Relationship Goals Michael Todd, 2020-04-28 #1 NEW YORK TIMES BESTSELLER • A candid, inspiring guide to finding lasting love and sustaining a healthy relationship by getting real about your goals—based on the viral, multi-million-view sermon series about dating, marriage, and sex “No matter where you are and no matter what stage of life you are in, Relationship Goals will be a game changer.”—Levi Lusko NAMED ONE OF THE BEST BOOKS OF THE YEAR BY COSMOPOLITAN You scroll through photo after photo of happy couples and think, I want a relationship like that! The thing is, those intimate relationships are a mirage—the closer you get to them, the more you realize they aren’t real at all. So what does a real relationship look like? And how do you get there? In Relationship Goals, Pastor Michael Todd digs deep to give you good news and real-life ideas for making the most of your most important relationships. Take a look at • what it means to choose intentional dating over recreational dating • how to move on from mistakes you’ve made in the past • why love gets stronger after marriage • what the Bible has to say about sex (hot take: it’s more sizzling than you think) • why the best friendships have God at the center Whether you are married, single, or it’s complicated, aiming for the right targets will make all the difference in finding true satisfaction. As it turns out, God’s got the best relationship goals of all for your life. Why settle for less?

Communicating Science Toss Gascoigne, Bernard Schiele, Joan Leach, Michelle Riedlinger, Luisa Massarani, Bruce V. Lewenstein, Peter Broks, 2020-09-14 Modern science communication has emerged in the twentieth century as a field of study, a body of practice and a profession—and it is a practice with deep historical roots. We have seen the birth of interactive science centres, the first university actions in teaching and conducting research, and a sharp growth in employment of science communicators. This collection charts the emergence of modern science communication across the world. This is the first volume to map investment around the globe in science centres, university courses and research, publications and conferences as well as tell the national stories of science communication. How did it all begin? How has development varied from one country to another? What motivated governments, institutions and people to see science communication as an answer to questions of the social place of science? Communicating

Science describes the pathways followed by 39 different countries. All continents and many cultures are represented. For some countries, this is the first time that their science communication story has been told.

Mirror of His Beauty Peter Schäfer,2004-10-17 In this beautifully realized study, Peter Schäfer investigates the origins of a female manifestation of God in Jewish mysticism. The search itself is a fascinating exploration of the idea of a feminine divinity. And Schäfer's surprising but persuasive conclusions yield deeper understanding of the complex but frequently intimate relationship between Christianity and Judaism--and of the development of religious concepts more generally. Toward the end of the twelfth century, a small book titled the Bahir (Light) appeared in Provence. The first document of Judaism's emerging kabbalistic movement, it introduced a completely new view of God, one that included a divine potency that was essentially female. This female divinity was portrayed both as a mediator between Jews and God and as part of the Godhead itself. Examining Judaic history from the biblical Wisdom tradition to the Middle Ages, Schäfer finds some precedents for the Kabbalah's feminine divinity. But he cannot account for her forceful appearance in twelfth-century southern France without reference to the immediate Christian environment, particularly the flourishing veneration of the Virgin Mary. Indeed, twelfth-century Jews and Christians were simultaneously rediscovering the feminine as an aspect of the Godhead after having abandoned it in favor of either an abstract, disembodied God or an exclusively male one. In proposing that the medieval cult of Mary--rather than eastern Gnosticism--is the appropriate framework for understanding the feminine elements in Jewish mysticism, *Mirror of His Beauty* represents a sea change in Kabbalah and Jewish-Christian cultural studies. It shifts our attention from the Byzantine East to the Latin Christian West. And in contrast to histories that treat the development of Judaism and Christianity in isolation, it leads us to a fuller understanding of Jews and Christians living in proximity, aware of each other.

Ransom David Malouf,2010-01-05 In his first novel in more than a decade, award-winning author David Malouf reimagines the pivotal narrative of Homer's *Iliad*--one of the most famous passages in all of literature. This is the story of the relationship between two grieving men at war: fierce Achilles, who has lost his beloved Patroclus in the siege of Troy; and woeful Priam, whose son Hector killed Patroclus and was in turn savaged by Achilles. A moving tale of suffering, sorrow, and redemption, *Ransom* is incandescent in its delicate and powerful lyricism and its unstated imperative that we

imagine our lives in the glow of fellow feeling.

History of Philosophy Volume 2 Frederick Copleston, 2003-06-12 Copleston, an Oxford Jesuit and specialist in the history of philosophy, created his history as an introduction for Catholic ecclesiastical seminaries. The 11-volume series gives an accessible account of each philosopher's work, and explains their relationship to the work of other philosophers.

