Friend of My Enemy Benjamin Eric Hill, 2014-04-01 Arab or Jew? Either way, they were damned. Alone and in secrecy, a pair of star-crossed lovers battle for survival in a world seething with spies and informers. Israel's greatest fear becomes a reality in Benjamin Eric Hill's audacious and thrilling debut, FRIEND OF MY ENEMY. Vividly portraying the characters behind Mideast headlines, this story shows why the conflict is so intractable, why the violence is so pervasive. Christina Goryeb: an idealistic Palestinian lawyer blackmailed by terrorists to smuggle explosives. Chaim Asher: the Mossad's top agent whose desire for a mysterious Palestinian woman shatters his most deeply held beliefs. Shlomo Arendt: Head of Arab Affairs in the Shin Bet driven by an intense nationalism that could lead to Israel's destruction. Hamad Taleb: Mastermind of the Lions of Allah, a murderous enemy, willing to sacrifice everyone's life for Jihad but his own. Rabbi Ben Yusuf: Messianic leader of Israeli settlers who would sacrifice the Jewish State on an altar of blood for the sake of the Jewish people. The stench of gunpowder and fierce passions for a beloved land ignite every page. FRIEND OF MY ENEMY

will grip you with relentless suspense right up to its white-knuckle ending.

Understanding the Relationship Between Religion and Entrepreneurship Tamzini, Khaled, Salem, Anis Ben, 2019-11-22 In recent years, a number of scholars trained in the area of economics have begun to pay attention to a fascinating and increasingly important question: Does the interrelationship between religion and enterprise shape entrepreneurial decision making? Though religious groups can provide additional means for the generation of social capital, especially where ethnicity is strongly associated with specific religious adherence, it has been largely absent in economic discussions. Understanding the Relationship Between Religion and Entrepreneurship is a collection of innovative research on the methods and applications of religious theology on entrepreneurial decision making. While highlighting topics including women in business, religious marketing, and consumer behavior, this book is ideally designed for entrepreneurs, theologians, business managers, policymakers, researchers, industry professionals, academicians, and students seeking current research on the economic impacts of religious beliefs and practices.

My Experiences Conditioning the Development of My Concept of Ethnical or National Secret Political Organization Istvan Adorjan,2020-08-31

Foreword: “With my this book, i furnish the most comprehensive description of my experiences which constituted the bases of the development in my mind of the concept reflecting the kind of secret societies termed by me ‘ethnical or national secret political organizations’, by this means making it explicit the phrase ‘my experiences and knowledge relative to the ethnical and the national secret political organizations’ used in my other books, when writing about the respective manifestations of those secret political organizations. I intend this book to be suitable for a human to acquire that concept in the relatively short time of studying it.” p { margin-bottom: 0.25cm; line-height: 120%; }
