Model Rules of Professional Conduct American Bar Association. House of Delegates,Center for Professional Responsibility (American Bar Association),2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The Principles of Representative Government Bernard Manin,1997-02-28 The thesis of this original and provocative book is that representative government should be understood as a combination of democratic and undemocratic, aristocratic elements. Professor Manin challenges the conventional view that representative democracy is no more than an indirect form of government by the people, in which citizens elect representatives only because they cannot assemble and govern in person. The argument is developed by examining the historical moments when the present institutional arrangements were chosen from among the then available alternatives. Professor Manin reminds us that while today representative institutions and democracy appear as virtually indistinguishable, when representative government was first established in Europe and America, it was designed in opposition to democracy proper. Drawing on the procedures used in earlier republican systems, from classical Athens to Renaissance Florence, in order to highlight the alternatives that were forsaken, Manin brings to the fore the generally overlooked results of representative mechanisms. These include the elitist aspect of elections and the non-binding character of campaign promises.

**Termination of Tenancies for Tenant Default** Great Britain: Law Commission,2006-10-31 Following on from a consultation paper (Consultation paper 174; ISBN 0117302562) published in January 2004, this report contains proposals for reform of the law regarding the termination of a tenancy during its term, by a landlord, due to the tenant having broken the terms of the tenancy agreement. It sets out, in the form of a draft Bill, a new statutory scheme for the termination of tenancies, including a new concept of 'tenant default', to replace the current law of forfeiture. The proposed scheme would define the circumstances in which a landlord may seek to terminate a tenancy early, require the landlord to warn the tenant of the impending action by giving a written notice, and confers enhanced protection on those with interests deriving out of the tenancy. The report is divided into eight parts with three appendices, and issues considered include: problems with the current law of forfeiture of tenancies and the case for reform; the various components of the proposed scheme, including the concept of tenant default and the stages of a landlord's 'termination claim'; and the role of the court.
