Myths and Legends of Ancient Greece and Rome E. M. Berens, 2012-05-28 The want of an interesting work on Greek and Roman mythology, suitable for the requirements of both boys and girls, has long been recognized by the principals of our advanced schools. The study of the classics themselves, even where the attainments of the pupil have rendered this feasible, has not been found altogether successful in giving to the student a clear and succinct idea of the religious beliefs of the ancients, and it has been suggested that a work which would so deal with the subject as to render it at once interesting and instructive would be hailed as a valuable introduction to the study of classic authors, and would be found to assist materially the labours of both master and pupil. In endeavouring to supply this want I have sought to place before the reader a lifelike picture of the deities of classical times as they were conceived and worshipped by the ancients themselves, and thereby to awaken in the minds of young students a desire to become more intimately acquainted with the noble productions of classical antiquity.

A Hand-Book of Mythology E. M. Berens, 2015-06-02 Excerpt from A Hand-Book of Mythology: The

Myths and Legends of Ancient Greece and Rome In the preparation of this series the authors have had one object clearly in view - to so develop the study of the English language as to present a complete, progressive course, from the Spelling-Book to the study of English Literature. The troublesome contradictions which arise in using books arranged by different authors on these subjects, and which require much time for explanation in the school-room, will be avoided by the use of the above Complete Course. Teachers are earnestly invited to examine these books. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Myths and Legends of Ancient Greece and Rome E. M. Berens,2010-11 Excerpt: It is hardly necessary to dwell upon the importance of the study of Mythology: our poems, our novels, and even our daily journals teem with classical allusions; nor can a visit to our art galleries and museums be fully enjoyed without something more than a mere superficial knowledge of a subject which has in all ages inspired painters, sculptors, and poets. It therefore only remains for me to express a hope that my little work may prove useful, not only to teachers and scholars, but also to a large class of general readers, who, in whiling away a leisure hour, may derive some pleasure and profit from its perusal.
