Global Nomads and Extreme Mobilities Päivi Kannisto, 2017-05-15 Presenting a ground-breaking study of the emerging phenomenon of location-independence, this book examines the way in which the practices of 'global nomads', who live on the road, without fixed abode, place of employment or localised circle of friends, question many of the unwritten norms and ideals that characterise settled life in societies. With the lifestyles of global nomads blurring the boundaries between travel, migration, and dwelling, *Global Nomads and Extreme Mobilities* draws on in-depth interviews with a worldwide group of location-independent travellers, together with virtual and instant ethnography and discourse analysis, to show how lives oriented around extreme forms of mobility offer researchers in migration, tourism and mobilities a unique opportunity for examining the complex subjectivities and power relations associated with multi-mobility. With close attention to the nationalistic, political, and travel-related attachments of global nomads and the ways in which their own representation and justification of their lifestyles and subjectivities constitute a power negotiation, the book examines 'global nomads' social and intimate relationships and the forms of exclusion and discrimination that they encounter, raising the question of whether they live inside or outside societies - and indeed, whether there can be any life outside societies. A re-assessment of much contemporary research in the fields of mobility, migration and tourism studies, *Global Nomads and Extreme Mobilities* will appeal to scholars across the social sciences.

Writing has been the subject of much research but it is usually highly visible and valued texts that are studied -- the work of novelists, poets and scholars. The studies included in this book examine every day acts of writing and their significance. Ordinary quotidian writing may be viewed as mundane and routine, but it is central to how societies operate and the ways individuals relate to each other and to institutions. Examples discussed in the book including writing in areas such as farming, photo-sharing, childcare work and health care. The chapters are united in their approach to examining this writing as cultural practice. The book also brings together two important traditions of this type of study: the Anglophone and Francophone. The work of French scholars in this field is made accessible for the first time to the Anglophone world.