Cybersecurity Ethics Mary Manjikian, 2022-12-30 This textbook offers an accessible introduction to the topic of cybersecurity ethics. The second edition has been revised and updated, and contains new chapters on social justice, AI, and Big Data. The book is split into three parts. Part I provides an introduction to the field of ethics, philosophy, and philosophy of science, three ethical frameworks – virtue ethics, utilitarian ethics, and communitarian ethics – and the notion of ethical hacking. Part II applies these frameworks to particular issues within the field of cybersecurity, including privacy rights, surveillance, and intellectual property. The third part concludes by exploring current codes of ethics used in cybersecurity, with chapters on artificial intelligence, social diversity, Big Data, and cyberwarfare. The overall aims of the book are to: Provide ethical frameworks to aid decision-making Present the key ethical issues in relation to computer security Highlight the connection between values and beliefs and the professional code of ethics The textbook also includes three different features to aid students: Going Deeper features provide background on individuals, events, and institutions in cybersecurity; Critical Issues features contemporary case studies; and Tech Talks contain features that assume some familiarity with technological developments. The book will be of much interest to students of cybersecurity, cyberethics, hacking, surveillance studies, ethics, and information science.

The Biological Threat Reduction Program of the Department of Defense National Research Council, Policy and Global Affairs, Development, Security, and Cooperation, Office for Central Europe and Eurasia, Committee on Prevention of Proliferation of Biological Weapons, 2007-10-10 This Congressionally-mandated report identifies areas for further cooperation with Russia and other states of the former Soviet Union under the Cooperative Threat Reduction (CTR) program of the Department of Defense in the specific area of prevention of proliferation of biological weapons. The report reviews relevant U.S. government programs, and particularly the CTR program, and identifies approaches for overcoming obstacles to cooperation and

for increasing the long-term impact of the program. It recommends strong support for continuation of the CTR program.

Land Snakes of Medical Significance in Malaysia Ahmad Khaldun Ismail, Teo Eng Wah, Indraneil Das, Taksa Vasaruchapong, Scott A. Weinstein, 2017-07-03 The purpose of this book is to highlight the potentially dangerous species to humans, with a list of the main potentially medically significant snakes. It is important to note that if a species is not listed below, it does not necessarily mean that it does not exist in Malaysia nor that its bite cannot cause harmful effects in humans. In particular, the list of colubrid (non-front-fanged) snakes has been selective, to include only a number known to be of potential medical significance. It is also important to note that a poor surveillance of the pet trade and irresponsible importation of exotic snakes may introduce a medically significant species, which is not indigenous to Malaysia. This may add to the complexity of managing envenomings in this country.

The Soviet Union's Agricultural Biowarfare Programme Anthony Rimmington, 2021-06-18 This book focuses upon the secret agricultural biological warfare programme codenamed Ekologiya – which was pursued by the Soviet Union from 1958 through to the collapse of the USSR in 1991. It was the largest offensive agricultural biowarfare project the world has ever seen and Soviet anti-crop and anti-livestock weapons had the capability to inflict enormous damage on Western agriculture. Beginning in the early 1970s, there was a new focus within the Soviet agricultural biowarfare programme on molecular biology and the development of genetically modified agents. A key characteristic of the Ekologiya project was the creation of mobilization

production facilities. These ostensibly civil manufacturing plants incorporated capacity for production of biowarfare agents in wartime emergency. During the 1990s-2000s, the counter-proliferation efforts undertaken by the US and UK played a major role in preventing the transfer of Ekologiya scientists, technologies and pathogens to Iran and other countries of potential proliferation concern. Anthony Rimmington is a former Senior Research Fellow at Birmingham University's Centre for Russian, European and Eurasian Studies, UK. He has published widely on the civil life sciences sector in the post-Soviet states and on the Soviet Union's offensive biological warfare programme, including Stalin's Secret Weapon: The Origins of Soviet Biological Warfare.

P.S. You're My Mate Kylie. G, “You can fight me all you want, Grace, but you can't ignore what you feel for me forever. If neither of us reject each other the bond only grows stronger. You feel it don't you, your need for me, He calmly said, inching his way toward me. I glared at him, the sound of his voice had me pooling in my. I hated that, hated that all it took was his voice to turn me on, You're not my mate. I refuse to believe it! Was all I said before I stormed out of there. After a drunken one night stand with a stranger, Grace Evans wakes up with a note left at her bedside. The last words of the note both startle and confuse her especially since she saw her mate die in front of her very eyes. What happens when the mysterious stranger now comes to claim her? Will she give in to him or will she reject him, killing his wolf and breaking his heart?
