**Fair Food** Oran B. Hesterman,2012-06-05 Our food system is broken, and it's endangering what's most precious to us: our environment, our health, our soil and water, and our future. In recent years, a host of books and films have compellingly documented the dangers. But advice on what to do about them largely begins and ends with the admonition to "eat local" or "eat organic." Longtime good food pioneer Oran Hesterman knows that we can't fix the broken system simply by changing what's on our own plates: the answer lies beyond the kitchen. In Fair Food he shares an inspiring and practical vision for changing not only what we eat, but how food is grown, packaged, delivered, marketed, and sold. He introduces people and organizations across the country who are already doing this work in a number of creative ways, and provides a wealth of practical information for readers who want to get more involved.

**Programming Spiders, Bots, and Aggregators in Java** Jeff Heaton,2006-10-11 The content and services available on the web continue to be accessed mostly through direct human control. But this is changing. Increasingly, users rely on automated agents that save them time and effort by programmatically retrieving content, performing complex interactions, and aggregating data from diverse sources. Programming Spiders, Bots, and Aggregators in Java teaches you how to build and deploy a wide variety of these agents-from single-purpose bots to exploratory spiders to aggregators that present a unified view of information from multiple user accounts. You will quickly build on your basic knowledge of Java to quickly master the techniques that are essential to this specialized world of programming, including parsing HTML, interpreting data, working with cookies, reading and writing XML, and managing high-volume workloads. You'll also learn about the ethical issues associated with bot use--and the limitations imposed by some websites. This book offers two levels of instruction, both of which are focused on the library of routines provided on the companion CD. If your main concern is adding ready-made functionality to an application, you'll achieve your goals quickly thanks to step-by-step instructions and sample programs that illustrate effective implementations. If you're interested in the technologies underlying these routines, you'll find in-depth explanations of how they work and the techniques required for customization.

Late Bloomer Millionaires Steve Schullo,Dan Robertson,2012-11-01 Building a comfortable and secure retirement is by no means only for the youthful and brilliant. Man have achieved millionaire status later in life after starting late, making investing mistakes, enduring losses--then leaning a strategy that makes a difference. These financial newbies regroup in their 50s with a non-competitive, holistic, long-term and low-cost investment strategy that rejects Wall Street's shenanigans and contrasting values. **Foundations of Distributed Artificial Intelligence** G. M. P. O'Hare,N. R. Jennings,1996-04-05 Distributed Artificial Intelligence (DAI) is a dynamic area of research and this book is the first comprehensive, truly integrated exposition of the discipline presenting influential contributions from leaders in the field. Commences with a solid introduction to the theoretical and practical issues of DAI, followed by a discussion of the core research topics--communication, coordination, planning--and how they are related to each other. The third section describes a number of DAI testbeds, illustrating particular strategies commissioned to provide software environments for building and experimenting with DAI systems. The final segment contains contributions which consider DAI from different perspectives.

*Half the Day Is Night* Maureen F. McHugh,2014-04-22 *Half the Day Is Night* by Maureen F. McHugh In a twenty-first-century undersea city, terrorists threaten old-money banker Mayla Ling, potentially plunging her and her bodyguard, war veteran David Dai, back into the nightmare of David's violent past. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Biodiversity, Food and Nutrition** Danny Hunter,Teresa Borelli,Eliot Gee,2020-04-29 This book examines the challenges and impacts of poor diets and nutrition from current food systems and the potential contribution of biodiversity and ecosystem services in addressing these problems. There is a strong need for a multi-level, cross-sectoral approach that connects food biodiversity conservation and sustainable use to address critical problems in our current food systems, including malnutrition. Building on research from the Biodiversity for Food and Nutrition Project (BFN), which aims to better link biodiversity, diets and nutrition, the book presents a multi-country, cross-sectoral analysis of initiatives that have promoted local food biodiversity in four countries: Brazil, Kenya, Turkey and Sri Lanka. This book offers a comprehensive summary of the BFN Project results in each of the four countries along with lessons learned and how this work could be upscaled or applied in other regions. It argues that the strategic promotion and use of food biodiversity is critical in uniting attempts to address conservation, nutrition and livelihood concerns. The book is structured around chapters and case studies encompassing the BFN Project with specific experiences related by partners who played key roles in the work being done in each country. By offering a comparative view capable of furthering dialogue between the respective countries, it is also meant to connect the individual cases for a “greater than the sum of its parts” effect. This means consideration of how localized activities can be adapted to more countries and regions. Therefore, the book addresses global issues with a foot planted firmly in the grounded case study locations. This book will be of great interest to policymakers, practitioners and NGOs working on food and nutrition, as well as students and scholars of agriculture, food systems and sustainable development.

Mallard Fillmore-- Bruce Tinsley,1995 Mallard Fillmore lampoons everything from political correctness to Phil, Oprah, and Geraldo to our government's insatiable appetite for spending our money. *HTTP Programming Recipes for Java Bots* Jeff Heaton,2007 The Hypertext Transfer Protocol (HTTP) allows information to be exchanged between a

web server and a web browser. Java allows you to program HTTP directly. HTTP programming allows you to create programs that access the web much like a human user would. These programs, which are called bots, can collect information or automate common web programming tasks. This book presents a collection of very reusable recipes for Java bot programming. This book covers many topics related to Java HTTP programming. Both secure and insecure HTTP communications are covered, as well as HTTP authentication. Learn to interact with HTTP forms and support both HTTP POST and HTTP GET requests. Collect data from a wide array of HTML constructs, such as tables, and lists. Learn about advanced topics that complicate the life of a bot, such as AJAX and Javascript. Also learn about the ethical use of bots, and when bots should not be used. This book also introduces the Heaton Research Spider. The Heaton Research Spider is an open source spider framework. Using the Heaton Research Spider you can create spiders that will crawl a web site, much like a real spider crawls the web. The Heaton Research Spider is available in both Java and Microsoft Dot Net form.

