Mike Myatt

Hacking Leadership Mike Myatt,2013-11-26 Hacking Leadership is Mike Myatt's latest leadership book written for leaders at every level. Leadership isn't broken, but how it's currently being practiced certainly is. Everyone has blind spots. The purpose of Hacking Leadership is to equip leaders at every level with an actionable framework to identify blind spots and close leadership gaps. The bulk of the book is based on actionable, topical leadership and management hacks to bridge eleven gaps every business needs to cross in order to create a culture of leadership: leadership, purpose, future, mediocrity, culture, talent, knowledge, innovation, expectation, complexity, and failure. Each chapter: Gives readers specific techniques to identify, understand, and most importantly, implement individual, team and organizational leadership hacks. Addresses blind spots and leverage points most leaders and managers haven't thought about, which left unaddressed, will adversely impact growth, development, and performance. All leaders have blind-spots (gaps), which often go undetected for years or decades, and sadly, even when identified the methods for dealing with them are outdated and ineffective – they need to be hacked. Showcases case studies from the author's consulting practice, serving as a confidant with more than 150 public company CEOs. Some of those corporate clients include: AT&T, Bank of America, Deloitte, EMC, Humana, IBM, JP Morgan Chase, Merrill Lynch, PepsiCo, and other leading global brands. Hacking Leadership offers a fresh perspective that makes it easy for leaders to create a roadmap to identify, refine, develop, and achieve their leadership potential- -and to create a more effective business that is financially solvent and professionally desirable.

Brewing Trade Review Licensing Law Reports ,1914 1915 includes Appendix containing text of Defence of the realm (no. 3) act, 1915, and regulations, together with specimen order and points of interpretation; 1916 includes Appendix containing text of Defence of the realm no. 3 (amendment) act, 1915, and regulations, &c.

Hacking Leadership Mike Myatt,2013-12-16 Hacking Leadership is Mike Myatt's latest leadership book written for leaders at every level. Art Law and the Business of Art Martin Wilson, 2019 Art Law and the Business of Art is a comprehensive and practical guide to the application of UK law to transactions and disputes in the art world. Written by Martin Wilson, an art lawyer with over 20 years' experience in the field, it outlines and explains the relevant law and how the art business operates in practice, as well as offering a discussion of the most pressing ethical questions involving artworks.

The London Gazette Great Britain, 1926

Ethical Issues in Business - Second Edition Peg Tittle, 2016-12-15 Peg Tittle's ambitious business ethics text brings together readings, cases, and the author's own informed opinions. The second edition includes over a dozen new readings and case studies, as well as a new chapter on issues in Information and Communication Technology. Includes - Canonical and topical readings on issues ranging from whistleblowing and advertising to international business, the nature of capitalism, and the environment - Engaging overviews from the author encourage careful reflection and critical examination of conventional assumptions - What to Do? scenarios and Case Studies illustrate the practical relevance of each topic - Comprehensive introductions to ethical theory and the ethics of business - Questions following each selection test understanding and promote active reading - A primer on ethical institutions examines the role of ethics consultants, codes of ethics, and more

Artisan and Handicraft Entrepreneurs Léo-Paul Dana, Veland Ramadani, Ramo Palalic, Aidin Salamzadeh, 2022-01-27 In handicrafts and artisanal products, industry has witnessed both a technological shift and a renewed interest among customers, especially after the challenges and limitations of mass production became evident under the COVID-19 pandemic. This book portrays the

worldwide development of this trend, the nature of entrepreneurship in these industries, and the unique challenges and opportunities that entrepreneurs face. The book shows how these businesses are gaining a resurgence due to customers preferring ethical, regional, and climate-friendly options to fulfill their needs. The chapters focus on artisan entrepreneurs' contribution to society by not only creating businesses, but also in terms of tourism development. The book reiterates that artisan entrepreneurs enable crucial cultural connections with tradition due to their affinity to a region, city, village, or community. Small business and entrepreneurship researchers as well as policymakers in the cultural sector would benefit from this book.

