The MBA Bubble Mariana Zanetti,2013-10-29 Author Mariana Zanetti pens an eye-opening expose into the world of higher business education that will appeal to all those who have, or are contemplating getting, their master's of business administration (MBA) degree. The MBA Bubble is nothing short of revolutionary in a world where young professionals are increasingly encouraged to mortgage their futures for little return. After earning her MBA from one of the world's top business schools, Zanetti embarked on a successful international marketing career, meeting all of her professional goals and more. Yet she admits in The MBA Bubble that choosing to pursue this particular degree was one of the worst mistakes of her entire career. In her straightforward and honest prose, Zanetti reveals the truth about the role of MBAs in today's world. Created one hundred years ago for an age that no longer exists, these degrees have become ruinous investments for the hoards of young professionals who have been convinced by business schools that they are necessary. Zanetti explains that, despite the common belief, MBAs do not actually enhance salaries and discusses the deceit behind business schools' marketing tactics, including their manipulation of rankings and statistics. In addition to the presentation of exhaustive research, Zanetti demonstrates how to meet one's professional goals without plummeting into massive debt. She teaches readers how to think critically and challenge the faulty mental models that most people accept without question. The MBA Bubble is a must read for all those who have, or are considering, a higher business education degree. Armed with facts and alternative resources, readers will walk away from Zanetti's book with a new found understanding of the way business schools really work.

An Entire MBA in 1 Course Chris Haroun.2016-02-09 \*\* ACCORDING TO BUSINESS INSIDER: Getting your MBA has never been easier. Haroun is one of the highest rated professors on Udemy, so you can expect to be in good hands through the course of your education. \*\* This is the book version of the popular Udemy.com course called An Entire MBA in 1 Course. From the Author of 101 Crucial Lessons They Don't Teach You in Business School, which Forbes magazine calls 1 of 6 books that all entrepreneurs need to read right now. This book will teach you everything you need to know about business....from starting a company to taking it public. Most business books are significantly outdated. This book leverages many online resources and makes the general business, accounting and finance process very easy to understand (and enjoyable too)! There are many incredibly engaging and entertaining video links in the book to YouTube and other sources; 'edutainment' works! Although this book is close to 400 pages, I tried to visualize the content of this book as much as possible as this is a more impactful and enjoyable way to learn

(think Pinterest versus the tiny words in the Economist)! The contents of this book are all based on my work experience at several firms, including Goldman Sachs, the consulting industry at Accenture, a few companies I have started, the hedge fund industry where I worked at Citadel and most recently, based on my experience at a prominent San Francisco based venture capital firm. I also included many helpful practical business concepts I learned while I did an MBA at Columbia University and a Bachelor of Commerce degree at McGill University. Think of this book as a greatest hits business summary from my MBA, undergraduate business degree, work experience in consulting, equities, hedge funds, venture capital and starting my own companies. As the title of this book suggests, this is an entire MBA in one book; it's also a practical manual to help you accomplish your business career goals. I have minimized boring theoretical concepts in this book in order to keep it as close to reality as possible. I hope you enjoy it! In addition to teaching at 4 universities in the San Francisco Bay Area, you can find other courses that I teach online at www.udemy.com/user/chris-haroun/.
