High Performance Computing Mateo Valero, Kazuki Joe, Masaru Kitsuregawa, Hidehiko Tanaka, 2003-06-29 I wish to welcome all of you to the International Symposium on High Performance Computing 2000 (ISHPC 2000) in the megalopolis of Tokyo. After having two great successes with ISHPC'97 (Fukuoka, November 1997) and ISHPC'99 (Kyoto, May 1999), many people have requested that the symposium would be held in the capital of Japan and we have agreed. I am very pleased to serve as Conference Chair at a time when high performance computing (HPC) has a significant influence on computer science and technology. In particular, HPC has had and will continue to have a significant impact on the advanced technologies of the "IT" revolution. The many conferences and symposiums that are held on the subject around the world are an indication of the importance of this area and the interest of the research community. One of the goals of this symposium is to provide a forum for the discussion of all aspects of HPC (from system architecture to real applications) in a more informal and personal fashion. Today we are delighted to have this symposium, which includes excellent invited talks, tutorials and workshops, as well as high quality technical papers.

Innovative LibGuides Applications Ryan L. Sittler, Aaron W. Dobbs, 2016-10-07 Innovative LibGuides Applications: Real World Examples shows both new and experienced users methods to utilize the platform in ways that they may not have previously considered. This includes topics such as website and learning management system integration, digital collections, data-drive decision-making, information literacy instruction, library administration, and a system-wide case study. Each chapter features ideas that you can implement immediately, or over time, as is appropriate to your own needs. Further, they are adaptable—tweak as you see fit! Divided into sections, this book examines different uses and approaches to LibGuides:

- Website and learning management system (LMS) integration: examine how LibGuides can be used as, or closely integrated with, the library website and/or your institutions' LMS. Various examples are provided that you may be able to adapt at your own organization. Not every solution worked as anticipated—our authors address this, as well.
- Digital collections: Two alternate approaches are presented. One looks at exhibitions and their application as outreach tools. The other looks at creating a digital museum within LibGuides. These are "can't miss" chapters for those that wish to more deeply explore digital collections and LibGuides viability.
- Data-drive decision-making: Learn how some institutions are mining and utilizing data collected within LibApps/LibGuides. In both cases, the data examined helped institutions to improve library services while articulating a clear purpose (and use) for each data point.
- Information literacy: Explore two different methods for revamping your instruction program through utilization of the platform.
- Library administration: Discover how internal and external processes may be augmented through the use of LibApps/LibGuides.
- System-wide case study: See how a community college system in North Carolina has each implemented (or not)

LibApps/LibGuides on their respective campuses. This section shows how different institutions may decide to use the platform in different ways—all while attempting to improve their own services. Upon completion of this authoritative LITA Guide, readers will come away with the knowledge and tools to maximize their LibGuides experience.

Ambereye Gill McKnight,2010-01-01 The thing with the Garouls is you never get quite what you think you will. They really are something else. Hope Glassy loves her job at Ambereye, Inc., despite having Jolie Garoul as her new boss.. Jolie is a moody workaholic. She is awkward, contrary, and on occasion just plain mean. Hope is hardworking, popular, and in recovery from a serious illness. She doesn't need a bizarre boss. She doesn't need office politics. And she doesn't need to work over Thanksgiving either. Nevertheless, that's what she and Jolie end up doing...in Little Dip, home of the Garoul clan.. An important meeting brings them to the valley where it's assumed Jolie has brought her chosen mate to meet her pack. Much to her consternation Jolie finds she likes this idea, but Hope has no time for romance. She is eager to get her life, health, and career back on track, nothing more. Jolie is determined to change her mind, but how does a lycanthrope woo a human? A small and super-efficient, bossy boots human at that?.
