**The Mind of the Spirit** Craig S. Keener,2016-06-21 Leading Scholar Explores Paul's Teaching on the Mind This major work by a leading New Testament scholar explores an important but neglected area of Pauline theology, Paul's teaching about the mind. In discussing matters such as the corrupted mind, the mind of Christ, and the renewal of the mind, Paul adapts language from popular intellectual thought in his day, but he does so in a way distinctively focused on Christ and Christ's role in the believer's transformation. Keener enables readers to understand this thought world so they can interpret Paul's language for contemporary Christian life. The book helps overcome a false separation between following the Spirit and using human judgment and provides a new foundation for relating biblical studies and Christian counseling.

**Marriage as a Covenant** Gordon Paul

Hugenberger,2014-09-03 This book focuses on the interpretation of Malachi 2:10-16, which censures the lax marital practice of its

contemporaries. In particular, Hugenberger investigates Malachi's identification of marriage as a covenant in response to recent scholarly challenges to this identification. Taking the issues raised by Malachi as his point of departure, Hugenberger examines the nature of covenant and oath (including verba solemnity and oath-signs), and, in light of these findings, explores the theory of marriage implied elsewhere in the Old Testament. Included in this investigation are an analysis of the concentric literary structure of Malachi and a study of the Old Testament's ethical perspectives on divorce, polygamy, and sexual fidelity. An extensive bibliography and indices complete the book.

**Marriage as a Covenant** Gordon Hugenberger, 2014-01-08  
Marriage as a Covenant is part of the Biblical Studies Library, which features North American paperback editions of original monographs of proven academic merit. These works model sound exegesis and theology and make a significant contribution to biblical scholarship.

From Polypragmon to Curiosus Matthew Leigh, 2013-04-25 This is a study of how Greek and Latin writers describe curious, meddlesome, and exaggerated behavior. Founded on a family of Greek terms, and the Latin words used to describe them, Leigh surveys how they were used in Greek literature from the 5th and 4th centuries BC and their Latin usage in relation to Hellenistic and imperial Greek.

*Philoponus: On Aristotle Posterior Analytics 1.9-18* Philoponus, 2014-04-22 In this part of the Posterior Analytics, Aristotle elaborates his assessment of how universal truths of science can be scientifically explained as inevitable in demonstrative proofs. But he introduces complications: some sciences discuss phenomena that can only be explained by higher sciences and again sometimes we reason out a cause from an effect, rather than an effect from a cause. Philoponus takes these issues further. Reasoning from particular to universal is the direction taken by induction, and in mathematics reasoning from a theorem to the higher principles from which it follows is considered particularly valuable. It corresponds to the direction of analysis, as opposed to synthesis. This volume contains an English translation of Philoponus' commentary, a detailed introduction, extensive explanatory notes and a bibliography.

**The Antiquities of Asia** Diodore de Sicile, 1989-01-01

Reconsidering the Book of the Four Nicholas R.

Werse, 2019-05-20 Although many scholars recognize literary similarities between Hosea, Amos, Micah, and Zephaniah, defining the compositional relationship between these texts remains a matter of debate. Following the scholarly trajectory of exploring the compositional relationship between the Twelve prophets, several scholars argue that these four prophetic texts formed a precursory collection to the Book of the Twelve. Yet even among

advocates for this ‘Book of the Four’ there remain differences in defining the form and function of the collection. By reexamining the literary parallels between these texts, Werse shows how different methodological convictions have led to the diverse composition models in the field today. Through careful consideration of emerging insights in the study of deuteronomism and scribalism, Werse provides an innovative composition model explaining how these four texts came to function as a collection in the wake of the traumatic destruction of Jerusalem. This volume explores a historic function of these prophetic voices by examining the editorial process that drew them together.
