring for family, sincere social responsibility and high social status. It teaches financial facts and human behavior, including making cognitive and emotional shortcuts and avoiding cognitive and emotional errors such as overconfidence, hindsight, exaggerated fear, and unrealistic hope. And it guides us to banish ignorance, gain knowledge, and increase the ratio of smart to foolish behavior on our way to what we want. These lessons of behavioral finance draw on what we know about us-normal people-including our wants, cognition, and emotions. And they draw on the roles of these factors in saving and spending, portfolio construction, returns we

can expect from our investments, and whether we can hope to beat the market. Meir Statman, a founder of behavioral finance, draws on his extensive research and the research of many others to build a unified structure of behavioral finance. Its foundation blocks include normal behavior, behavioral portfolio theory, behavioral life-cycle theory, behavioral asset pricing theory, and behavioral market efficiency.
