How to Drive Safely Damian Brindle,2018-03-27

Did You Know That Texting While Driving Increases Your Risk of a Car Accident by 23 Times? Or that the average duration of distraction was a staggering 135 seconds? Sadly, new, teenage drivers are most at risk for fatal car accidents for two main reasons: Their inexperience driving (which leads to hasty, poor decisions), and Peer pressure from friends (which causes them to make dumb, reckless decisions) They need to understand how to drive safely right from the start, and this book will help you do just that. In fact, we'll detail 49 expert tips, tricks, and advice that any driver--new or old--should be aware of before hitting the road. Who I Am, Why Listen To Me My name is Damian Brindle. I'm a longtime survival blogger with many thousands of readers. I've spent the past decade studying and discovering nearly everything I can about survival, especially at home preparedness, to ensure my own family's survival. Over the last several years I've dedicated my life and my time to helping others just like you better survive disasters of all kinds. Like I said, it's my life. I'm also husband to a wonderful wife and father to two growing boys (one of whom is a new driver). I've spent years ensuring my family will be 100% safe, secure, and ready for disasters of all kinds and now I'm offering you the chance to take an important--even crucial--action for yourself by ensuring your new,

teenage driver is ready for the road as well. Here's What's Covered Inside The Most Dangerous Driving Times, Days, and Situations (some of these might surprise you) 5 Actions You Should Always Do Before Driving Off (how spending 15 seconds now can save your life) Why Not Speeding is Much More Than Avoiding Speeding Tickets (and why it doesn't actually save time) What NOT to Do While Driving (you'd be surprised at how much safer you'll be) 11 More Common-Sense Safety Tips to Know (these could keep you the safest of all) Why Semi-Trucks and Other Large Vehicles Deserve Special Attention (hint: they always win car accidents) How to Really Get Your Car Ready for the Road (most people ignore these to their detriment) Why You Must Start Educating Them Now Young adults think they know everything, they think they're invincible, and they think that nothing bad will ever happen to them. You and I both know that's not true. You simply MUST prepare your new, teen driver to be as safe as possible while you still have the opportunity to do so. Here's how to educate your teen to drive safely on the road right from the start. How To Get The Kindle Version Free This book qualifies for the Kindle MatchBook program. Driverthink Frank Miller, 2009-06 Driverthink is not just another Go Slow Safe Driving guidebook. Within its pages are reality based driving tips, ideas and suggestions that can literally save your life. For too long, the focus on safe driving has been to expound Politically Correct driving concepts that simply don't take into account the Reality of driving a vehicle at high speed on modern roads and highways. Otherwise responsible people don't suddenly shed their responsibility when they slip behind the wheel. But they don't often really think about their driving either. Thus the title Driverthink. In order to be

responsible, safe drivers, we need to think about our driving. We need to know our machines, know our limitations, maximize our driving skills and gain driving experience as quickly as possible. Driverthink breaks new ground by exploring each of these areas in lively, entertaining detail. Drive Fast or Drive Slow - but Driverthink when you drive Driverthink is a collection of articles from the popular blog of the same name. Written in a lively and entertaining style, each of the articles explore specific driving situations or issues in detail, offering driving tips, ideas and suggestions on how to deal with the different situations. Driverthink is an excellent review for the seasoned driver and a must read for the newer, less experienced driver. Driverthink would suggest that Speed may kill, but unskilled driving can definitely kill. Does the average driver even know what over steer or under steer are? Do they know what kind of rear suspension they're driving on? Do they really understand how these most basic driving concepts will affect the handling of their vehicles - especially in an emergency situation? Driving on our roads and highways must be about reality. It is dealing with that reality that will keep us alive. Following standard issue, politically correct advice offered by those with limited skills and no appreciation for the realities of driving, simply doesn't create safer driving. Just Slow Down, might not be the best advice on a highway where even the slow lanes are doing limit plus ten. High speed rear end accidents can really ruin the day and excessively slow driving will most surely restrict traffic

flow. Perhaps it's not the best advice after all Driverthink is a most serious effort by the author, to start really saving lives on our Highways and Byways. It will help you to become a much safer Driverthink driver It may even save your life.

The Book on Safe Driving Joe Darden,2008-10-06
50 Quick Tips to Keep Yourself, Your Family and Your Employees Safer on the Road. Every year in the US, more than 42,500 people lose their lives and over 2,375,000 are injured as a result of more than 5.9 million reported automobile crashes. Additionally, the annual economic cost of these, as well as unreported crashes, is estimated to exceed \$230 billion. The Book on Safe Driving and the SMART Driving System(TM) were created to help reduce these numbers by providing the typical driver with the same level of information that is provided to professional drivers in major transportation industries. The 50, no-nonsense, easy to apply tips described in this book will enable drivers to make safer, more informed decisions every time they get behind the wheel.

