If I Had a Hammer Margaret Little, 2011-11-01 This book is about poor women, many of them single mothers, Aboriginal, or both, who have defied the odds to become apprenticing carpenters. To do so they have juggled child-care schedules, left abusive partners, and kicked drug habits to participate in a unique intensive retraining program. Through the voices of the women participants and their instructors, Margaret Little analyzes the program to reveal the struggles and triumphs of low-income women. She demonstrates that there is a desperate need for retraining programs that provide real opportunities for economic independence. She also argues that, in an era of workfare and time-limited welfare, such programs are an effective strategy for welfare reform.

Tools and Weapons Brad Smith, Carol Ann Browne, 2019-09-10 The instant New York Times bestseller. From Microsoft's president and one of the tech industry's broadest thinkers, a frank and thoughtful reckoning with how to balance enormous promise and existential risk as the digitization of everything accelerates. "A colorful and insightful insiders' view of how technology is both empowering and threatening us. From privacy to cyberattacks, this timely book is a useful guide for how to navigate the digital future." —Walter Isaacson Microsoft President Brad Smith operates by a simple core belief: When your technology changes the world, you bear a responsibility to help address the world you have helped create. This might seem uncontroversial, but it flies in the face of a tech sector long obsessed with rapid growth and sometimes on disruption as an end in itself. While

sweeping digital transformation holds great promise, we have reached an inflection point. The world has turned information technology into both a powerful tool and a formidable weapon, and new approaches are needed to manage an era defined by even more powerful inventions like artificial intelligence. Companies that create technology must accept greater responsibility for the future, and governments will need to regulate technology by moving faster and catching up with the pace of innovation. In *Tools and Weapons*, Brad Smith and Carol Ann Browne bring us a captivating narrative from the cockpit of one of the world's largest and most powerful tech companies as it finds itself in the middle of some of the thorniest emerging issues of our time. These are challenges that come with no preexisting playbook, including privacy, cybercrime and cyberwar, social media, the moral conundrums of artificial intelligence, big tech's relationship to inequality, and the challenges for democracy, far and near. While in no way a self-glorifying Microsoft memoir, the book pulls back the curtain remarkably wide onto some of the company's most crucial recent decision points as it strives to protect the hopes technology offers against the very real threats it also presents. There are huge ramifications for communities and countries, and Brad Smith provides a thoughtful and urgent contribution to that effort.

Shopping for a Baby's First Christmas (Shopping #15) (Romantic Comedy) Julia Kent,2018-12-06 My mother wants all her kids and grandkids to spend Christmas Eve at her house and wake up on Christmas morning together. Sounds reasonable, right? And it would be. If it weren't my mother. My husband, Declan, is protesting any involvement, though he's openly intrigued by the idea of claiming his territory by having sex in my childhood bed. And by intrigued, I mean a series of really hot suggestions that make me whimper when I have to say no. Wait-why am I saying no, again? Mom has turned her house into a Christmas showcase that makes Frankenmuth look like the picked-over clearance rack at Target on December 26. You know those crazy people on Etsy who make felted gnomes out of belly-button lint and use... a certain kind of hair... to make thatched roofs on little decorative elf homes? Those people are saner than my mother. There is no force of nature stronger-or more emotionally volatile-than a fifty-something grandmother determined to create holiday memories. Wait a minute. Maybe there is. My husband.
