OCA Java SE 7 Programmer Study Guide (Exam 1Z0-803) Budi Kurniawan,2015-06-15 This book is designed for people who want to pass the OCA Java SE 7 Programmer exam (Exam 1Z0-803). It comes with a Java refresher, self-tests, and a full mock exam.

Your Stimulus Package Jeremy M. Washburn,2009 Compound interest is the greatest mathematical discovery of all time. Those who understand compound interest are destined to collect it. Those who don't are doomed to pay it. Attrib. Albert Einstein. Every day while people try to save 50 cents clipping coupons, drive around the block to save \$0.03 on a gallon of gas, or just plain shop for bargains, they are literally throwing away tens of thousands, even hundreds of thousands of dollars to interest. It is sickening. It is a financial crisis. But if you understand interest, you are destined to earn it, not pay it. Jeremy Washburn

R Packages Hadley Wickham,2015-03-26 Turn your R code into packages that others can easily download and use. This practical book shows you how to bundle reusable R functions, sample data, and documentation together by applying author Hadley Wickham's package development philosophy. In the process, you'll work with devtools, roxygen, and testthat, a set of R packages that automate common development tasks. Devtools encapsulates best practices that Hadley has learned from years of working with this programming language. Ideal for developers, data scientists, and programmers with various backgrounds, this book starts you with the basics and shows you how to improve your package writing over time. You'll learn to focus on what you want your package to do, rather than think about package structure. Learn about the most useful components of an R package, including vignettes and unit tests Automate anything you can, taking advantage of the years of development experience embodied in devtools Get tips on good style, such as organizing functions into files Streamline your development process with devtools Learn the best way to submit your package to the Comprehensive R Archive Network (CRAN) Learn from a well-respected member of the R community who created 30 R packages, including ggplot2, dplyr, and tidy

Da Nang Diary Tom Yarborough,2013-11-05 "[An] intimate account of a Forward Air Controller working with the Special Forces on their secret operations in South Vietnam and Laos . . . Don't miss it!" (John Prados, author of *Storm Over Leyte*). Originally published in 1991, this classic work has now been revised and updated with additional photos. It is the story of how, in Vietnam, an elite group of Air Force pilots fought a secret air war in Cessna 0-2 and OV-10 Bronco prop planes—flying as low as they could get. The eyes and ears of the fast-moving jets who rained death and destruction down on enemy positions, the forward air controller made an art form out of an air strike—knowing the targets, knowing where friendly troops were, and reacting with split-second, life-and-death decisions as a battle unfolded. The expertise of the low, slow FACs, as well as the hazard attendant to their role, made for a unique bird's-eye perspective on how the entire war in Vietnam unfolded. For Tom Yarborough, who logged 1,500 hours of combat flying time, the risk was constant, intense, and electrifying. A member of the super-secret "Prairie Fire" unit, Yarborough became one of the most frequently shot-up pilots flying out of Da Nang—engaging in a series of dangerous secret missions in Laos. In this work, the reader flies in the cockpit alongside Yarborough in his adrenaline-pumping chronicle of heroism, danger, and wartime brotherhood. From the rescuing of downed pilots to taking out enemy positions, to the most harrowing extended missions directly overhead of the NVA, here is the dedication, courage and skill of the fliers who took the war into the enemy's backyard.

Lifting My Voice Barbara Hendricks,2014-06-01 Growing up African American in segregated Arkansas in the 1950s, Barbara Hendricks witnessed firsthand the painful struggle for civil rights. After graduation from the Juilliard School of Music, Hendricks immediately won a number of important international prizes, and began performing in recitals and operas throughout the world. A Goodwill Ambassador for the United Nations High Commission for Refugees, she is as devoted to humanitarian work as she is to her music. Always the anti-diva, Hendricks is a down-to-earth and straightforward woman, whether singing Mozart or black spirituals. She challenges stereotypes and puts the music first and presents a warm, engaging, and honest self-portrait of one of the great women of music.