IF YOU DRIVE A VEHICLE, YOU NEED THIS BOOK! Here's the deal. We have a huge problem and it must be corrected immediately! From 2000 to 2018, we have had 768,828 people killed in United States in auto

accidents (from National Safety Council's Accident Facts)! The past three years (2016-2018), we have had over 40,000 fatalities each year! These are the most in the past nine years, which tells me our training system is not working! This is UNACCEPTABLE! If you drive a vehicle, you need to go through this training! It will be one of the most important books you will ever read! How many of these people would have said they were good drivers? Yes, almost all of them! Fact: 25 percent of all fatal auto accidents are DUI accidents. The other 75 percent of the fatal accidents I classify as sober-related accidents! A problem this book will address in simple detail. Fact: The only way you would attend a driver safety course is by receiving a citation; you attend the class and say, This was a great refresher. I'm glad I took it. This is not a refresher but a survival course! The solution to preventing these staggering statistics is retraining the 210 million drivers on the road with a fundamental, focus-concept training with accident situations. This training is intended to make you a proactive driver versus a reactive driver! Being reactive, most of the time, is too late! I have done much research and developed simple analogies, concepts, and accident-possibility situations that will change your mindset and driving behavior every time you get behind the wheel. Driving Institute of America (DIA) wants to make you a DIA-Certified Teen Driver versus just a teen driver! There is a huge difference! Your life is worth a whole lot more than the cost of this book! You will understand that every time you get behind the wheel, YOU ARE

ENTERING THE MOST DANGEROUS PLACE IN THE WORLD THE PUBLIC HIGHWAYS! Never forget this! 100 PERCENT FOCUS AND SAFE DRIVING! You saved my life three different ways! Dee D., Austin, TX I've been a driver for over thirty years and this training taught me some life-saving skills! Matt T., Leander, TX I definitely think everyone who drives a vehicle absolutely needs this training! Tom J., Cedar Park, TX It definitely made our teen more responsible by completing all the certifications. It was an eye opener! Shorouk N., Austin, TX Thank you, this information has helped me so much and it made me more attentive to my own driving habits. Deni H., Austin, TX Yes, I believe everyone who completes this training will be a much more knowledgeable and safer driver. Karen E., Spokane, WA

The Driving Challenge Phil Berardelli, 2021-03-30 During 2020, when millions and millions of people obsessed - sometimes to the point of outright panic - over a contagious virus called COVID, a different plague, which had been gradually receding, began re-emerging with a vengeance. It turned out that 2020 was also a landmark year for deaths and injuries from highway collisions. Both rose by stunning amounts over the previous year. Overall, the jump in highway deaths per miles traveled spiked by 24 percent, the worst such figure in the entire century-long history of such

statistics. Why did this happen? It seems that as traffic diminished because of the country's limits on travel and business and social gatherings, those who remained on the roads exhibited unrestrained boldness, with tragic but predictable results. In the 20 years since Phil Berardelli first published The Driving Challenge, experience has shown his safe-driving techniques to be reliable and easy to follow. Now, with the carnage on our highways again spiraling upward, drivers need Phil's advice perhaps more than ever. So, make a small investment in your safety -- take The Driving Challenge!

Don't Text and Drive Trish Jackson, 2011-11-23 An essential guide to help keep teenage drivers safe on the roads.

Safe Young Drivers Phil Berardelli, 2006 To teenagers, a driver's license is the equivalent of the Holy Grail. Driving is cool. Unfortunately, most driver education classes offered in high schools and commercial driving schools aren't thorough enough to teach teenagers what they need to know when they take the wheel of a two-ton vehicle. Most kids have only a few hours of actual road experience when they get their license. That inexperience can be lethal. Vehicle accidents are the leading cause of death and injury for 15- to 19-year-olds in the United States. Author Phil Berardelli believes parents have no choice but to teach their kids how to drive. He taught his own two daughters, and with his book *Safe Young Drivers: A Guide for Parents and Teens*, he can help parents to teach their own kids. In *Safe Young Drivers*, Berardelli takes parents and teens from the empty parking lot to the crowded highway with the use of skill-building exercises, instructive illustrations and common-sense advice. He provides 10 steps for helping students acquire basic driving skills. As they master each set of skills, they move to the next. Good attitude is as important as good skills, so Berardelli also

offers five themes: Clear the way, learn the limits, share the road, think ahead, and feel the road. By adopting the attitude of a responsible driver, Berardelli says, students may actually compensate for the lack of driving skills and can avoid dangerous road situations altogether. Designed for parents who are willing to take the time to teach their teenagers to drive, Safe Young Drivers helps parents tailor driving lessons according to the ability and maturity levels of the teen. Some sections are addressed to parents, and othersto teens. Teaching kids to drive takes dedication and time, but Berardelli's book makes the task easier. It also can save lives!

Hey, I'm Marty. I Drive the Bus! Book II Martin Molinaro,2010 Marty is a Professional Bus / Shuttle Driver and has been driving for many years. His occupation is one that puts him up front and personal with a special sector of our society; Bus Passengers. Over the years he has accumulated an assortment of short stories while driving a city transit bus; he wishes to share these stories with you. Many of these stories are serious while others are mind boggling, hilarious or just make you say, Oh my gosh; what were they thinking. He has written this book using the following parameters: there are no swear words in this book (He doesn't need to use profanity to get his point across); he does not identify any ethnic backgrounds of the people in his stories (Marty

wants people to view people without prejudice and bias) and lastly he was honest and told the truth to the best of his ability (By doing this he has found out that people don't like the truth and will go to extremes to avoid it.) Marty's' writings are unique because he writes like he talks. He does this so that he can relate to anybody who has ever told a story. The stories that he tells are inspirational, motivational and humorous. He has become a Master Story Teller and shares his stories with all who will listen. So get on board; Put your fare in the box; Grab a seat and be prepared for the ride of your life! HEY, I'M MARTY. I DRIVE THE BUS! BOOK I is currently being sold worldwide.
