A Phenomenology of Career Change in the Malaysian Workforce Jennifer Yee Quan

Tham, Yit Sean Chong, Pervaiz K. Ahmed, 2023-07-25 Evolution in economy, technology and social institutions over time have given rise to boundaryless and Protean careers that promote mobility and self-direction in managing one's career. This has led to the phenomenon of career change whereby individuals undertake a shift from one field of work to a completely different field of work. In career change research, career changers have been studied as a collective, singular group undergoing a similar change experience, which neglects individual differences that may contrast the experience of change from one changer to another. Furthermore, the emotional experience that accompanies a career change has been examined with a primary focus on the role of positive emotions, which overlooks the role of negative emotions in career change. Thus, this book sheds light on three key narratives of career change; Rejectors, Navigators and Seekers, that were identified in a phenomenological study of career change amongst Malaysian working adults. Semi-structured interviews were conducted with 30 career changers across age, gender and ethnicity with a focus on how they made sense and meaning of their lived experience of career change within their environment and context. Each career change narrative was found to have different characteristics, motivations and behaviors respectively, which shaped their unique career change process. Negative emotions were also revealed as key drivers of the career change process, although each narrative expressed different types of negative emotions. Finally, the book also introduces an adaptive perspective to career development by way of the Adaptive Career Construal Model (ACCM) which was proposed based on the continuous bi-directional relationship between career decisions and career outcomes.

Golden Opportunity Cody Teets, 2012-07-31 Golden Opportunities is a collection of over two dozen profiles of people who launched their very successful careers with McDonalds. The book also includes 12 key “principles for success” that led to such remarkable careers as Katie Couric’s, Jay Leno’s, and Jeff Bezos’. All of these individuals started their job path based on the foundations of their first job at their hometown McDonald’s. Author, Cody Teets, Vice President of McDonald’s and VP/general manager of the Rocky Mountain Region, also made her way up from crew member to corporate office. What do 20 million Americans have in common with Tonight Show host Jay Leno, Amazon.com founder Jeff Bezos, actress Andie MacDowell, and former White House chief of staff Andrew Card? They all started their working careers at a McDonald’s restaurant, learning some of the most important lessons of their lives. Golden Opportunity is a myth-busting collection of 44 profiles of people who went from flipping burgers to building remarkable careers in business, the arts, politics, science, the military, and sports. Over the past six decades, millions of teens have earned their first paychecks under the Golden Arches. Whether they stayed for a year or a career, they learned work habits, basic skills, and the business principles that have made McDonald’s one of the best-run companies in the world. Their journeys remind us that at the beginning of every success story there is the first paycheck from the first “real” job. That first job is not a dead end, it is a young person’s rite of passage into adult responsibility. The author’s compelling personal story—growing

up in modest circumstances with a strong work ethic—gives a unique voice to the experiences of leading entrepreneurs, entertainment figures, and others who represent a cross section of American enterprise. They recall what they learned in their first jobs at McDonald's and how those lessons helped them build their remarkable careers. Including a foreword by Willard Scott—the original Ronald McDonald—and the 10 Golden Opportunity Keys to Success, this collection of stories will leave you wondering what today's burger flippers will achieve tomorrow. Part Time Jobs for Students John Wood,2015-01-06 Working is inevitable. It has always been and always will be. If not for nothing at all, at least for the need to survive. Of course, there are

people who work with pleasure and out of dedication. Unfortunately, these people are much rarer than one would expect them to be. The society we now live in, has taken away most of the pleasure of working, and in most cases these days, going to job is just a matter of earning money to survive. Our choices have little to do with what we fill our daily lives with. It does not matter if you like your job or not, if your boss is a nice or a difficult person, money has to be made. This is the ugly truth for many of us. There is still a way to have a better chance when it comes to choosing what you want to do with your life. And that is going to college. Having a higher education offers the possibility of specializing in a specific field, one that you like and find more suitable for who you are. In the early ages, Academia was a place where all knowledge was gathered and where studying was the only important thing. There were no specific and separate fields, a scholar had to know mathematics, biology, history and art as well. It was learning for the sake of knowing, and earning money had almost nothing to do with it. With progress and science discoveries each subject became more and more vast. So, the necessity to differentiate each field from the others appeared. Professionals were educated in specific fields of interest. What You'll Get Inside: Part-time Jobs for Students List Where can you find a proper part-time job? How to apply for a desired job How to keep a job you like Take a Sneak Peak Inside (page 6): There is a wide variety of part-time jobs, depending on the country, region and city you live in. we will further present some of the most often found in the job markets around the world. -Waiter/Waitress: this is probably the best known job for students. Probably because you can find a pub, a bar or a restaurant everywhere. The long program such places have offers the possibility to have very changeable working hours. Not much training is required and almost anybody can do it. Also, the tips are a big advantage and in a way give you the possibility to earn as much as you work. On the other hand, this job can be tiresome for many people and if you

are at your first job, you might have difficulty adapting to it. Remember that you will be working with all sort of clients, and you have to constantly smile and be nice. However, if you are a calm, sociable person who wants to jump straight in the working class, this could be an interesting experience. -Cashier: this is very similar to being a waiter, except for the hard effort of standing all day long. But a cashier job is not as easy to find, and even harder to keep. In most cases, you are offered a simpler job to start, and if you prove you... Buy Now! Start Looking Today, Be Hired Tomorrow!
