The Songwriting Secrets Of The Beatles Dominic Pedler,2010-05-25 Thirty years after The Beatles split up, the music of Lennon, McCartney, Harrison and Starr lives on. What exactly were the magical ingredients of those legendary songs? Why are they still so influential for today's bands? This ground-breaking book sets out to explore The Beatles' songwriting techniques in a clear and readable style. It is aimed not only at musicians but anyone who has ever enjoyed the work of one of the most productive and successful songwriting partnerships of the 20th Century. Author Dominic Pedler explores the chord sequences, melodies, harmonies, rhythms and structures of The Beatles' self-penned songs, while challenging readers to enhance their appreciation of the lyrics themselves with reference to the musical context. Throughout the book the printed music and lyrics of The Beatles' songs appear alongside the text, illustrating the author's explanations. *The Songwriting Secrets Of The Beatles* is an essential addition to Beatles literature - a new and perceptive analysis of both the music and the lyrics written and performed by what Paul McCartney still calls 'a really good, tight little band'.

America's Secret Power Loch K. Johnson,1991-03-14 Based on hundreds of interviews with CIA officials, national security experts, and legislators, as well as a thorough culling of the archival record, *America's Secret Power* offers an illuminating and up-to-date picture of the CIA, stressing the difficult balance between the genuine needs of national security and the protection of individual liberties. Loch Johnson, who has studied the workings of the CIA at first hand as a legislative overseer, presents a comprehensive examination of the Agency and its relations with other American institutions, including Congress and the White House, and looks closely at how it pursues its three major missions--intelligence analysis, counterintelligence, and covert action. At once fascinating and sobering, Johnson's book reveals how the best intelligence reports can be distorted or ignored; how covert actions can spin out of control despite extensive safeguards, as in the Iran-Contra scandal; and how the CIA has spied on American citizens in clear violation of its charter. Further, he provides a thorough review of legislative efforts to curb these abuses, and suggests several important ways to achieve the delicate balance between national security and democratic ideals.

A Concordance to Conrad's The Secret Agent Todd K. Bender,2020-04-27

Originally published in 1979, this concordance consists of a Verbal Index listing the location of all words used by Conrad, a Word Frequency Table

listing number occurrences for each word in his text, and a Field of Reference in which the user can locate in its context a word cited in the Verbal Index. This volume is part of a series which produced verbal indexes, concordances, and related data for all of Conrad's works.
