Hallowtide Karl Pfeiffer,2012-09-26 *Halloween, 2001*. Will Andrews is found in the hallway of Savage Creek High School, shot in the head, pistol in hand. Beside him is a dead man with a bomb strapped to his chest. Two of Will's best friends are dead. Two more are wounded. When Will wakes from his coma three days later, he has no memory of what happened, but the local papers are already calling him a hero. Now, five years later, Will is in Hell. At night, he holds his girlfriend, Jennifer, close, while in his sleep he journeys deeper and deeper into a nightmarish dreamscape. During the day, his therapist urges him to finally look into the shooting, suggesting that these nightmares may be one part of himself desperately trying to communicate with the other. But the deeper Will digs, the further the lines between reality and fiction are blurred, and he finds himself in a place where nightmare bleeds into memory, the spiritual leaks into the physical, and the world as he knows it threatens dissolving entirely. Both beautiful and deeply harrowing, *Hallowtide* combines Jungian theory with echoes of classic descent narratives, deconstructing western philosophy, depression, and religion, while following one young man's fall into Stygian wasteland and the journey that will change him forever.

Silent Sparks Sara Lewis,2016-04-26 An informative, entertaining, and beautifully illustrated look at the beloved firefly For centuries, the beauty of fireflies has evoked wonder and delight. Yet for most of us, fireflies remain shrouded in mystery: How do fireflies make their light? What are they saying with their flashing? And what do fireflies look for in a mate? In *Silent Sparks*, noted biologist and firefly expert Sara Lewis dives into the fascinating world of fireflies and reveals the most up-to-date discoveries about these beloved insects. From the meadows of New England and the hills of the Great Smoky Mountains, to the rivers of Japan and mangrove forests of Malaysia, this beautifully illustrated and accessible book uncovers the remarkable, dramatic stories of birth, courtship, romance, sex, deceit, poison, and death among fireflies. The nearly two thousand species of fireflies worldwide have evolved in different ways—and while most mate through the aerial language of blinking lights, not all do. Lewis introduces us to fireflies that don't light up at all, relying on wind-borne perfumes to find mates, and we encounter glow-worm fireflies, whose plump, wingless females never fly. We go behind the scenes to meet inquisitive scientists who have dedicated their lives to understanding fireflies, and we learn about various modern threats including light pollution and habitat destruction. In the last section of the book, Lewis provides a field guide for North American fireflies, enabling us to identify them in our own backyards and neighborhoods. This concise, handy guide includes distinguishing features, habits, and range maps for the most commonly encountered fireflies, as well as a gear list. A passionate exploration of one of the world's most charismatic and admired insects, *Silent Sparks* will inspire us to reconnect with the natural world.

Clock Face of Ills Paige Elizabeth Turner,2017-12-07 ‘When planning a murder, many variables must be considered...Preparation is akin to a screenwriter stitching together plots and scenes, establishing timelines, and illuminating the manner by which the killer will escape prosecution.’ Paige Elizabeth Turner is back with *Clock Face of Ills*, the third instalment of the *Watts Happening? Investigations* series. In the book, Olivia Watts, former police sergeant and now proprietor of ‘Watts Happening? Investigations’ is commissioned to assist a covert operation investigating allegations against DI Philip McMaster. McMaster is embroiled in a boundary dispute with his neighbour Giuseppe Caruso. When an untapped vein of a historic gold belt is discovered beneath the properties, McMaster offers to purchase the Caruso property. Days later, Caruso is found dead in his home. The routine ‘tail and report’ investigation uncovers McMaster’s association with a gangland killer and a crooked solicitor. Olivia ties McMaster to fraud, deception and murder, only to find her evidence against the long-serving officer rejected by the police brotherhood. Within days Olivia’s life is threatened. Will she uncover enough evidence in time to protect herself and find Caruso’s killer? *Clock Face of Ills* is a gripping crime novel that keeps readers hooked until the very end. Comparable to the work of Sue Grafton, the book will appeal to fans of crime novels, especially readers who have enjoyed Paige’s previous two novels, *Beyond All Doubt* (Matador, 2017) and *Whisper of Death* (Matador, 2017).
