I Love Kawaii Charuca,2012-05-22 Kawaii is a word that originated in 1970s Japan when schoolgirls adopted the term to describe everything cute. This word is now understood world-wide and identifies a particular trend of visual aesthetics (Hello Kitty being the most famous). Kawaii is a recognizable art form practiced by artists all over the world and covers the visual gamut from commercial art (stickers, clothing, calendars, pens, pencils, erasers, video games) to high-brow contemporary art (e.g. Takashi Murakami and Yoshitomo Nara). Presented primarily through full page images, Charuca (a Kawaii artist herself) has curated an international collection of the most popular adorable, hilarious, and sometimes dark Kawaii art being made today. Charuca begins each chapter with a small description of the artist and her feelings towards his or her work, creating an artistic dialogue spoken mainly through the loud, brightly full-colored images that flood each page. Some of the artists she selected include: Aranzi Aronzo Bubi Au Yeung Bukubuku Charuca Devil Robots Hiroko Yokoyama Itokin Park Marichan Meomi Paul Shih Ryoko Takidoki Yukiko Yokoo

Best iPad Apps Peter Meyers, 2010-12-08 What really wows iPad fans is when their touchscreen does what's impossible on other gadgets: the finger-painting app that turns a cross-country flight into a moving art class, the mini music studio (two-dozen instruments strong, each with motion-induced warble effects), and the portable fireworks display that you sculpt by swiping. Problem is, with tens of thousands of apps available for your iPad, who knows what to download? You can try to sort through a gazillion customer reviews with a mix of 5- and 1-star ratings, but that's a head-hurting time-waster. The stakes are getting higher, too: instead of freebies and 99-cent trinkets, the price of iPad apps is steadily creeping up and beyond their iPhone predecessors. **Best iPad Apps** guides you to the hidden treasures in the App Store's crowded aisles. Author Peter Meyers stress-tested thousands of options to put together this irresistible, page-turner of a catalog. Inside these pages, you'll find apps as magical as the iPad itself. Flip through the book for app suggestions, or head directly to one of several categories we've loaded up with best of selections to help you: Get work done Manipulate photos Make movies Create comics Browse the Web better Take notes Outline ideas Track your health Explore the world No matter how you use your iPad, **Best iPad Apps** will help you find the real gems among the rubble -- so you make the most of your glossy gadget.

Architecture Through Drawing Desley Luscombe, Helen Thomas, Niall Hobhouse, 2019 Architecture through Drawing examines how drawing - as both action and object - encapsulates complex ideas relating to culture, technology, space and the built environment. Bringing together an array of beautiful and rarely seen drawings dating from the sixteenth century to the present day, all representing different geographical locations, techniques, methodologies and purposes, the book defines a new field for the subject of the drawing in architecture. It reveals the motives for architectural drawing beyond the requirement to document the processes that underpin the realisation of the architectural object. This book asks, fundamentally, whether drawings can illuminate new interpretations of architectural experimentation. Examples range from initial sketches by architects to analytical and construction drawings, perspectives and schematics, collage and more complex presentations and paintings often carried out in association with others. Dialogues include Fabrizio Ballabio on Filippo Juvarra's Ottoboni Theatre; Desley Luscombe on Ludwig Mies van der Rohe; Mark Dorrian on Michael Webb; Nicholas Olsberg on Victorian architects William Butterfield, Norman Shaw and GE Street; Charles Rice on James Gowan; Laurent Stalder on perspective in postwar housing; Helen Thomas on the

covers of San Rocco; John Macarthur on clouds; Markus Lähteenmäki on Superstudio; and Erik Wegerhoff on the Viennese Auto-Expander. The volume is rounded off with an epilogue, 'The Limits of Drawing', by Adrian Forty and Sophie Read.