Orient Express Graham Greene, 2018-05-15 Greene's "sharply, often incisively etched" novel of the interlocked fates of unwary strangers on a train from Belgium to Constantinople (The New York Times). The Orient Express has embarked from Ostend for a three-day journey to Cologne, Vienna, and Constantinople. The passenger list includes a Jewish trader from London with business interests in Turkey—and a score to settle; a vulnerable chorus girl on her last legs; a boozy and spiteful journalist who's found an unrequited love in her paid companion, and her latest scoop in second class—a Serbian dissident in disguise on his way to lead a revolution; and a murderer on the run looking for a getaway. As the train hurtles across Europe, the fates of everyone on board will collide long before the Orient Express rushes headlong to its final destination. Originally published in the UK as *Stamboul Train* in 1932, Graham Greene's "novel has movement, variety, interest; taken on the surface, it is an interesting and entertaining story of adventure, penetrated through and through with the consciousness of the on-rushing train, with that curious sense of the temporary suspension of one's ordinary existence which comes to many on ship or train" (The New York Times).

The Collected Novels Volume Three Graham Greene, 2018-11-06 Three compelling novels from the British author who has been hailed as "one of the finest writers of any language" (The Washington Post). In these novels of international intrigue and domestic drama, political injustice and crime, and the possibility of redemption, Graham Greene once again emerges as "the ultimate chronicler of twentieth-century man's consciousness and anxiety" (William Golding, Nobel Prize-winning author of *Lord of the Flies*). *Orient Express*: The Orient Express has embarked on a three-day journey from Ostend to Cologne, Vienna, and Constantinople. The passenger list includes a Jewish trader from London with business interests in Turkey—and a score to settle; a vulnerable chorus girl on her last legs; a boozy and spiteful journalist who's found an unrequited love in her paid companion, and her latest scoop in second class: a Serbian dissident in disguise on his way to lead a revolution; and a

murderer on the run looking for a getaway. As the train hurtles across Europe, the fates of everyone on board will collide long before the Orient Express rushes headlong to its final destination.

“Interesting and entertaining.” —The New York Times *It’s a Battlefield*: In pre-World War II London, during a demonstration in Hyde Park, Communist bus driver Jim Drover acts on instinct to protect his wife by stabbing to death the policeman set to strike her down. Sentenced to hang—whether as a martyr, tool, or murderer—Drover accepts his lot, unaware that the ramifications of the crime, and the battle for his reprieve, are inflaming political unrest. But Drover’s single, impulsive act is also upending the lives of the people he loves and trusts. Caught in a quicksand of desperation, sexual betrayal, and guilt, they will not only play a part in Drover’s fate, they’ll become agents—both unwitting and calculated—of their own fates as well. “Adventurous . . . intelligent . . . ingenious.” —V. S. Pritchett *A Gun for Sale*: Born out of a brutal childhood, Raven is an assassin for hire whose latest hit—a government minister—is calculated to ignite a war. When the most wanted man in England is paid off in marked bills, he also becomes the easiest to track—and police detective Jimmy Mather has the lead. But Raven’s got an advantage. Crossing paths with a sympathetic dancer named Anne Crowder, the emotionally scarred Raven has found someone in the wreckage of his life he can trust, maybe his only hope for salvation. Or at least, escape—because Anne is also Mather’s fiancée. Now the fate of two men will depend on her. And either way, it’s betrayal. “[Greene is] a pioneer of the modern mood we now think of as noir.” —LA Weekly

Graham Greene and the Politics of Popular Fiction and Film B. Thomson,2009-08-26 One of the most popular, respected and controversial writers of the twentieth century, Greene's work has still attracted relatively little scholarly comment. Thomson charts the intricate dance between his novels and screenplays, his many audiences, and an intellectual establishment reluctant to identify the work of a popular writer as 'literature'.
