Russia's Demise by Doctor Gum & Mice Novel Charles E. Moore,2022-07-06 Join Doctor Bob L Gum along with his significant other and learn what it means to do the deed and be more than just a mouse as he wishes himself from mortal man to mouse and back to man again and learns what it means to not just make a wish, but be the architect of one's transformation and fine-tuning that brings about real change in this world. To accomplish this he skirts around and dodges what some might consider illegal undertakings if he were human, but for a mouse he could be acquitted and exonerated for such maneuvers as there have not been laws written to cover such schemes by critters as he. He and his sweetheart go on a whirlwind tour of South America and ultimately wind up in Africa where they embark on a mission of establishing communications with the animals and putting an end to the war in Ukraine and a resolution to global warming while there is still time. He does so with the blessing and a directive from the Lord God Almighty and the assistance of "Silo" Sam Arkansas Miller from a previous novel, "Call Me Sam".

The Shooting Star Shivya Nath,2018-09-14 Shivya Nath quit her corporate job at age twenty-three to travel the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, The Shooting Star is a travel memoir that maps not just the world but the human spirit.

Left Brain, Right Stuff Phil Rosenzweig,2014-01-07 Left Brain, Right Stuff takes up where other books about decision making leave off. For many routine choices, from shopping to investing, we can make good decisions simply by avoiding common errors, such as searching only for confirming information or avoiding the hindsight bias. But as Phil Rosenzweig shows, for many of the most important, more complex situations we face—in business, sports, politics, and more—a different way of thinking is required. Leaders must possess the ability to shape opinions, inspire followers, manage risk, and outmaneuver and outperform rivals. Making winning decisions calls for a combination of skills: clear analysis and calculation—left brain—as well as the willingness to push boundaries and take bold action—right stuff. Of course leaders need to understand the dynamics of competition, to anticipate rival moves, to draw on the power of statistical analysis, and to be aware of common decision errors—all features of left brain thinking. But to achieve the unprecedented in real-world situations, much more is needed. Leaders also need the right stuff. In business, they have to devise plans and inspire followers for successful execution; in politics, they must mobilize popular support for a chosen program; in the military, commanders need to commit to a battle strategy and lead their troops; and in start-ups, entrepreneurs must manage risk when success is uncertain. In every case, success calls for action as well as analysis, and for courage as well as calculation. Always entertaining, often surprising, and immensely practical, Left Brain, Right Stuff draws on a wealth of examples in order to propose a new paradigm for decision making in synch with the way we have to operate in the real world. Rosenzweig's smart and perceptive analysis of research provides fresh, and often surprising, insights on topics such as confidence and overconfidence, the uses and limits of decision models, the illusion of control, expert performance and deliberate practice, competitive bidding and new venture management, and the true nature of leadership.

Life-Changing Letters Brianna Pritchard,

Falling From The Sky Nikki Chartier,2014-02-21 All stability in sixteen-year-old Ridge McCoy's life crashed and burned in the plane crash that killed his dad. This summer-long basketball camp is his chance to improve his skills and escape his problems back home. Ridge needs a way to avoid the guys at camp, whose only quest for the summer is to drown in beer and hook up with girls. So when Micah offers to explain how the ten unique horses on the carousel are significant to his tribe, Ridge takes him up on it. Still, Ridge can't decide if this is a bad thing or not. All he knows is that he hasn't felt this alive since his dad fell from the sky, and as the horse adventures come to an end, Ridge finds himself falling as well - for Micah. *Note: This book can be read as a stand alone novel.*

No One Left But You Tash McAdam,2023-11-28 A trans teen is swept up in a whirlwind friendship with lethal consequences in this taut YA thriller, for fans of Sadie, Andrew Joseph White, and HBO's Euphoria. It's all fun and games until someone gets killed at a rager gone terribly wrong. Max refuses to believe that Gloss did it. But if not Gloss, who? Desperate to figure out truth in the wake of tragedy, Max veers dangerously close to being implicated—and his own memories of that awful night are fuzzy. Both sharp-edged thriller and moving coming of age, this gorgeously wrought novel is perfect for readers who want stories with trans characters front and center.

