Cold Kill James Becker,2018-08-20 This “brilliantly constructed thriller” features an English policeman investigating a serial killer alongside the FBI in the American southwest (Robert Foster, author of *The Lunar Code*). When mutilated cattle are found in New Mexico, it’s only a matter of time before the killer will seek out human victims. And when a series of eviscerated corpses appear on the prairie, British detective Steven Hunter, seconded to the FBI, is assigned the task of finding the twisted murderer. But his investigations pull in two conflicting directions. Who is piloting the mysterious jet-black helicopters that have been spotted flying over the crime scenes? And do they have anything to do with the killings? With no forensic evidence left on the bodies, and a series of loner victims with nothing to connect them, these cold kills will stretch Hunter to his limits if he hopes to stop this predator from finding his next prey . . .

The Golden Hour T. Greenwood,2023-01-24 A

compelling and evocative novel with an unsettling question at its heart, *The Golden Hour* from acclaimed author T. Greenwood explores the power of art to connect, to heal, and to reveal... On a spring afternoon long ago, thirteen-year-old Wyn Davies took a shortcut through the woods in her New Hampshire hometown and became a cautionary tale. Now, twenty years later, she lives in New York, on the opposite side of a duplex from her ex, with their four-year-old daughter shuttling between them. Wyn makes her living painting commissioned canvases of birch trees to match her clients' furnishings. But the nagging sense that she has sold her artistic soul is soon eclipsed by a greater fear. Robby Rousseau, who has spent the past two decades in prison for a terrible crime against her, may be released based on new DNA evidence—unless Wyn breaks her silence about that afternoon. To clear her head, refocus her painting, and escape an even more present threat, Wyn agrees to be temporary caretaker for a friend's new property on a remote Maine island. The house has been empty for years, and in the basement Wyn discovers a box of film canisters labeled "Epitaphs and Prophecies." Like time capsules, the photographs help her piece together the life of the house's former owner, an artistic young mother, much like Wyn. But there is a mystery behind the images too, and unraveling it will force Wyn to finally confront what happened in those woods—and perhaps escape them at last.

Imagine David E. Stevens,2018-01-01 Your Cell Phone Could Be Your Worst Enemy. Hackers have cracked the global cell phone network and Internet. Stock markets, GPS navigation and even secret CIA files are all under their control. The world is on the verge of a catastrophic economic meltdown, but one country has not been affected,

China. Is this a coincidence or a dangerous plan to bring the world to its knees? *IMAGINE* is the second book of the award-winning *Fuzed Trilogy*.

Taking Down Trump Tristan Snell, 2024-01-30 An indispensable must-read. This is THE book to read to understand what's going on in the cases against Trump." — Joy Reid, MSNBC News anchor and host of *The ReidOut* A former prosecutor provides an essential guide to ensuring that Donald Trump, and other oligarchs of his ilk, no longer beat the rap, and face serious jail time for their crimes . . . For a half century Donald Trump has evaded justice. Now he finally faces trials for his lies, cons, and misdeeds—but many fear Trump will never face any real consequences. Is our system so broken that some people are now above the law? In *Taking Down Trump*, Tristan Snell—a former assistant attorney general for New York State who took on and beat Trump in a court of law—argues that Donald Trump can indeed be defeated, and shares his secrets for how to beat him. Snell led New York State's prosecution of Donald Trump for defrauding hundreds of Trump University students, resulting in Trump having to shell out \$25 million to his victims —Trump's first and only major legal loss to date. Snell lays out 12 key rules for how to beat Trump—including: How voters and activists hold prosecutors accountable How to stand up to Trump's public bullying How to persevere against all the stonewalling and counterattacks How to get key figures to cooperate and cough up critical evidence Along the way, Snell discusses his own experience prosecuting Trump, and observes how prosecutors in the various cases against Trump are exploiting such rules—or not—as well as how Trump's revolving team of lawyers can be expected to behave, or, more accurately, perform. Whether you're a concerned citizen, a lawyer or prosecutor, or an activist or advocate,

Snell shows how America's systems can still work to bring even the richest and most powerful to justice, and why those systems are worth preserving and improving. Ultimately, this is a road map for how America can begin to escape the Trump wilderness of fraud and fascism.

CHANGING WORLDS M. Evangeline

Anderson,2004-07-15 Between July 1999 and June 2000, 173,210 immigrants arrived in Canada, including 6,196 Caribbean nationals. Most settled in Toronto, enhancing its burgeoning multiculturalism; but Evangeline's family chose Ottawa instead - a city known as the coldest posting a Jamaican diplomat could receive. Evangeline discovers more about Canada the hard way. Although from 1994 to 2001 the United Nations declared Canada the best country of abode, Evangeline confirms that there are at least two sides to this, as to every other story. Minority status and its unfamiliar problems, subtle pressures to conform to new molds, unemployment and family reunification hurdles dog the resettling experience. However, active faith and steadfast purpose bring triumph in each circumstance. Jamaica, never far from Evangeline's heart, becomes a target for prayer as well as a destination for family visits and "snowbird" escapes. As recipient of Jamaica's 1992 Governor General's Award for the parish of St. Andrew, Evangeline remains patriotic. She continues to support the community outreach projects of Christian Life Fellowship in Jamaica, and the work of the Jamaica House of Prayer.

Singularity Kathryn Casey,2018-04-18 Wow! What a book! The character is incredibly well-developed. The pulse-pounding plot has thrilling twists and turns that make it impossible to put down. When I completed this book, I had to immediately buy the second in the series. An excellent

read! -Five-star Goodreads review. Profiler Sarah Armstrong knows what it's like to be in a sticky situation. But when megawealthy businessman Edward Lucas III is found murdered along with his mistress, their bodies posed in grotesque ways, Sarah quickly senses that this will be the deadliest case of her career. While others focus on Lucas's estranged wife, Sarah hunts a suspect only she believes in. Yet nothing in her career has prepared her for the horror of a young man who believes he has been sent from heaven to massacre innocent people. When Sarah picks up the killer's elusive trail, the psychopath sets his sights on all she holds dear. Filled with pulse-pounding action, Singularity features a feisty, funny, and tough heroine and a truly creepy killer, as it races along to a chilling and unexpected climax.
