Innovative and Creative Industries in Hong Kong Grace L K Leung,2018-10-29 The experience of Hong Kong's innovative and creative industries and the challenges they face serves as an important case study for other Chinese and Asian cities that are actively developing their innovative and creative industries in the era of globalization. The return of sovereignty over Hong Kong back to China in 1997 has led to both collaboration and competition between the two places in innovative and creative sectors for the Greater China and Asian Regions. Hong Kong has remained unique in spite of the integration, but she has to strike a delicate balance between being simultaneously a Chinese and an international city. This book looks at different innovative and creative industries, such as international art and culture exhibition, innovative technology, digital entertainment, TV and movies, as well as government policy for innovative and creative industries, particularly the changing competitive landscape brought about by the latest Great Bay Area development. Drawing insights from cultural history, innovation economics, cultural policy studies, and cultural geography, this book explores the opportunities and challenges of Hong Kong's innovative and creative industries, in particular after the change of sovereignty in 1997. It demonstrates that the city's legacy, and heavy government input in capital, do not guarantee their sustainable development. This is a book not only for policymakers or academics interested in innovative and creative industries but also to students contemplating a career in these areas in Hong Kong, the Greater China and the Asian Region.

Entrepreneurship and Taiwan's Economic Dynamics Fu-Lai Tony Yu,2012-04-03 This book sheds new light on the economic development of Taiwan, examining how entrepreneurs identify and pursue profit opportunities, and showing how their efforts have enhanced Taiwan's economic dynamics.

That's the Way It Is Charles L. Ponce de Leon,2016-09-09 Ever since Newton Minow taught us sophisticates to bemoan the descent of television into a vast wasteland, the dyspeptic chorus of jeremiahs who insist that television news in particular has gone from gold to dross gets noisier and noisier. Charles Ponce de Leon says here, in effect, that this is misleading, if not simply fatuous. He argues in this well-paced, lively, readable book that TV news has changed in response to broader changes in the TV industry and American culture. It is pointless to bewail its decline. That's the Way It Is gives us the very first history of American television news, spanning more than six decades, from Camel News Caravan to Countdown with Keith Oberman and The Daily Show. Starting in the latter 1940s, television news featured a succession of broadcasters who became household names, even presences: Eric Sevareid, Walter Cronkite, David Brinkley, Peter Jennings, Brian Williams, Katie Couric, and, with cable expansion, people like Glenn Beck, Jon Stewart, and Bill O'Reilly. But behind the scenes, the parallel story is just as interesting, involving executives, producers, and journalists who were responsible for the field's most important innovations. Included with mainstream network news programs is an engaging treatment of news magazines like 60 Minutes and 20/20, as well as morning news shows like Today and Good Morning America. Ponce de Leon gives ample attention to the establishment of cable networks (CNN, and the later competitors, Fox News and MSNBC), mixing in colorful anecdotes about the likes of Roger Ailes and Roone Arledge. Frothy features and other kinds of entertainment have been part and parcel of TV news from the start; viewer preferences have always played a role in the evolution of programming, although the disintegration of a national culture since the 1970s means that most of us no longer follow the news as a civic obligation. Throughout, Ponce de Leon places his history in a broader cultural context, emphasizing tensions between the public service mission of TV news and the quest for profitability and broad appeal.

WHY? L. Steve Carmickle, *WHY?* is about a lonely old man named Mr. Flex, who is always yelling "Why?" and is constantly questioning his circumstances. The story takes place during the summer in a small town, where the townspeople are ambivalent to Mr. Flex's distress. It takes a stranger coming to the neighborhood and befriending Mr. Flex to find out why he is yelling the word. Oswald has come to town to visit his brother, Jarvis. Oswald learns that Mr. Flex is yelling "Why?" because his wife took his children and left town without telling him.

Managing Today's News Media Samir Husni,Debra Halpern Wenger,Hank Price,2015-07-29 The business of journalism is in the midst of massive change. Managing Today's News Media: Audience First offers practical solutions on how to cope with and adapt to the evolving media landscape. News media experts Samir Husni, Debra Halpern Wenger, and Hank Price introduce a forward-looking framework for understanding why change is occurring and what it means to the business of journalism. Central to this new paradigm is a focus on the audience. The authors introduce The 4Cs Strategy to describe how customers, control, choice, and change are all part of a strategy for successful media organizations. Every chapter in the book relates to one or more of these four key principles: Customer - Each platform must offer a unique experience to the customer. Choice - The audience has more options than ever, and news organizations must work harder to be the preferred choice. Control - Sharing power and control with the audience is now a necessary part of running a successful news operation. Change - Companies can manage change through adaptation. Real-world case studies, important theoretical grounding, and a focus on understanding rather than resisting the customer's desire for choice and control make this an unbeatable resource for students and managers alike who want to succeed in this changed media business landscape.

How to Watch TV News Neil Postman,Steve Powers,2008-06-24 A scathing and prescient look at television news' now updated for the new tech-savvy generation Television news : genuine information or entertainment fodder? Fifteen years ago, Neil Postman, a pioneer in media education and author of the bestselling *Amusing Ourselves to Death*, and Steve Powers, an award-winning broadcast journalist, concluded that anyone who relies exclusively on their television for accurate world news is making a big mistake. A cash cow laden with money from advertisers, so-called news shows glut viewers with celebrity coverage at the cost of things they really should know. Today, this message is still appallingly true but the problems have multiplied, along with the power of the Internet and the abundance of cable channels. A must-read for anyone concerned with the way media is manipulating our worldview, this newly revised edition addresses the evolving technology and devolving quality of America's television news programming.

Hong Kong Under Chinese Rule Yongnian Zheng,Chiew Ping Yew,2013 This edited volume is a compilation of the analyses written by East Asian Institute experts on Hong Kong since the handover. It covers most, if not all the important events that have taken place in Hong Kong since 1997, including its economic integration and relations with China, its governance conundrums, the Hong Kong identity and nation-building, the implementation of the minimum wage, and the elections from 2011 to 2012. The book's panoramic view of Hong Kong makes it a useful resource for readers who seek a broad understanding of the city and how it has evolved after its return to China. It also offers some glimpses into the direction Hong Kong is heading in its socio-economic relations with China at both the state and society levels, as well as its domestic political developments

and the prospects for democratization.

Nephilim Apocalypse Dr. Joseph Opare , Is humanity being steered towards a Nephilim Apocalypse? What events triggered the worldwide flood in the days of Noah, what has Atlantis or the Nephilim got to do with this and are these things happening again? Ever wondered what happened to the fallen angels mentioned in the bible, their giant offspring who ruled the earth, and what has become of their bloodlines ever since? Do you think they still play a role in world governance? Do you think some of the fallen angel’s offspring might still be alive and have survived through the ages? Drawing upon his powers of foreshadowing, prefiguring and prophecy Dr Joseph Opare uncovered the connections between major historical events and our present day reality. This book was formerly titled “The New Age Of Atlantis” because it connects the lost continent with the Nephilim. Inside this book You’re going to learn the truth about ancient technology, bloodlines and the evil powers who walk the earth amongst us and how to protect yourself from them. Not only that, you’ll hear about the occult connections between Atlantis, Babylon, The Nazi’s and English Occult Grandmasters like Sir John Dee. Follow Dr Joseph Opare on an exploration of Matthew 24 and ancient world history which uncovers a plot by evil forces to resurrect a technological world under the banner of a “Novus Ordo Seclorum,” the Latin words for New Age Order or New World Order. Don’t live without this prophetic knowledge. This insight will help prepare you for things to come. A New World Order is rising, the question is: on which side will you be?
