📖 **MY LOCAL GOVERNMENT** Denny O’Nan, 2013-08-01 My Local Government is aligned to the Common Core State Standards for English/Language Arts, addressing Literacy.RI.3.2 and Literacy.L.3.5c. This book should be paired with 📖 Landon’s Local Government (9781477726341) from the InfoMax Common Core Readers Program to provide the alternative point of view on the same topic.

📖 **LOCAL DOLLARS, LOCAL SENSE** Michael Shuman, 2012 Local Dollars, Local Sense is a guide to creating community resilience. Americans’ long-term savings in stocks, bonds, mutual funds, pension funds, and life insurance funds total about \$30 trillion. But not even 1 percent of these savings touch local small business—even though roughly half the jobs and the output in the private economy come from them. So, how can people increasingly concerned with the poor returns from Wall Street and the devastating impact of global companies on their communities invest in Main Street? In Local Dollars, Local Sense, local economy pioneer Michael Shuman shows investors, including the nearly 99% who are unaccredited, how to put their money into building local businesses and resilient regional economies—and profit in the process. A revolutionary toolbox for social change, written with compelling personal stories, the book delivers the most thorough overview available of local investment options, explains the obstacles, and profiles investors who have paved the way. Shuman demystifies the growing realm of local investment choices—from institutional lending to investment clubs and networks, local investment funds, community ownership, direct public offerings, local stock exchanges, crowdfunding, and more. He also guides readers through the lucrative opportunities to invest locally in their homes, energy efficiency, and themselves. A rich resource for both investors and the entrepreneurs they want to support, Local Dollars, Local Sense eloquently shows how to truly protect your financial future—and your community’s.

📖 **HAZEL AND CHA CHA SAVE CHRISTMAS: TALES FROM THE UMBRELLA ACADEMY ONE-SHOT** Gerard Way, Scott Allie, 2019-11-20 Hazel and Cha Cha—the bizarre assassins who first appear in Umbrella Academy: Dallas and blew audiences away in the Netflix series—track down a rogue time agent and cross paths with a plot to discredit Christmas! The first Umbrella Academy spinoff!

📖 **INSIDE OUT INDIA AND CHINA** William Antholis, 2013-08-14 For the last decade, China and India have grown at an amazing rate—particularly considering the greatest downturn in the U.S. and Europe since the Great Depression. As a result, both countries are forecast to have larger economies than the U.S. or EU in the years ahead. Still, in the last year, signs of a slowdown have hit these two giants. Which way will these giants go? And how will that affect the global economy? Any Western corporation, investor, or entrepreneur serious about competing internationally must understand what makes them tick. Unfortunately, many in the West still look at the two Asian giants as monoliths, closely controlled mainly by their national governments. Inside Out, India and China makes clear how and why this notion is outdated. William Antholis—a former White House and State Department official, and the managing director at Brookings—spent five months in India and China, travelling to over 20 states and provinces in both countries. He explored the enormously diversity in business, governance, and culture of these nations, temporarily relocating his entire family to Asia. His travels, research, and interviews with key stakeholders make the unmistakable point that these nations are not the immobile, centrally directed economies and structures of the past. More and more, key policy decisions in India and China are formulated and implemented by local governments—states, provinces, and fast-growing cities. Both economies have promoted entrepreneurship, both by private sector and also local government officials. Some strategies work. Others are fatally flawed. Antholis’s detailed narratives of local innovation in governance and business—as well as local failures—prove the point that simply maintaining a presence in Beijing and New Delhi – or even Shanghai and Mumbai —is not enough to ensure success in China or India, just as one cannot expect to succeed in America simply by setting up in Washington or New York. Each nation is as large, vibrant, innovative, diverse, and increasingly decentralized as are the United States, Europe and all of Latin America ... combined. China and India each have their own agricultural heartlands, high-tech corridors, resource-rich areas, and powerhouse manufacturing regions. They also have major economic, social, environmental challenges facing them. But few people outside these countries can name those places, or have a mental map of how the local parts of these countries are shaping their global futures. Organizations, businesses, and other governments that do not recognize and plan for this evolution may miss that the most important changes in these emerging giants are coming from the inside out. “This book is for people who wonder about the inside of China and India, and how different local perspectives inside those countries shape actions outside their borders. Though my family and I spent five months traveling in both countries to do research, this book is not a travelogue. Rather, it is an attempt to sketch how a few of China’s and India’s many component parts are being shaped by global forces—and in turn are shaping those forces—and what that means for Americans and Europeans conducting diplomacy and doing business there.”—from the Introduction