Beast Brie Spangler,2016-10-11 A Publishers Weekly Best Book of the Year A Kirkus Reviews Best Book of the Year A Rainbow Book List selection A YALSA Best Fiction for Young Adults selection A witty, wise, and heart-wrenching reimagining of Beauty and the Beast that will appeal to fans of Rainbow Rowell and David Levithan. Tall, meaty, muscle-bound, and hairier than most throw rugs, Dylan doesn't look like your average fifteen-year-old, so, naturally, high school has not been kind to him. To make matters worse, on the day his school bans hats (his preferred camouflage), Dylan goes up on his roof only to fall and wake up in the hospital with a broken leg—and a mandate to attend group therapy for self-harmers. Dylan vows to say nothing and zones out at therapy—until he meets Jamie. She's funny, smart, and so stunning, even his womanizing best friend, JP, would be jealous. She's also the first person to ever call Dylan out on his self-pitying and superficiality. As Jamie's humanity and wisdom begin to rub off on Dylan, they become more than just friends. But there is something Dylan doesn't know about Jamie, something she shared with the group the day he wasn't listening. Something that shouldn't change a thing. She is who she's always been—an amazing photographer and devoted friend, who also happens to be transgender. But will Dylan see it that way? Praise for Beast: Writing smartly in Dylan's voice, Spangler artfully represents both main characters: the boy who feels like a freak and the witty, imperfect, wise trans girl he loves. Very lightly borrowing on the classic fairy tale, she allows them to fail and succeed without resorting to paper villains or violent plot points to manipulate compassion. A believable and beautiful human story." —Kirkus Reviews, Starred review Spangler's captivating portrayals of Dylan and Jamie offer piercing insight into the long, painful battle to shatter stereotypes in order to win dignity, love, and acceptance." —Publishers Weekly, Starred review

Anything Matches If You Wear It with Confidence Natalie Merrill, 2020-03-04 Anything Matches If You Wear It with Confidence is a reminder to all readers that they can be comfortable and confident being themselves and that their identities shouldn’t be found in other people or things. You were created on purpose. You’re not here by accident, and you’re going through the things you’re going through for some reason that you may not know now or even ever. This book encourages you to trust where you are and to trust Whose you are. He won’t ever let you down. And always remember: You are valued, you are loved, and you matter.

Without Firing a Shot Ron Walker, 2010-10-28 One of the major hindrances to the advancement of mankind is the subliminal mind control of political correctness—or PC. Once thought of as merely a method by which society could become more sensitive to the needs of others, PC has become a brainwashing technique used by those who wish to control not only our minds, but also our actions. Those who use PC in this manner prey on natural human compassions to further their own hidden agendas. They will advance their agendas by almost any means necessary, including the use of false accusations and outright lies. Far too often those agendas have very little, if anything, to do with the problems they claim to solve. In most cases, they ultimately harm the very people they claim to help. *Without Firing a Shot* is not about trading one form of mind control for another. Using real-life examples and in-depth analysis, author Ron Walker explains how to look for the signs of the shell game known as political correctness in order to better understand the world in which we live. Whether you agree with his opinions or not is irrelevant. Ron’s thought-provoking commentary challenges and encourages you to discover a method by which you can free yourself from preconceived political ideologies, research the facts with an open mind, discover the truth, and draw your own conclusions— whatever they may be.

A Trip to the Moon Geeta Pati, 2018-04-09 *A Trip to the Moon* is an interesting fictional story of three animals who visit the Moon. In the story, a rabbit, a crow and a fish, with a wise old owl travel to the Moon and learn all the scientific facts about the moon through their exciting fun-filled adventures. From my experience as a mother and teacher, I found most children avoid reading pure science books on their own because they appear monotonous to them. Children love stories. So, I have combined the science with an interesting story of the animals so that the children will enjoy reading the story and simultaneously learn science.
