Investigation Of Competition In Digital Markets United States Congress, UNITED STATES CONGRESS. HOUSE OF REPRESENTATIVES. COMMITTEE ON THE JUDICIARY., House of Representatives, 2020-10-06 In June 2019, the Committee on the Judiciary initiated a bipartisan investigation into the state of competition online, spearheaded by the Subcommittee on Antitrust, Commercial and Administrative Law. As part of a top-to-bottom review of the market, the Subcommittee examined the dominance of Amazon, Apple, Facebook, and Google, and their business practices to determine how their power affects our economy and our democracy. Additionally, the Subcommittee performed a review of existing antitrust laws, competition policies, and current enforcement levels to assess whether they are adequate to address market power and anticompetitive conduct in digital markets. Over the course of our investigation, we collected extensive evidence from these companies as well as from third parties—totaling nearly 1.3 million documents. We held seven hearings to review the effects of market power online—including on the free and diverse press, innovation, and privacy—and a final hearing to examine potential solutions to concerns identified during the investigation and to inform this Report's recommendations. A year after initiating the investigation, we received testimony from the Chief Executive Officers of the investigated companies: Jeff Bezos, Tim Cook, Mark Zuckerberg, and Sundar Pichai. For nearly six hours, we pressed for answers about their business practices, including about evidence concerning the extent to which they have exploited, entrenched, and expanded their power over digital markets in anticompetitive and abusive ways. Their answers were often evasive and non-responsive, raising fresh questions about whether they believe they are beyond the reach of democratic oversight. Although these four corporations differ in important ways, studying their business practices has revealed common problems

Ten years of effects- Based approach in EU competition law Jacques Bourgeois, Denis Waelbroeck, 2012-12-10 One of the key components of the modernization of competition rules has been a radical departure from the previous «form-based» enforcement to a so-called «effects-based» approach. Taking stock of ten years of experience under this new policy, the present book analyses the changes brought about, as well as the practical problems encountered in its day-to-day application, be it by competition law enforcers, judges or practitioners. This book compiles the reports prepared for the 2011 Annual Conference of the Global Competition Law Centre (“GCLC”). Each and every chapter of this volume formulates concrete proposals as to how the system can be clarified or even improved. The focus is not only on the enforcement of Articles 101 and 102 TFEU, but also in the field of merger control. Attempts are made to define more precisely the boundaries between anticompetitive object and effect, and to develop adequate safe harbours and presumptions. This book also casts a closer look at the analytical framework, possible theories of harm, evidence and defences. Overall the objective is to reconcile as best as possible law and economics, and to see how the goal to achieve the “right decision” in terms of economic outcome can be combined with the legitimate need for legal certainty.

100 Words To Make You Sound Smart American Heritage Dictionaries, 2006-10-04 Find the right words to make a point, seal the deal, or just keep folks listening! Chosen by the editors of the American Heritage Dictionaries, these words can help anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. 100 Words to Make You Sound Smart provides an enjoyable way to communicate more effectively, distinctively, and articulately.