*Internal Bleeding* Robert M. Wachter, Kaveh G. Shojania, 2004 Imagine an epidemic that kills over one hundred Americans every day. Now stop imagining. Each year doctors and nurses kill nearly one hundred thousand Americans. By mistake. They operate on the wrong patients, prescribe the wrong drugs, and leave instruments inside body cavities after surgery. Meanwhile, hospitals spend billions on new gadgets, marble lobbies, and slick billboards even as safety continues to be ignored. Until now. *Internal Bleeding* exposes the dark secrets behind the glistening facade of modern medicine. Doctors Robert Wachter and Kaveh Shojania, professors at one of America's leading medical schools and two of the world's foremost authorities on medical mistakes, shatter the silence to tell the dramatic and compelling stories of real patients betrayed by a system they trusted to save them. Through these stories, the authors reveal the inner workings, gut-wrenching dilemmas, and heartbreaking tragedies of our overburdened, understaffed health care system. *Internal Bleeding* provides an insider's view of how professional caregivers think, feel, and operate-facts that every patient and family must know to avoid becoming just another mistake. In the groundbreaking tradition of *Fast Food Nation*, *Internal Bleeding* paints a vivid and unforgettable picture of a system gone terribly wrong, and what doctors, nurses, hospital CEOs, and policy makers must do to make it right.

Agroecological Footprints Management for Sustainable Food System Arnab Banerjee, Ram Swaroop Meena, Manoj Kumar Jhariya, Dhiraj Kumar Yadav, 2020-12-16 Agroecological footprints are a unique and popular concept for sustainable food system. Measuring and keeping a tab on the agroecological footprints of various human activities has gained remarkable interest in the past decade. From a range of human activities, food production and agriculture are most essential as well as extremely dependent on the agroecosystems. It is therefore crucial to understand the interaction of agroecosystem constituents with the extensive agricultural practices. The environmental impact measured in terms of agroecological footprints for a healthy for the sustainable food system. The editors critically examine the status of agroecological footprints and how it can be maintained within sustainable limits. Drawing upon research and examples from around the world, the book is offering an up-to-date account, and insight into how agroecology can be implemented as a solution in the form of eco-friendly practices that would boost up the production, curbs the environmental impacts, improves the bio-capacity, and reduces the agroecological footprints. It further discusses the changing status of the agroecological footprints and the growth of other footprint tools and types, such as land, water, carbon, nitrogen, etc. This book will be of interest to teachers, researchers, government planners, climate change scientists, capacity builders, and policymakers. Also, the book serves as additional reading material for undergraduate and graduate students of agriculture, agroforestry, agroecology, soil science, and environmental sciences. National and international agricultural scientists, policymakers will also find this to be useful to achieve the 'Sustainable Development Goals'.

**The Coffeehouse Investor** Bill Schultheis, 2009-04-16 In 1998, after thirteen years of providing investment advice for Smith Barney, Bill Schultheis wrote a simple book for people who felt overwhelmed by the stock market. He had discovered that when you simplify your investment decisions, you end up getting better returns. As a bonus, you gain more time for family, friends, and other pursuits. *The Coffeehouse Investor* explains

why we should stop thinking about top-rated stocks and mutual funds, shifts in interest rates, and predictions for the economy. Stop trying to beat the stock market average, which few “experts” ever do. Instead, just remember three simple principles: Don’t put all your eggs in one basket. There’s no such thing as a free lunch. And save for a rainy day. By focusing more on your passions and creativity and less on the daily ups and downs, you will actually build more wealth—and improve the quality of your life at the same time.

**The Day Lincoln Was Shot** Jim Bishop,2013-10-22 The Day Lincoln Was Shot is a gripping, minute-by-minute account of April 14, 1865: the day President Abraham Lincoln was tragically assassinated. It chronicles the movements of Lincoln and his assassin John Wilkes Booth during every movement of that fateful day. Author and journalist Jim Bishop has fashioned an unforgettable tale of tragedy, more gripping than fiction, more alive than any newspaper account. First published in 1955, The Day Lincoln Was Shot was a huge bestseller, and in 1998 it was made into a TNT movie, with Rob Morrow as Booth.

**The Poetry of Religious Sorrow in Early Modern England** Gary Kuchar,2011-03-03 In early modern England, religious sorrow was seen as a form of spiritual dialogue between the soul and God, expressing how divine grace operates at the level of human emotion. Through close readings of both Protestant and Catholic poetry, Kuchar explains how the discourses of 'devout melancholy' helped generate some of the most engaging religious verse of the period. From Robert Southwell to John Milton, from Aemilia Lanyer to John Donne, the language of 'holy mourning' informed how poets represented the most intimate and enigmatic aspects of faith as lived experience. In turn, 'holy mourning' served as a way of registering some of the most pressing theological issues of the day. By tracing poetic representations of religious sorrow from Crashaw's devotional verse to Shakespeare's weeping kings, Kuchar expands our understanding of the interconnections between poetry, theology and emotion in post-Reformation England.
