**Letters From The Earth** Mark Twain,2017-04-04 The Creator sat upon the throne, thinking. Behind him stretched the illimitable continent of heaven, steeped in a glory of light and color; before him rose the black night of Space, like a wall. His mighty bulk towered rugged and mountain-like into the zenith, and His divine head blazed there like a distant sun. At His feet stood three colossal figures, diminished to extinction, almost, by contrast -- archangels -- their heads level with His ankle-bone. When the Creator had finished thinking, He said, I have thought. Behold! He lifted His hand, and from it burst a fountain-spray of fire, a million stupendous suns, which clove the blackness and soared, away and away and away, diminishing in magnitude and intensity as they pierced the far frontiers of Space, until at last they were but as diamond nailheads sparkling under the domed vast roof of the universe. At the end of an hour the Grand Council was dismissed. They left the Presence impressed and thoughtful, and retired to a private place, where they might talk with freedom. None of the three seemed to want to begin, though all wanted somebody to do it.

**The Ballad of the Lone Medievalist** Kisha G. Tracy, John P. Sexton, 2018 Working medievalists are often the only scholar of the Middle Ages in a department, a university, or a hundred-mile radius. While working to build a body of focused scholarly work, the lone medievalist is expected to be a generalist in the classroom and a contributing member of a campus community that rarely offers disciplinary community in return. As a result, overtasked and single medievalists often find it challenging to advocate for their work and field. As other responsibilities and expectations crowd in, we come to feel disconnected from the projects and subjects that sustain our intellectual passion. An insidious isolation even from one another creeps in, and soon, even attending a conference of fellow medievalists can become a lonely experience. Surrounded by scholars with greater institutional support, lower teaching loads, or more robust research agendas, we may feel alienated from our work - the work to which we've dedicated our careers. The Lone Medievalist (the collaborative community and the book) is intended as an antidote to the problem of professional isolation. It is offered in the spirit of common weal that marks the ideals (if not always the realities) of so many of the communities we study - agricultural, professional, national, notional, and of course, monastic. The Ballad of the Lone Medievalist isn't only about scholarship, or teaching, or institutional life, or the pursuit of new learning - it's about all of them. The essays in this volume address all aspects of the professional and intellectual life of medievalists. Though many of us acknowledge and address the challenges in being Lone Medievalists, these essays are not intended as voces clamantium; they are offered to provide strategies, camaraderie, and an occasional bit of inspiration. They are a call to action, a sharing of hard-won wisdom, and a helping hand - and, above all, a reminder that we are not alone.

**Andrew Carnegie Speaks to the 1%** Andrew Carnegie,2016-04-14 Before the 99% occupied Wall Street... Before the concept of social justice had impinged on the social conscience... Before the social safety net had even been conceived... By the turn of the 20th Century, the era of the robber barons, Andrew Carnegie (1835-1919) had already accumulated a staggeringly large fortune; he was one of the wealthiest people on the globe. He guaranteed his position as one of the wealthiest men ever when he sold his steel business to create the United States Steel Corporation. Following that sale, he spent his last 18 years, he gave away nearly 90% of his fortune to charities, foundations, and universities. His charitable efforts actually started far earlier. At the age of 33, he wrote a memo to himself, noting ...The amassing of wealth is one of the worse species of idolatry. No idol more debasing than the worship of money. In 1881, he gave a library to his hometown of Dunfermline, Scotland. In 1889, he spelled out his belief that the rich should use their wealth to help enrich society, in an article called The

Gospel of Wealth this book. Carnegie writes that the best way of dealing with wealth inequality is for the wealthy to redistribute their surplus means in a responsible and thoughtful manner, arguing that surplus wealth produces the greatest net benefit to society when it is administered carefully by the wealthy. He also argues against extravagance, irresponsible spending, or self-indulgence, instead promoting the administration of capital during one's lifetime toward the cause of reducing the stratification between the rich and poor. Though written more than a century ago, Carnegie's words still ring true today, urging a better, more equitable world through greater social consciousness.
